Above there and extending to the head-waters at Clearfield, every town and hamlet has been reduced by water to the conditions that prevailed in 1889. Along the Philadelphia & Erie railroad, between this point and Empereum, traffic has been practically suspended since last night. Trains are running between Williamsport and Lockhaven, but above the latter point landslides and track washouts have practically swept the tracks away, and the loss will be very heavy.

STRIKERS THE ASSASSINS.

Walter Glover, a Non-Striking Miner in Alabama, Killed in Cold Blood.

BIRMINGHAM, Ala., May 21, + Another chapter has been added to the list of outrages committed recently by incensed striking miners. About 3 o'clock yesterday morning a body of masked miners went to the house of Walter Glover, a non-striker, and deliberately assassinated him in cold blood. He was asleep at his boarding place and was awakened by repeated raps upon a door near his bedside, Awaking, he went to the door, and before opening asked who knocked. The reply came that it was officers, when the door was half opened. Reports from shotguns, well loaded with buckshot, and Winchester rifles, broke the stillness of the morning and filled his body with ballets and shot. producing death instantly. The door was shot into splinters and his body Yiddled. There were some other inmates of the house, one of whom was slightly wounded with shot.

Glover had been working all the time and had been instrusental in obtaining other labor to fill the places of strikers. This is the reason assigned for the cowardly crime.

GEN. CLARK DYING.

Critical Condition of a Cistinguished Son of Missouri.

WASHINGTON, May 21.-Congressman John B. Clark. of Missouri, is lying in a critical condition in a private sanitarium in this city. A week ago he was compelled to submit to a serious surgical operation for kidney troubles. It is said to be the first operation of the kind ever performed in the national capital. While the physicians express hopes of his recovery, his condition is such that his family has not yet been at mitted to his bedside. Gen. Clark was for six years the representative of the Sedalia district and for the same number of years clerk of the house of representatives. After his defeat for, re-election he remained in this city, and lately was appointed a clerk in the supervising architect's office.

GEORGIA TROOPS IN CAMP.

The Second Regiment at Griffin for Ten Days of Soldier Life.

GRIFFIN, Ga., May 21,-The Second Georgia regiment went in Camp Northen here today and will remain ten days. The companies arrived Saturday and yesterday, and it is the largest encampment yet held. During their stay here every preparation has

McKinlevites. How many times during the last dozen or twenty years have the capitol and Washington swarmed with people who had gone there to ask congress to pass laws or to levy taxes for their special benefit? How long is it since the protectionist spellbinders and newspapers were shrieking in chorus because the democrats of house and senate refused to give "hearings" to bands of people from all parts of the country who insisted upon telling congress what kind of laws and taxes they 'wanted for their own 1 mefit?

Loes the fact that the McKinleyites had the money (or had it put un for them) to go to Washington in passenger coaches give them any rights not possessed by the Coxeyites, who for lack of money must walk or steal ridea on freight train ?

The plain truth is that Coxeyism is simply McKinleyism reduced to an ubsurdity by being carried to its logical conclusion. And though a burle-que in its present phase it will have one good effect. We shall hear less hereafter of congress' and congress-made laws as the remedy for industrial troubles and trade depression. We shall see an end made of those "petitions in boots" which the palace car Coxevites have been thrusting upon congress year in and year out. We shall see the honest American doctrine of self help put in practice more and more.

Blindly and unconsciously, with bat a nebulous idea of what he is doing, the grotesque Coxey is a great reformer. His absurd "army" will be turned into a circus sideshow at tweaty-five cents admission and then melt away into the police station, almshouses and casual reight trains. But he has taught a lesson that will not be forgotten. Ils has opened our eyes to the extent to which our social structure has been undermined. He has set men to thinking, and as the first and surest result of that thinking a halt will be called upon that form of state socialism known as McKinleyism, -N. Y. World,

M'KINLEYISM IN OHIO. An Indication That Tariff Reform Is Still

in Demand. It is natural, perhaps, that the republican press should endeavor to belittle the democratic victory in the congressional election in McKinley's old district in Ohio, but the very effort they make in that behalf shows that they appreciate the full significance of the victory. They may well do so. There has been a good deal of chatter in the organs of the party about "reaction in public sentiment" concerning the Mc-Kinley tariff an I a good deal of exultation over republican victories here and there, but it is worthy of note that this election is the first that has been held since the revolution in 1893, in which the McKinley issue was fairly and squarely raised.

The followers of McKinley realized this and made extraordinary efforts to carry the district which he himself carried in the gubernatorial election by a majority of nearly six hundred. They had in their favor the hard times, the

But with all these advantages they were beaten by substantially the same majority which the democratic candidate had in 1892. No wonder the republican organs are whistling to keep their courage up, for so long as the country clings to tariff reform when tariff reform is in issue the carrying of a few municipal or even state elections for the g. o, p. on other issues will be of small avail The value of the election to the democracy is in the indication it affords that the alleged "reaction" has not reacted and that the people have not yet abandoned their hope of tariff reform or their intention to secure it .- Detroit Free Press.
