Spurred on by Love.

After a patient, weary search, extending over the Western continent, and covering a period of nearly forty years, Charles Hartley, of Oswego, N. Y., a few days ago at this point ended a period in his eventful life by arresting Allen Hartley a cousin, charged with the murder of his wife two score years ago, says an Ellenwood (B. C.) correspondent of the Cincinnati Enquirer.

PREST BUTLER'S MESSAGE.

To the State Alliance in Session at Greensboro Last Week.

To the N. C. Farmers' State Alliance: BROTHERS:—One year ago you placed your banner in my hands. You placed me in the front of the N. C. division of the great national army of reformers.

were brought together by like causes and perforce with great unanimity, worked for the same end. The honor's work was unity of thought. It stands crystallized in the St. Louis platform...

What is the enemy doing to prove it unity of action? They are trying to blind the great issues at stake by appeals to sectional prejudice. Their scheme is to drown reform with prejudice, to divide reformers with the cry of force bill.

THE RALEIGH CONFERENCE.

On April 17th I called a conference of the Alliance of the State through one representative from each county. I did it in the interest of our principles and the cause of reform.

DEATH OF COL. POLK.

During the year the organization, National as well as State, has suffered an irreparable loss, and each member has felt a sore bereavement by the untimely death of our great and beloved leader, Col. L. L. Polk.

Some animals exhibit a queer lack of sense.

"Put a buzzard in a pen about six feet square, and open at the top, and it is as much a prisoner as though it were shut up in a box. This is because buzzards always begin their flight by taking a short run, and they either cannot or will not attempt to fly unless they can do so. Again, take a common bumble bee and put it in a goblet. It will remain a prisoner for hours trying to escape through the sides, without ever thinking of escaping through the top."

Will Wynn, an expert bicycle rider, will leave Charleston, S. C., on the first of September for a tour across the continent on his wheel.

Whatever the government agrees to receive in payment of the public dues is money, no matter what its form may be, treasury notes, etc.

Children Cry for Pitcher's Castoria.

When we arrived at Arlington we found about two hundred of the hard hatred fillers of the soil assembled in a beautiful grove waiting for Brother Phillips.

After supper we drove to Wilson's Grove, where we found a large crowd waiting to hear Mr. Phillips. He gave them a half hour talk. At the close of his speech Mr. R. N. Cook, a young school teacher, was called and spoke for half an hour.

Marrying.

Josh Billings thus writes to an old friend about marrying: By awl means, Joe, get married, if you have a fair show. Don't stand shivering on the bank, but pitch rite in and stick your head under, and the sliver is over. That ain't any more strike in getting married than is in eating peanuts.

Husband: "That was the month that baby was teething."

When later, the house in which the Hartleys had lived, was being repaired, and there was in a cemented vault beneath it the skeleton of Agnes Hartley, the town went mad. But the murderer was gone and there was no trace.

While the organization has been making this progress, what has the enemy been doing? and here we might ask who the enemy is. When under unjust conditions a certain class of people are robbed of the fruits of their labors, some other class gets and accumulates what the other loses.
