THURSDAY, Febuary #, 1894.

He Should be Rejected.

Grover Cleveland is a Democrat, elected to the Presidency by his party to give this country a Democratic administration, and every office he has to ful through his appointing power should be given to men of undoubted loyalty to the party, and every true Democrat will doubtless server, of the 25th ult.

"Now the situation has changed, and the Senate's side. Senator Hill announces that he can and will defeat the confirmation of Mr. Wheeler It. Peckham, of should help him to do it. It comes out that Mr. Peckham in 1888 supported Warner Miller, Republican, against Dayid B. Hill, Democrat, for Governor of of New york. He not only drafted the petition of the New York Bar Association calling for the impeachment of Judge Maynard, but took the stamp against him last year and made Republican speeches. It doesn't make any difcasions, to defeat and circumvent them; nor does it make any difference if the President has, as is alleged, nominated ested that a Democratic Senate should not give its assent to the elevation of a want to see a list of the Democratic Senators who vote for his confirmation."

A bit of Democrat Eloquence.

In the discussion on the pending Wisson tariff bill in the House last Friday, Congressman Clark, (Demoerat) of Missonri, saids

The farmers of the country, were not fools. They knew that the McKinauthors had "gone to the country," and no politicians had ever got such trouncing as they had got.

There had been scarcely enough of them left for seed. Any industry that depended on a protective tariff for success was a pamper industry. God Almighty never intended men to "hog" at everything. If He had He would have mide them with snouts. God saw that it was not good for man to be alone; and it was the same with nations. He might have made the world with the same climate from pole to pole, so that each country could be independent of every other country. But He had not done so. He had mide the world so that every halion had to depend on every other nation for some thing, in order to increase friendship and kinship among the nations of the earth. He was in favor of quitting the idiotic performance of undertaking to make or raise in this country anything that could not be made or raised in fair and open competition with all creation.

"Let us," he added, "quit this unnatural hot-house business and return to the rule of sanity." [Shouts of laugh-

Then, turning to the Republican side of the House, he said: "Whom the gods would destroy they first make mad." And that is the predicament of the pro tectionists of this House. You refused the moderate reduction proposed in the Morrison bill. You refused the mild provisions of the Mill bill. You are kicking against the moderate reductions in this bill. You propose to beat publicans and assistant Republicans. You may do it. Treason did not go out of fashon with Iscariot and Arnold. If you defeat this bill, you will build up a free trade party in this country. and men with brains in their head. courage in their heart, and love of humanity in their soul will rend the temple of protection till not one stone roost." [Shouts of Democratic applause.]

"A tarriff reformer is a rudimentary free trader. He is the germ from which the free trader grows, the egg
