Monday's Herald says: The officers and members of Charles Fisher Camp, No. 919, leader Miss Bessie Henderson their sincere thanks for the graceful and tender representation of North Carolina at the reunion of veterans, at Birmingham, Ala. May she ever prove the sweet success that she was on that occasion.

Last week, our Representative, Jno. S. Henderson, introduced a bill in the House to relieve all bonded officers, of the United States, of liabilities for acts or breaches of trust by employees under them, whose appointments said officers do not control. By this bill such officers are not to be guarantors of the honesty of employees he does not himself select.

The Evangelical Lutheran Synod of North Carolina begins its 91st annual session in the old historic Organ church in this country, to-day. The opening or synodical, sermon, at 10 o'clock to-day, will be preached by Rev. C. B. King, of this city.

The report telegraphed over the country that the Confederate Veterans had left their Birmingham reunion, repudiated

against the Democratic party. There is nothing to be gained by remaining away from their places in democratic ranks. They can do good thereby to themselves or to the State, or to the country. When they consider what advantage the Democratic party has been to them and to the State, they should not hesitate in retracing their steps and again enrolling themselves beneath its banner.

WASHINGTON LETTER.
From our Regular Correspondent.

At last there is harmony among the democratic Senators on the tariff and the party presents a united front to the enemy. Concessions have been made which will be satisfactory to lots of democrats, but it was only by concessions that harmony could be secured. There is one consolation for the party. The tariff bill as it will be amended will be a decided improvement upon the McKinley law, and it will receive the vote of every democratic Senator. Having secured harmony, the democratic Senators are now forcing the fighting and will continue to do so until the bill is passed. Everything is to be made to give way to one object—the passing of the bill; and there is every reason to believe that it will be passed in ample time to become a law on the first day of July. If the republicans persist in the filibustering tactics they have this week adopted, the democrats proposed to resort to heroic remedies to stop it, regardless of rules and precedents.

The great speech made by Senator Mills, of Texas, (many think the greatest of his life,) in closing the general debate on the tariff bill, will probably be the last long tariff speech made on the democratic side of the Senate. The present programme is to compel longer daily sittings of the Senate and to let the republicans do the most of the talking until they have been allowed a reasonable time to debate the bill by items. Then there may be a continuous day and night session lasting until the final vote is reached, unless the republicans will agree upon an early date for taking a vote, and at present there is no indication of their doing that. There are at least four republican Senators who will not filibuster to prevent a vote.

Mr. John Wedderburn, manager of the "Examiner Bureau of Claims," and the "Press Claims Co.," the last named concern being well known to newspaper publishers by reason of its sending out circulars asking big advertising in exchange for its stock, which was to have "millions in it," sometime in the future, has had some ugly charges made against him by Mr. William B. Hearst, publisher of the San Francisco Examiner, in a bill filed in court asking that a receiver be appointed and that Wedderburn be restrained from interfering with its affairs. Mr. Hearst says that he was a partner with Wedderburn in the Examiner Bureau, and makes the following specific charges against him: That he established the "Press Claims Co." without Hearst's consent; that he maintained it with money belonging to the Examiner Bureau; that he mismanaged claims, including some for subscribers of the Omaha Bee and the St. Paul Pioneer Press and has refused to refund money with the contracts with these papers called for; that he has created a large indebtedness, including a note for \$8,000 given to Mr. Hearst's mother and signed without authority with the firm's name; that he has improperly used money for his personal expenses, and that he has injured the reputation of the San Francisco Examiner by his mismanagement of cases and by sending out a circular offering prizes for inventions, charging competitors an initial fee of five dollars.

The local authorities have made all of their arrangements to receive Coxe's so-called army, which will arrive in Washington early this week. No trouble is anticipated, but if any comes they are fully prepared for it. If the men who come here with Coxe behave themselves and violate no laws they will be allowed to remain as long as they please, or rather as long as they can get enough to eat, and you may be sure that will not be long. If they violate the law they will be treated just as other criminals are.

By the way, the populists in Congress are, as the saying is, "between the devil and the deep sea" as to Coxe's army. When the "army" first started they to a man denounced the movement. Afterwards some of them tried to hedge, Senators Peffer and Allen introducing resolutions in the Senate, and Representatives Davis and Boon bills in the House, in the interest of the "army." This week they held a caucus on the subject. It isn't the "army" they are worrying about, but the votes of their constituents who sympathize with the absurd idea that brings the "army" here. It isn't likely to be much of an "army," after all, as from the best information at present

obtainable, even if all of the various bodies of men now headed towards Washington should get here, which is not probable, there would only be 6,500 of them.

The House is steadily pushing its programme of rapidly disposing of the regular appropriation bills.

Forty-seven democrats in the House stood out to the last and voted against the adoption of the rule for counting a quorum, but its adoption was inevitable, and, as long as it seemed impossible to keep a democratic quorum on hand it is perhaps just as well. There will be no more dead-locks during the session. That is much to be thankful for. The republicans are pretending to be much pleased over the adoption of the rule, but as a matter of fact they are not. It ends their ability to make trouble whenever they pleased, and for that reason is disliked by them. It is not probable that the new rule will be put in force often. Its existence will be all that is needed to make a voting quorum, as a rule.

It seems a little like putting the cart before the horse to follow the quorum counting rule with the enforcement of the old law docking the pay of members of the House for the time they are absent without leave, except on account of sickness either of themselves or in their families, but it is to be done. Perhaps if this law had been enforced from the beginning of the session there would have been no necessity for a quorum-counting rule. It might have kept a democratic quorum on the floor of the House.

The Vance Statue.
STATE OF NORTH CAROLINA,
EXECUTIVE DEPARTMENT,
RALEIGH, April 25, '94.

At a meeting last night of the Central committee of the Vance Memorial Association, Gov. Carr, chairman, present—Messrs. R. H. Battle, Thomas S. Kenan, Walter Clark, C. G. Latta, J. N. Holding and R. S. Tucker. It was moved that a circular letter be prepared, embodying the resolutions adopted at the citizens' meeting of the 24th, with the names of the committee appointed, and that the circular letter be sent to the Mayors of all towns, to the Sheriffs and Superior Court Clerks in the State, and to leading citizens in every county, and request them to appoint committees in each township for the purpose of forming a county association.

These associations are requested to collect funds as rapidly as possible and transmit them to the chairman or secretary of the Central Committee. Each county association is requested to send up a name to the Central Committee, as a member of the State Association, to meet in Raleigh, May 21st, at 5 p. m., at the executive office. The committee greatly desires the co-operation of all our citizens in this movement, and the committee themselves have started the same by subscribing liberally.

It is thought that it will require about ten thousand dollars to erect a suitable statue to the great North Carolinian.

The press of the State is requested to give this movement their hearty support.

The Superiority.

Of Hood's Sarsaparilla is due to the tremendous amount of brain work and constant care used in its preparation. Try one bottle and you will be convinced of its superiority. It purifies the blood, which is the source of health, cures dyspepsia, overcomes sick headache and biliousness. It is just the medicine for you.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients.

Sunday's Charlotte Observer announces the death of little Mary, youngest daughter of Marshal T. J. Allison, of Statesville, aged 3 years. She had been sick about a week with diphtheritic croup, and although Drs. Long and Anderson performed the operation of tracheotomy to save her it was of no avail, it proving only temporary relief.

The tide is turning. A special election was held last Monday, in the 3d Ohio congressional district, when Paul S. Sorg, Democrat, defeated E. G. Rathbone, Republican, for Congress, by a majority of 3,000 votes. Several towns heretofore Republican gave Sorg handsome majorities.

Scrofula Cured—Blood Purified by Hood's Sarsaparilla.
"C. I. Hood & Co., Lowell, Mass."
"It is with pleasure that I send a testimonial concerning what Hood's Sarsaparilla has done for my daughter. It is a wonderful medicine and I cannot recommend it too highly. Sarah, who is fourteen years old, has been afflicted with Scrofula since she was one year old. For five years she has had a running sore on one side of her face. We tried every remedy recommended, but nothing did her good until we used Hood's Sarsaparilla. My married daughter advised me to use Hood's Sarsaparilla because it had cured her of dyspepsia. She had been troubled with that complaint since childhood, and since her cure she has never been without a bottle of Hood's Sarsaparilla in the house. We commenced giving it to Sarah about one year ago, and it has conquered the running sore."

Bright Spring Days.
The spring should be pre-eminently a season of contentment, happiness and hope. In these bright and pleasant months the country should enjoy its highest degree of tranquility and prosperity. But spring, it is well known, is often a period of discomfort and disturbance in the physical system. Important organs of the body become torpid or irregular in their action, and the fact is instantly reflected in the mental condition of the individual. A disordered liver means disordered nerves and a dull and unsteady brain. Anything which will bring the physical system into harmony with budding Nature confers an enormous benefit upon the nation, besides the mere alleviation of physical discomfort. Hood's Sarsaparilla does this, as thousands of grateful and happy men and women can testify, and increased use of this standard spring medicine is of more real practical importance in promoting health and quiet in the business world than realms of abstract theorizing.

Deafness Cannot be Cured
by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

It numbers on its staff some of the most famous and brilliant writers of the day and on all public questions its lance is ever in rest to defend the rights of the people. It is the largest and most widely circulated weekly newspaper published in America having a circulation of 150,000, and it week. It is in itself an education to those who read it. By the clubbing rate which we offer, our readers can get the Weekly Constitution and their home paper at but little more than the cost of one paper, thereby getting the news of their home and the news of the world every week for a year at an insignificant outlay.

In addition to this, every subscriber to this paper and the Constitution, under our clubbing arrangement, will be given an opportunity to win some handsome prizes.
