Crorespondence of the Watchman. We are having a calm here now. The

students and commencement visitors have all gone to their homes. Among the flowers from a distance that we saw in town the past week were Misses Mary Simpson, Annie Mellen, Annie Hogue, Ivy Hogue, Bessie Carrol, Addie Williams and Mary Barron from South Carolina, and Misses Dena Query and Annie Kirkpatrick of North Carolina. We wish to say at this point that Huntersville High School has never had a more all round gentlemanly set of boys than the boys of the last session. Our citizens regret to see then leave knowing that they will never all return to school There is not one of them but what will be welcome any time they wish to return, although the crowd was about the largest ever seen here at a commencement. The behavior was never better, nothing occurring to mar the exercises. While the concert was going on Thursday night some cowardly scoundre's peeled the bark from about twenty-five shade trees in town. We heard of a man who stole the butter from a blind negro's bread and laughed at him feeling for it. we have heard of one stealing a sick cats soup, we heard of one stealing the coppers from a dead negroes eyes, we heard of one compelling his wife to put buying. shortning in the bread the long way so as to save it, but they are all high-toned entlemen compared to the fellows that peeled the elms here.
