We received this week a programme of the Elders' and Deacons Institute of Concord and Mecklenburg Presbyteries, to be held at Gastonia, N. C., August 23rd to 25th. Among the names of the many able and distinguished men who will deliver addresses on that occasion, we notice the name of Rev. R. G. Pearson, the noted evangelist, who will preach several sermons. This will be a good chance for the warm admirers of the great man to hear him again, and at the same time be profited by the various discussions by others. We hope many of our people will attend.

George Bradshaw, colored, of Cleveland, was lodged in jail here Tuesday to await trial at the next term of Rowan Superior court for participating in an affray at Cleveland, Saturday night. The other participants, who gave bond, were Jim Knox and Louis Price.

That was a very important piece of news that our Washington correspondent sent out yesterday's paper—the information that Congress will probably repeal the Sherman law, repeal the tax on State bank issues and give free coinage of silver on a ratio of 20, 21 or 22 to 1. And our Washington correspondent is ordinarily a very careful person in his statements.—Charlotte Observer.

George Corrier a young white man was way laid on Sunday night the 16th just at the bridge on the public road near Mr. John Bubbers in Rowan County, by two unknown persons who knocked him down and robbed him of \$50 all the money he had. As yet no arrests have been made.—Mooresville Register.

Our city fathers are to be commended for their wise action in organizing a board of health for Salisbury. The board consists of Mayor Coughenour president, W. H. Overman, secretary, Dr. J. J. Sumner, superintendent of health, and commissioners, J. W. Davis, S. E. Lord and John L. Slaver.

Mr. W. A. Parker, of Cleveland county, was bitten by a rabbit dog on Sunday of last week. He learned that Mr. Walter Blackner, of this city, had a madstone and came here last Friday to have it applied to his wound. The stone was applied and adhered about two hours. Mr. Parker returned home satisfied with the experiment.

The guessing contest of M. S. Brown & Co. closed Monday, and the beans were counted last night. Walter Clement, of Mocksville, N. C., secured the free trip to the World's Fair, his guess being 16,890. The nearest guesses to this in order were: J. H. Itmsy, 16,900; S. J. Guinn, Ekin, N. C., 16,901; S. J. Eaton, Cleveland, N. C., 16,893. The highest guess was 200,000, and the lowest 800.

Dorsey Austin and Charles Rueker, both colored, were run over and killed by the shifting engine last Monday night about 9 o'clock. The negroes were drinking and, it is thought, tried to cross the track in front of the engine, when they were struck. The engine was going at a very slow speed. The coroner's jury rendered the verdict that the men caused their death by being run over by the shifting engine, no blame being attached to the railroad or its employees. The bodies, which were horribly mangled, were taken charge of by Mr. R. M. Davis, Tuesday, for burial at the expense of the county.

Mr. O. E. Crowson, of Taylorsville, has bought out the Register, and has taken charge of the paper. Your correspondent is learning the printer's trade under him. He likes the work very well and is getting along nicely.

A picnic was given here last Friday for the benefit of the Orphan's home at Burn Springs. The statesville band and Old North State Orchestra furnished the music, which was very fine. Supt. Lloyd and a number of children from the home were present. The children delivered some excellent music and recitations, they are that they are pleased, trained and well cared for. Revs. Payne, of Concord, and Creasy, of Charlotte, were expected to make addresses, but from some cause unknown Dr. Payne did not come. Dr. Creasy was introduced by Hon. A. Leazar, and spoke for nearly an hour. The speaker had the pleasure of hearing him but will not try to report his speech, for he would spoil everything. Dr. Creasy began by expressing his regret in not meeting Rev. Dr. Rumples, who was to be present, and also the pleasure of being with the people out in the country, away from the busy life of the city. The main point of his speech was on the future of the young generation, emphasizing the importance of having a special object in view as to their future, and striving to reach that object, until success crowned their efforts. Praise his respects to the Home and inmates he closed his speech and dinner was announced, which was served in the grove near by. The table fairly groined under the weight, and after all had eaten of the good things thereon, there remained more than seven bushelsfull. The Old North State Orchestra furnished some good music after dinner. The exercises of the day closed with a base ball game at 4 o'clock, between the Davidson and Statesville teams resulting in the victory for Statesville.

The amount raised by the picnic was \$32, which was given to the Home. The crowd was very large and nothing happened to mar the pleasure of the day. After the ball game the people quietly went to their homes carrying with them many pleasant memories of the picnic of July 28, 1935. C. R. A.

Please Read This Carefully!

"Big aggregates tell the story, and the giant lever that commands the public pocket book is written in one word—UNDERSELL, and when you scrape in the omnipotent Cash you can very well afford to deliver at the very lowest minimum of percentage—When you begin to save your patrons one quarter on many items and one half on others it begins to crowd your counters.
It will make a vast difference in your career if you have the real bargains, bought right and stripped of the middle man's profits or the inevitable drummer's expense. You will have little trouble in saving the community thousands of dollars and the great aggregates will count largely in the inventory of the year.

The rapid turning of stock takes the place of capital, and the daily arrivals spice up things and bear the marks of aggression and progression which simply mean popularity.

No! the old dead system of oppression and wrong has had its centuries of wrong and ruin, and the age of mercantile aggression and aggression marches abreast with science in her onward sweep. Cash before delivery, electricity, free trade and tariff reform are the advanced pioneers of to-day. They who embrace the living issues are the successful and others who dream of the dead ideas of long ago are simply food for the chivalric champions of Spot Cash, who press on in the Titan struggles for supremacy.

What game for the commercial gladiator, the old Regular buying of the Drummer with ten per for the firm, \$10.00 a day for himself and \$10.00 expenses for travelling, hotels, cigars, forty rod and fare! Holy mother of Moses! What game!
