A FEW days since the daily papers reported Jay Gould, as being at Hot Springs. Pomeroy's Advance Thought remarks that Jay is getting pretty near his destination.

A YOUNG lady who has a suit in court in Colorado beat the record the other day by beating her lawyer over the head with an umbrella because he was delaying the case.

IN 1860 the mortgages foreclosed in ten Western States aggregated \$15,000,000. In 1890 the number foreclosed amounted to \$63,000,000. That partly accounts for the political uprising.

JEFFERSON said "less than \$60 per capita in circulation is not sufficient for the prosperity of the country." Yet Secretary Foster only claims \$23, and two-thirds of that is not in reach of ordinary people.

THE country will soon be a mass of political clubs. Democrats, Republicans and People's party folks are clubbing together for good or evil. Forty People's party clubs have been organized in New York City.

"HONEST money," did you say? Well, all of it is honest. 90 cents worth of gold, 70 cents worth of silver, 18 cents worth of nick's, or a fraction of a cent's worth of paper, all make a dollar worth one hundred cents. The stamp of the government does the work. All this talk about "depreciated money" is false. The proper distribution of it is the greatest issue.

THROWN OUT.

The other day, while a cold rain was falling, sixty families were thrown out of their homes at Homestead, Pa., by order of that monster in human form, Carnegie. Every one of them were old employees. They had toiled for years and made Carnegie many times a millionaire. Not only Carnegie, but Frick and the other members of the company, who are all millionaires.

The cause was that these men refused to work for less wages than they had been getting, because they knew that the reduction was made to raise campaign boodle to pay liars to go on the stump to delude the people with protection and force bill nonsense.

The furniture of the evicted families was thrown out in the rain and flung. Some members of the families were sick, but that made no difference. Where they went or how they will live no one knows. He who notes the fall of even a sparrow will look after them and met out justice to those who wronged them.

It is not beyond human power to regulate these things. The ballot rightly directed will do the work. Just so long as the people of this country act the fool and vote for sentiment rather than their own interests they may expect to be robbed and misused. Your redemption, so far as this world is concerned, is in looking after your own welfare. So long as you vote to make millionaires and paupers you will be one or the other, and a thousand chances to one you will be a pauper.

A "CALAMITY howler" is a gentleman and a scholar when compared with a calamity maker.

RAISE YOUR OWN SUPPLIES.

We see it stated that merchants in the South and West and bankers are telling the people that they need expect no future favors if "our party is beaten"—no matter what party that happens to be.

That is all wrong. It will be a bad day when farmers are no longer permitted to vote as they see proper, for some portions of other classes are in that condition now. But the thing to do is raise your own supplies, no matter who is elected. Begin now to prepare for a good crop of wheat, if you have not already done so. There is hardly an acre of land in this section of the State that will not produce wheat if put in good cultivation. Re-

member that you cannot afford to be floundering at \$1.50 per hundred, meat at 5 cents a pound nor corn at 30 cents a bushel so long as cotton and tobacco stays at or below cost of production. Don't try it.

Bradstreet's Review says the nominees at Minneapolis and Chicago are both satisfactory to Wall Street.

NORTHERN DEMOCRATS SAY THE SOUTH CAN HAVE IT.

Mr. Speaker, I was shocked this morning when I picked up the Brooklyn Eagle (a Democratic newspaper) and read a marked piece headed: "If the South wants the force bill the South can have it." I will not read the article. It ought not to have been written, and it will rest in peace.

The above extract from Mr. Bunn's speech is entitled to the prayerful consideration of the Charlotte Observer. The Brooklyn Eagle is a Cleveland organ. If Mr. Cleveland is opposed to the force bill why does he remain quiet and permit leading newspapers that are supporting him, and leading political supporters threaten the South with it? The answer is plain. Cleveland either is not against it or is willing to remain quiet and allow the money men of New York to use it as a tool to frighten Southern people and prevent important legislation. In either case he is acting in a dishonest manner.

There is much political changing going on. A Mr. Hardy, in Wayne county, has renounced the People's party. Judge Green of Wilkes county, and Hon. John M. Thurston of Nebraska, have joined the People's party.

YOUR DUTY.

The time has come in the history of the Alliance when your grit will be tested to its utmost limit. If you have meant anything the chances are that you will have no trouble, but if you don't know what the fight is about you may get left. All admit that something is wrong. The best way is what you should first settle in your own mind and then screw your courage up to the point where you can do your duty to yourself, your family and your country. There never has been a period in the history of this country when as much care should be exercised in voting, in talking, in everything. This is a critical period. If reform succeeds there will be peace. If the present state of affairs continues there will be the bloodiest revolution the world ever saw in a few years.

No one believes Carnegie would claim that he could not pay his workmen the usual wages, but if he has no other proof, the first thing he should do is to pay 300 Pinkerton detectives \$10 per day each—\$3,000—is conclusive evidence that he is a hire.

Keep the question of good roads before your eyes and remember that it is the main road to nothing.

The democratic primaries in South Carolina were held Tuesday. The result was an overwhelming victory for the Tillman faction. Among those who were last night engaged in dragging the lake at Latta Park for the body of the late Guy Maxwell, was Mr. L. I. Fuller, a contractor and builder. In one pocket Mr. Fuller had a purse containing \$32, and this was stolen. The money was all in paper—a \$20 bill, a \$10 bill and two \$1 bills.
