

Carolina Watchman.
THURSDAY, JAN. 28, 1892.
CITY AND COUNTY.

All the Best News in Rowan and Vicinity.

Improvements are going on around the depot.

Mrs. Theo. F. Klutz is in New Bern visiting Mrs. C. G. Vandell.

The Methodist church has just received 150 new hymn books.

What a delightful thing an electric light plant would be in Salisbury.

A switch has been put in at a saw mill two miles from here on the Yadkin railroad.

E. B. S. Sons & Co., dealers in fertilizers, of Charlotte have an advertisement in this paper. Look it up.

Sunshine always follows rain, and consequently we had two delightful springs this fall—the first of this week.

Grapes, which has been a household word throughout this section for several weeks, has conspicuously abated.

Mr. J. D. Levin went down to China Grove Monday to take up the position of storekeeper at Riley's Mercantile.

The school at Ogran church this day, was destroyed by fire last week.

We understand it will soon be rebuilt. The annual meeting of the South Yadkin Baptist Association will be held at the Baptist church in this city, beginning Friday.

A post office has been fitted up in the court house for the use of Professor Klemmer, superintendent of public instruction.

Thomas A. Ellison, the chartered wiz-ard, will return to Charlotte next month to resume his experiments in reducing gold ores.

A penny weighing machine has been placed in the post office, and is keeping a sharp competition with the clerk's old stamp window.

If the young ladies who organized the leg to the leap year ball would take the trouble to sign on "North" they would do some practical good.

By order of the Postoffice Department, all post office will be discontinued after January 31st. All matter addressed to Rock Hill will be sent to Faith.

We are in receipt of a beautifully col-ored world guide from James N. & Sons, seed dealers, of Rochester, N. Y. A choice old and reliable house.

That Jim Cook passed through Lumberton on his way to the state of Maryland. He returned Monday, and again took a state—Supply territory.

We briefly render to the president of the United States, in case of war with England, the services of about two dozen sailors who live in the sunshine on the coast waters every warm day.

A tenant house belonging to Mr. J. A. Reid, near Trading Ford, was destroyed by fire Tuesday. It is supposed to have caught from the furnace at his mill. The loss is \$300 with no insurance.

The Sunday News reports what it calls a big fight. Regis Torrence, Col., of that place, made an assignment. The liabilities amount to \$17, and the assets are two plows and a pair of breeches.

Among the undelivered letters in the Delano post-office is one for Santa Claus. That estimable gentleman was in Salisbury the 25th of last month on his way South. The letter should be forwarded.

L. Ritchie & Co. have purchased the stock of Jas. T. Sessman, on Lincolnton. They will move their stock of general merchandise into the new stand in a few days, and the stock of stoves, etc., will be disposed of.

A horse was stolen from the Farmers' Warehouse last Monday night, and up to this time we have not heard of the capture of the thief or recovery of the horse. The horse was the property of Mr. D. H. Waters, of Gap Creek, Ashe county.

We learn that Mr. H. C. Lowe, an engineer on the Western road, is lying at the point of death, with consumption, fit for home about thirty miles below Greensboro on the C. P. & V. R. R., whence he had gone after being taken ill.

The Yadkin Railroad.

The annual meeting of the stockholders and directors of the Yadkin railroad was held in this city last Thursday.

The usual routine business was transacted and the election of officers held.

The old board of directors was re-elected, with Col. A. B. Andrews as president.

The president's report showed the road to be in excellent condition, financially sound otherwise. Only one breakdown occurred since the trains started running about eighteen months ago. This is a good record.

The Yadkin road was a good investment, and the WATCHMAN urges to see the day when it will connect our city with Wadesboro.

It will have to be extended only about twenty miles further, and then we would probably have double daily trains from Wilmington and the sea coast. A number of years ago Wadesboro voted on subscription to the Salisbury & Wadesboro Railroad, and we know of no reason why she should not do it again.

The townships that the road would traverse between Norwood and Wadesboro will do their part. Such a connection would be a good thing for Salisbury and our people are willing to give substantial encouragement to the scheme. What has Wadesboro and Norwood to say?

Doctor W. H. Wakefield, of Greensboro, N. C., will be in Salisbury on Saturday for an extensive trip in Florida. They go directly to Jacksonville, and there will visit St. Augustine, Tampa and other places of interest. They will probably take in the island of Cuba before returning. A month will be consumed in the trip.

Mrs. W. P. Barker and mother, Mrs. Bacon, will leave on the noon train Saturday for an extensive trip in Florida. They go directly to Jacksonville, and there will visit St. Augustine, Tampa and other places of interest. They will probably take in the island of Cuba before returning. A month will be consumed in the trip.

Prof. F. B. Brown, County Alliance lecturer, will deliver addresses at Elm Grove school-house on February 24th, at night; at Oak Forest, near Bringles Ferry, on the 27th, at 10 a. m., and at Garfield the same night. Addresses are also expected from Capt. Jake Fisher, Capt. John Beard and S. A. Barnhardt.

The public square around the fountain is being macadamized. It is very disagreeable to cross from one corner to another on the jump rocks. The WATCHMAN now rises to ask whether the town commissioners are going to put a respectable footpath across the streets. One would think it ought to have been done before the macadam was laid.

One can hardly go out on the streets now-days without hearing the familiar tune of "Comrades." It is very pretty and we do not object. It is all the go. The bells play and sing it and the gulf whistlers. The reporter thinks he heard the frogs croaking it on a warm evening this week, and a cat on his roofawake him right before last with the same old tune. Verily, it is great fun.

The Pink Granite Company, of Washington, D. C., have purchased the Dunn's Mountain Granite Company on the Yadkin railroad four miles from this city.

The company is composed of substantial moneyed men, who bought the property for the purpose of marketing the granite.

The capital is \$60,000 and the charter perpetual. Mr. F. B. Arendell, of this city is the general manager. We look for much from this new company.

Charlotte Has Volunteered.

The Hornets Nest Riflemen, of Charlotte, met Monday night and passed resolutions unanimously instructing their captain to tender the services of the company to the president in case war should be declared with Chile. It is said that another company is being organized in that city for the purpose of warming up the Chilianas.

Charlotte and Mecklenburg county are ever at the front when a question of national honor or liberty is involved.

There is a lot of fun in this Chilian affair so long as no one gets hurt.

Died in His Sleep.

Mr. D. Barrentine an aged gentleman living with his daughter, Mrs. Wm. A. West, on South Union street, was found dead in his bed Tuesday morning. He had been unwell for some time, but nothing serious was feared. A physician was summoned, who pronounced it apoplexy.

His relatives, accompanied by a few friends, sadly followed his remains to Greensboro, where they were taken yesterday morning for burial. Mrs. West's husband perished at Boston's bridge just five months to the day previous to the death of her father. The WATCHMAN extends its sympathy.

A Sensible Solution.

The Raleigh Chronicle offers a year's subscription to that pasted and cut daily to the person who gives the best solution to the problem: "Why was the farmer under power when brought in contact with the miscreants?" It publishes a large number of replies every few days. Some of them are very good, but others are foolish in the extreme. But the most sensible one that we have read is by Rev. J. J. Ream, the presiding elder of the Salisbury circuit. Here it is:

SALEM, N. C., Jan. 12, 1892.
1. After the farmer was brought into contact with the world he sold more; but others fixed the price of all that he sold.

2. He also (directly and indirectly) paid the freight on all he sold and all he bought; but others fixed the freight rates, and those freight rates were intended to cover the cost of construction, equipment, maintenance and dividends on the railroad?

Inevitable result: The farmer was made poor because he had no voice in fixing the price of anything.

J. J. REAM.

Result of the Census.

We are in receipt of the census bulletin, giving the population of North Carolina by counties, townships and towns. The population of the State in 1890 was 1,617,937, against 1,339,750 in 1880, showing an increase of 281,187.

The population of Rowan county is 24,123 against 19,495 in 1880. This shows an increase of 4,638 in ten years. Salisbury is put down as a city, with a population of 1,413 against 2,767 in 1880. This shows an increase in ten years of 1,355, or more than 50 per cent.

The enumeration of the inhabitants of Salisbury did not include those residing in the yard of the order

of St. Paul's, the Presbytery of the Carolinas, the grand old and reliable house.

The difference in the census bulletins is due to the fact that the

bulletin of the census bureau is based on the figures of the 1880 census.

Whenceas the dealers of fertilizer have not reduced the price of their goods, and that the same is cannot pay the present price and raise cotton at six cents per pound.

PROPOSITION.—That the members of the Association of Friends, No. 23, hereafter without purchase any new ground unless it is guaranteed to contain fifteen per cent, of phosphate, and that we will not pay more than ten cents per pound for same.

PASSED.—That the members of the Association of Friends, No. 23, hereafter without purchase any new ground unless it is guaranteed to contain fifteen per cent, of phosphate, and that we will not pay more than ten cents per pound for same.

PROPOSITION.—That the members of the Association of Friends, No. 23, hereafter without purchase any new ground unless it is guaranteed to contain fifteen per cent, of phosphate, and that we will not pay more than ten cents per pound for same.
