Among them was a preacher who wished the people to hear his loud talking. He gave the Alliance a great deal of valuable information. He was wound up tight but was of very small calible, He struck a fellow who was willing to say amen to all he said, and he told us the cause of all the financial trouble. He said the farmers do not work and they sit about the stores and whittle and talk about the rich oppressing the poor. and that they wanted everything divided out equally, and a good many other things of that kind. Captain said he would not make a bid on it; that it did not suit him. We returned and began looking about for breakfast. Your correspondent and Brother Query, of Davidson College, pulled up at a restaurant, called for a square meal, and were informed that it would be forthcoming. Well. some of it was square and some very strong. I do not allude to the coffee, I mean the fish. I did not try the beef, but one fellow to my right, who was so hard hearted that he would not take any of the excuses the waiters offered for the shortness of things, said his beef was so tough he could not drive a four-penny nail in the gravy. The World's Columbian commission has run out of funds. It had on May 4th last a balance of just \$1,013.29 to pay salaries, rent, etc., for the remainder of the fiscal year ending June 30. The monthly expense account averages \$5,000, therefore it will have \$1,000 to pay off \$10,000 worth of debts. As Congress has made no appropriation for next year, there is a probability that the commission will have to go around begging for pocket-money.

The number of foreign born soidiers in the United States Army during the civil war was according to Gen. Franz Sigel, who has made the subject a Sigel, who has made the subject a study, about 500,000. Of these 144,-222 were Irishmen and 176,767 were Germans. The colored troops numbered 186,017, of whom 125,000 served at one time. And then our northern brethren have the gall to say, "Just look what we did."
