Enochyille Alliance.

This sub-Alliance is in good workto office.

Mrs. H. M. Leazer is treasurer and Miss Fannie Buie secretary. No Alliance in the county has two better officers. We know this is saying a good deal but we will stick to it.

Leazer & Rogers gined two bales of cotton last Thursday, August 27th, Out of one lot of 1,342 pounds seed cotton, the bale weighed 508 pounds. The second lot of 1,187 pounds seed cotton, the bale weighed 452 pounds. This cotton was picked out this year but they refused to tell where it was

We notice more peas sown in this community than ever before. This means more forage this winter and a better wheat crop next year. Let all of our-farmers now better themselves to sow a large wheat crop this fall. A MEMBER.

Don't Talk Polities.

The Alliance Vindicator hits the

mail squarely on the head when it says: "Farmers, you ought to quit talking politics so much. You are creating great disturbance. The politicians are very uneasy and you ought to have sense enough to know that it is wrong to disturb a man. Don't do it farmers; you are hable to throw some of these fellows out of a job and you know they won't work-they don't like to, no how. So just hush up and again allow the political atmosphere to get still. Of course the stench and filth will emit a rather unfavorable odor, olfactories are used to such, so you don't mind it much, do you? Then, again, you will "bust up" the organization if you don't stop so much racket. Talk about how to farm, how to carry in chips, slop the hogs, etc. Teach each other what time of the year to look for screw worms; the best method of killing ticks, and how to manage to keep your fences in out of the weather. It's a shame how you old farmers allow your outhonses, barns and tences to stand out and take the rain. No, it won't do; don't do it

A Poverty-stricken Millionaire!

This seems a paradox, but it is explained by one of New York's richest "I don't count my wealth in dollars," he said. "What are all my possessions to me, since I am a victim of consumption? My doctor tells me that I have but a few months to live, for the disease is incurable. I am poor-er than that beggar yonder." "But," interupted the friend to whom he spoke, "consumption can be cured. If taken in time, Dr. Pierce's Golden Medical Discovery will cradicate every vestige of the disease from your system." 'Pil try it," said the millionaire, and he did; and to-day there is not a healthier, happier man to be found anywhere. The "Discovery" strikes at the seat of the complaint. Consumption is a disease of the blood-is nothing more nor less than lung-scrofula-and it must

and does yield to this wonderful remedy. "Golden Medical Discovery" is not only an acknowledged remedy for that terribly fatal malady, when taken in time and given a fair trial, but also for all forms of Scrofulous, Skin and Scalp Diseases, as White Swellings, Fever-sores, Hip-joint Disease, Salt-rheum, Tetter, Eczema, Boils, Carbuncles, Ergsipelas and kindred ailments.

Five Million. Congress is to be asked to loan the World's Columbian Exposition \$5, 000,000 at least, and perhaps \$7,000, 000. That is the decision of the national commissioners, and the Chicago directors are giving them strong moral support. For two days a special committee has been holding sessions, discussing the best policy to purse in getting the loan. This committee, composed of Gen. St. Clair, of West Virginia, and G. V. Massey, of Delaware, both influential members of the national commission; director-general Davis and director Gage, Baker and Jeffary. All agreed that Congress ought to make the loan, but how to get it is the question under discussion. Many of the members de-A.
