SALISBURY, N. C., THURSDAY NOVEMBER 16, 1893.

NO. 42

GONE REPUBLICAN. CUBA'S REVOLUTION.

Tuesday's Elections Furnish Some Big Surprises.

NEW YORK'S POLITICS REVERSED.

McKintley Wins in Ohio—Virginia Stands by Democracy—A Stand-Off in Chicago—The Result Surprises Even the Winners.

NEW YORK, November 9.—The situation of a year ago is almost exactly reversed. Maynard for court of appeals is defeated by at least 25,000. He ran behind the state democratic ticket in every county so far as is known. Even in this city where desperate efforts were made to induce men to vote for him, the revolt was determined and far-reaching. The current against Maynard was so strong that it swept everything before it.

In Kings county the result was the same, only emphasized by the defeat of Mayor Brody, of Brooklyn, by 15,000.

The local contest in New York city was very interesting, the republicans making but small efforts in behalf of their ticket. The complete returns for the city show the election of the entire Tammany ticket by majorities ranging between 57,000 and 65,000.

RICHMOND, VA., November 8.—O'Farrell's majority is estimated at democratic headquarters to be from 25,000 to 25,000. The democrats elect a majority of the legislature, thus securing United States senators.

A POLITICAL LANDSLIDE.
BOSTON, November 7.—The result of the election in Massachusetts can only be described as a huge political landslide. For the first time in three years the state will have a republican governor, and his plurality is 20,000 at the least. The whole ticket is elected with him, and the legislature is solidly republican in both branches.

CINCINNATI, O., November 8.—The republicans have carried the state by sweeping majorities. McKintley's majority is over 50,000. The populists polled 100,000 and the prohibitionists 25,000.

BALTIMORE, November 8.—The democratic candidate for state comptroller was elected by a large plurality.

DES MOINES, IOWA, November 8.—Jackson, republican, beats Boies, democrat about 3,000, and the remainder of the state ticket by a larger plurality.

LOUISVILLE, KY., November 8.—The Kentucky legislature will be democratic on joint ballot by about 4 to 1. The only issue in this election, were factional, the dominant faction in the legislature being the Cleveland party as opposed to the wing, which supported Mr. Henry Waterson in his opposition to Cleveland's nomination.

CHICAGO, November 8.—The election today seems to be about a stand-off. At midnight the returns indicate that the republicans have elected the entire judicial ticket and the democrats have secured the county commissioners inside the city.

OMAHA, NEB., November 10.—The returns from 80 per cent of the counties in this state indicate the election of Judge Harris, republican, to the supreme court by about 3,000 votes. This result was a complete surprise to every one, especially to the republicans who did not expect it. A study of the returns shows a most lamentable democratic loss.

MURDERED FOR MONEY.
Negroes Knock a Merchant in the Head with a Coupling Pin.

LAKE CITY, FLA., November 8.—Just before noon today four negroes entered the store of W. J. Duman, a short distance from the railroad track here, and deliberately murdered him. After robbing him and the store of all the money they could find they left in a hurry. Duman's dead body was not discovered until nearly an hour later, when a customer found him lying where he had fallen on the floor. He had a big wound in the side of his head.

A negro named Henry Bogus was tracked and captured. He confessed the crime, implicating three other negroes. He says they knocked him in the head with a coupling pin, robbed the store and skipped. A posse is after the other negroes.

BRAINED HIS OWN BABY
In Order to Shield the Woman He Had Wronged from Shame.

AUGUSTA, GA., November 9.—Henry Bogus, a negro, was convicted of the murder of his own child in the superior court this afternoon. The defendant, a few weeks ago, to save a woman he had wronged, brained a newborn babe and buried the infant in a cigar box in the yard. The foul murder was disclosed a few days afterwards, when the mother died from confinement and the coroner was called upon to hold an inquest. It was a brutal murder and the jury was out only a few minutes before they agreed upon the verdict. The death sentence will be passed in the morning.

Another Horror in Spain.
BARCELONA, November 10.—Two bombs were thrown from a gallery in a theater in this city last night, while 1,000 people filled the houses. One exploded. Fifteen people were killed by the explosion, three trampled to death in the panic, and a number wounded. Great excitement prevails throughout the city. Many anarchists have been arrested, among them an Italian named Salami, who has confessed to throwing the bombs. The Queen Regent is much upset over this fresh calamity, coming so soon after the Santandria disaster.

State Fair Officers.
COLUMBIA, S. C., November 11.—The South Carolina Agricultural and Mechanical Society, under whose auspices the State fair is given, has elected the following officers: President, T. J. Moore, of Spartanburg; Secretary, T. W. Holloway, of Pomaria; Treasurer, George Huggins, of Columbia.

She Does Not Let Any News of It Come Out by Book.

CARRILLO IS SAID TO BE STRONG.

Two Provinces Almost Solidly With Him—Spain Has Both Her Hands Full Just Now Busy With Morocco.

KEY WEST, FLA., November 11.—The news brought by the steamer from Havana last night has cheered the hearts of the Cuban revolutionists here, who declare that their cause has received a fresh impetus. The present movement in Cuba is evidently an outgrowth of the plans hatched by the leaders here, who have been, since the last fiasco, endeavoring to incite another insurrection.

One of the emissaries recently sent to Cuba returned last night. He reports that Carrillo is in the jurisdiction of Cienfuegos, province of Santa Clara. About twenty-five men, under the leadership of General Esquivel, raised the cry, "Cuba Libre," near the town of Las Cruces, where they had an engagement with troops, and a number of the revolutionists took possession of the guard house, capturing more than a hundred stacks of arms. Then they procured horses and proceeded to the town of Placetas, being reinforced by several hundred men.

Several engagements have taken place between the insurgents and the government troops, and a number of men have been killed on both sides. The Havana papers received here confirm the report of the outbreak, and while attaching little importance to the uprising, show that the authorities are taking active measures to suppress it by concentrating all their available forces in that locality.

Later reports show that several leaders, including Esquivel, with their followers, have surrendered, asking amnesty. Others have retreated to the mountains to avoid capture.

KEY WEST, November 11.—Private dispatches from Cuba say that the insurrection is under full headway. The government controls all news channels and no news of the insurrection is allowed to go through.

An armed expedition will leave from this vicinity within the next twenty-four hours.

NEW YORK, November 13.—Leaders of the Cuban revolutionary party in this city say they have private advices from their country which state that Carrillo is already well under way. Many think the movement was prematurely begun, and for that reason will end disastrously.

It is pointed out that Spain already has all she can take care of with the revolution in Cuba, and that Carrillo is unable to give aid to the island. This, it is thought, will not only make dissatisfied Cubans more confident of success, and consequently more determined, but will create a lack of confidence among the government forces.

Mr. Trujillo, editor of El Barven, and New York correspondent of the Lucha, a Havana paper, this morning cabled the editor of the latter paper, asking information concerning the difficulties. The message was sent early in the morning, and had not been answered at a late hour. Ordinarily cables are answered directly. This is taken to indicate that the trouble is already so serious that steps have been taken to prevent correct news from reaching the outside country.

WHAT A PROMINENT CUBAN SAYS.
The leader of the revolutionary party in America and its most trusted adviser in Cuba is Mr. Jose Marti, editor of La Patria. To a reporter he dictated the following:

"There is undoubtedly in the Cuban revolutionary movement forces worthy of consideration. The government has kept a close watch over all communications from the island, thus revealing the true gravity of the situation. The news already published that came from Key West, although quite true as regards the unanimous feeling of Cubans, and they are most enthusiastic at the present moment, appears to be exaggerated and somewhat confused. There also seems to be an unwarranted misuse of public names in the rumors which have reached the press.

The emigrant Cubans anxious only to help their country to the establishment of a working and substantial republic, know what to do in the present moment, either in case of prosperity or otherwise, and will do their duty in such a way as to please all true men of America."

IT WAS A FATAL RIDE.
The Young Man Had Just Reached Home When He Was Killed.

THOMSON, GA., November 13.—Mr. R. H. Morris, of this place, the only living child of Mrs. M. E. Morris, died at the Soldiers' home this morning at 3:30 o'clock. Never were the people of Thomson more shocked than when they awoke this morning to hear the news that clever, big-hearted Richard Morris was dead. He had just returned from the university, where he and Mr. Ira Binkley had been operating a leather renovator. As he was driving out Sackson street to have his horse put up, the horse became frightened and ran against a tree in front of the residence of Mr. W. E. Speir. Mr. Morris was thrown violently against the hard street. When he awoke he was in a comatose state, from which he never awoke. Mr. Morris was twenty-three years of age.

NEWS OF THE WEEK CONDENSED.

It is said that the Birmingham, Ala., rolling mill will soon resume work. The Edison patent on incandescent lamps in England expired on the 10th.

Farmers in Carroll county, Ga., are guarding the gins with Winchester rifles while the ginning proceeds. During the past week 53,000 pieces of sides and 16,000 tierces of lard were shipped south from Chicago.

Last week's business failures in the United States and Canada were 386 against 309 for the previous week. Four persons were killed in a collision on the Hocking Valley railroad near Toledo, Ohio, Thursday night.

Near Natchez, Miss., a young girl ran a foot race with five young men, beating them all, for a purse of \$10. The tobacco manufacturers are kicking against the proposed increase in the tax on manufactured tobacco.

Chicago received 130,000 hogs last week, which exceeds the receipts for the same week last year about 12,000. Francis H. Weeks, the notorious embezzler, was carried to Sing Sing prison and put in stripes last Thursday.

The Merchants and Miners' bank, of Pratt City, Ala., has made an assignment. Its depositors were almost exclusively miners.

Major H. H. Harse, of Wheeling, W. Va., committed suicide at Los Angeles, Cal., by shooting himself. Despondency was the cause.

Dr. Andrew Clark, M. D., most distinguished man in the medical profession, died in London Monday.

J. M. Mathis, a Goliad county, Texas, farmer, raised 25,000 bushels of corn on 60 acres of bottom land and a large number of bales of cotton.

The international convention of Christian workers met at Atlanta Thursday. It is largely attended, and many different countries are represented.

It is rumored from Paris that the Archduchess Stephanie, widow of the late Archduke Rudolph, will shortly be married to Archduke Ferdinand, of Austria.

One gin house was burned in Jones county, Ga., last Tuesday night, and other gin houses have been posted in the usual way by white caps, causing much excitement.

At Greenville, S. C., J. Mims Henderson has been convicted of the murder of Herman G. Coffey in 1902, and the prisoner sentenced to be hanged December 23d.

Rev. Dr. J. A. Mundy, has resigned the pastorate of the First Baptist Church at Greenville, S. C., after an absence of several months. He is considering a call to Virginia.

It seems that a protracted spree has interfered with the departure of Col. J. Hampton Hoge, the newly appointed consul at Amoy, China, and there is danger of his losing the position.

It is understood that Secretary Carlisle will recommend to congress an appropriation of \$2,500 to reimburse light-house employees of Georgia and South Carolina who suffered from the recent cyclone.

William S. Grady, of Georgia, has been appointed special agent to allot lands in severity to Indians residing on the Fort Berthold reservation in North Dakota at \$8 per day. He is a brother of the late Henry W. Grady, of Atlanta.

There was great excitement at the state fair at Columbia, S. C., caused by the governor's attempt to stop a man named Metzke from selling beer. The man refused to be arrested without a regular warrant, and persisted until he had sold out.

This government has notified Admiral McCall, the British ambassador, that it does not feel authorized to recognize his rights as a belligerent, he not being able to establish either political or military organization which would entitle him to such recognition.

Chicago Anarchists.
CHICAGO, November 12.—Services in commemoration of the anniversary of the death of the five anarchists, Parsons, Sping, Ling, Fischer and Engel were held today at the monument to the memory of the five in Washington cemetery. In spite of a leaden sky with a cold rain falling steadily throughout the day, the service at the graves was attended by nearly 3,500 persons.

GROWTH OF THE SOUTH.
The Industrial Development in the Week Ending November 5, 1893.

The Tradesman, Chattanooga, Tenn., in its review of the industrial situation in the South for the week ending November 5th, reports that the settlement of the financial question in the cotton States has resulted in a marked increase in the demand for machinery, by arrangements being made to start up plants that have not been working for some time, and an increase in the demand for mercantile business. No material advance can be reported in the iron and coal market, which has practically touched bottom. The Louisiana sugar crop is estimated at 1,000,000 tons, and the price of it is estimated for many years, and the same is true of a rice crop. A slight advance in the price of cotton is reported, but it is not expected to be of any great importance.

Another Crank Shows Up.
CLEVELAND, O., November 11.—At 12 o'clock today a crank called at the office of Myron T. Herriek, secretary of the trustees of the Society for the Savings, and with a dynamite bomb in one hand and a revolver in the other, demanded \$50,000. Mr. Herriek responded by promptly knocking the man down and grappling with him on the floor. While in this position the crank fired a shot at Herriek, the fellow passing through his coat. The fellow then jumped through a window and escaped.

After the Spree.
NORFOLK, VA., November 11.—The sheriff and commonwealth's attorney which will be testified to will scripplet reflect upon the officers who were connected with the affair and may lead to other arrests.

A Mexican Train Sacked.
DUNSMO, N. M., November 11.—Fifty Tomahawk Indians Wednesday sacked Palomas, Mexico, four miles below the border. The Indians are scattering bands who survived the massacre in the engagement with the Diaz soldiers last May, and who have since been roaming the mountains. In the raid on Palomas they fired on the custom house guards, numbering thirteen, killing one guard and rifled the custom house, carrying away twenty-five carbines, pistols, 800 rounds of ammunition and \$500 in money. They appropriated provisions and other supplies from stores. One of the marauding band was killed in the engagement.

When Baby was sick, we gave her Castoria. When she became a Child, she clung to Castoria. When she had Children, she gave them Castoria.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

Castoria is so universal and its benefits so well known that it is a work of supererogation to endorse it. Few are the infant families who do not keep Castoria within easy reach.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

TERRIBLE EXPLOSION!

Too High Pressure.

In these days of keen competition in every line of business, the man who is compelled to lead his business, the clerk, book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can be but one result—an explosion, which, if not resulting in immediate death, leaves the shattered brains and bodies. They are running at too high pressure. The strain is too great. Something must and does give way. This is equally true of women. Though their sphere is more limited, they have their daily burdens, frets and worries, and the results are the same as with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to contemplate. Our nerves, brains and spine are full of these minutiae, and are being crowded still further. There is but one solution of the matter. Recognize the importance of the situation at once, and take the necessary measures to overcome it. If you have failing memory, bad digestion, nervous or sick headache, biliousness, irritability, melancholy, sleeplessness, fainting, nervous depression, epistaxis, know that any one of these is a symptom of the calamity that may befall you and your family. You have used so-called remedies and treated with reputable physicians with little or no benefit, give Dr. Williams' Pink Pills for Pale People. It is the only remedy that may be depended upon for nervous disorders.

Two years ago I used Dr. Williams' Pink Pills for Pale People, and after taking them for a few days, I felt a great improvement. I had been suffering from nervous prostration, and after taking them for a few days, I felt a great improvement. I had been suffering from nervous prostration, and after taking them for a few days, I felt a great improvement.

For Sale by all Druggists.

Is Your Life Worth Anything

to others? Are there not persons dependent on your earnings for their support? Are they provided for in case of your death? The simplest and safest way of assuring their protection is life insurance. Business, professional, and working men generally, should insure, for their brains or their muscles, are their capital and income too. Death stops them both. Insure in the

Equitable Life

and death cannot stop your salary or steal your capital, and your loved ones will be safe from want.
