Speaking of reform, Commissioner Lochren is going right ahead in the programme mapped out for the reformation of the pension roll, notwithstanding the howl that is being raised by a few Congressmen whose constituents have been suspended. It has already been discovered that, in addition to the large number of pensions granted under the last administration without proper examination of the applicant and papers, there were thousands granted illegally, knowingly and wilfuily. Only those granted under the act of 1890 have yet been examined and no others can be taken up for a long time. The suspensions up to date number nearly (6,000, and if the same average be kept up in the entire 370,000 pensions granted under that law the total number of suspensions will be something like 75,000. The examination is very thorough and systematic and only those cases showing clearly some irregularity or doubt of the right of the pensioner to receive the amount he has been getting are suspended, and few, if any, of those who get restored to the roll upon a reexamination will get as large a pen-"Senator Gorman," remarked a friend of the man who has proven his the ex-soldiers of Lee to educate black right by his ability on many occasions Then to be classed as a Democratic leader. The Cause and Its Lesson.

Why did he commit suicide? Oh! for the same reason that thousands of others are on the verge of the same sin, or in immediate danger of insanity, paralysis, idiocy, or some other equally unfortunate result of any nervous affection. He knew he was afflicted with a nervous disorder, but was careless, apparently indifferent to the outcome; or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthless so-called remedies. His case was a sad one, but no worse than that of any other nervous sufferer, who has nervous or sick headache, biliousness, dizziness, irritability, melancholy, failing memory, hot flashes, fainting, sleeplessness, nervous dyspepsia, sexual debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. Do not hesitate in getting rid of them by intelligent treatment. Dr. Franklin Miles, the celebrated specialist, has studied nervous diseases over 20 years, and has discovered the only reliable remedy for them. Thousands of voluntary testimonials prove the virtues of Dr. Miles' Restorative Nervine.

Alongo Barker, of Clinton, N. Y., writes : was so afflicted with extreme nervousness that I was on the verge of 4manity. My hands trem-bled so that I could searcely feed myself. I used twelve bottles of Dr. Miles' Restorative Nervine, and was cured. If is with pleasure i recommend this wonderful remedy for nervous troubles." "I had been a great sufferer from chronie headache until I began, about four months ago, to use Dr. Miles' Restorative Nervine and Pills, since which time I have not had a headache Several of my friends are using Dr. Miles' Rem-edies, and find them, as I did, to be more than you claim for them."-Mrs. Mary Kister, Los Angeles, Cal.
