Don't Delay. It is your duty to yourself to get rid of the foul accumulation in your blood this spring. Hood's Sarsaparilla is just the medicine you need to purify and enrich your blood. That tired feeling which effects nearly every one in the spring is driven off by Hood's Sarsaparilla the great spring medicine and blood purifier.

Cladly Recommend It. I now have an excellent appetite and nothing I eat ever distresses me. I also keep up my strength and health.

Hood's Pills become the favorite cathartic with everyone who tries them.

School Closing at Mooresville. Correspondence of the Watchman.

The closing exercises of Prof. J. A. Matheson's school at the Mooresville academy came off on last Thursday night with an entertainment consisting of recitations, dialogues and music, which had been prepared for the occasion. The crowd was large and the spacious hall was packed to its utmost.

The order was none of the best, we are sorry to say, but the programme was carried out in full and reflects great credit on the managers in charge.

Each act deserves special mention but the dialogue entitled, "Three Little Maids From School" brought the house down with their funny sayings and performances. Miss Annie Wilfong, the music teacher, sang a solo and was the recipient of a beautiful bouquet of flowers, which she graciously acknowledged. She is a refined cultured young lady and Prof. Matheson is to be congratulated for securing her valuable services as teacher. The term just closed has been one of the most successful one in the history of the school.

The weather for the past few mornings has been quite cool and all growing crops is at a stand still. Cotton has been dying, and on Friday morning there was a light frost, but no great damage done. It runneth not back in the memory of this scribe when such a spring visited us. Wheat will not average half a crop.

Mrs. Kistler, wife of Mr. J. W. Kistler, died last Thursday evening after several weeks illness. She became unconscious Saturday and did not utter a word from then until the end came. She was a faithful member of the M. E. Church South, and a good kind lady in every respect. She leaves a husband, two small children and a large number of friends and relatives to mourn her loss.

Mrs. P. A. Parker also died last week aged 35 years.

Children's day exercises were held last Sunday night. Rev. J. A. Bowles, made good talk on Sunday school work. There were no preaching at the Presbyterian church and several from the congregation went to Center to attend the annual spring communion.

Rev. Dr. W. A. Wood, of Statesville, preached Friday, Saturday and Sunday, but on account of his health he did not preach Sunday evening, and Dr. Pharr, the pastor, occupied the pulpit. The crowd was large and Rev. J. W. Setzer, of Catawba county, preached in the Baptist church Sunday night.

Mrs. Breed, wife of Mr. J. N. Breed, who was so seriously burned about the face and eyes by an explosion of powder at the granite quarry recently, and who left a week or so ago for Boston, Mass, to enter a Hospital for the treatment of his eyes, arrived here last week. She states that Mr. B. is fast recovering from his injuries, but that he is completely blind. His many friends here will be sorry to hear that he will not regain his eyesight, but will be glad to know that he is getting along so well under such trying circumstances.

It has been decided to build an addition of 100 feet to the Mooresville cotton mill in order to add a weaving department. Work is being put on the ground and it is proposed to have the building ready for the machinery in three months, thus enabling the company to manufacture these goods ready to the shelves.

The Mooresville Milling Company have built an addition of twenty feet to their building. They have been forced to double their capacity in order to meet the demand of their increasing patronage, making it 100 barrels per day instead of 50. The mill will be stopped the middle of June.

Mr. Chas. Flowers, and other gentlemen from Taylorsville, N. C. came down last week to attend the closing exercises of Prof. Matheson's school.

Mr. Clem Hambricht, formerly of this place, but who is now an engineer on the road, spent a day or so here this week.

We were glad to see the improvement made in the WATCHMAN last week. It now compares favorably with any of our papers, both in the make up and the selection of reading matter. Mr. McKenzie, the retiring editor has been forced to retire on account of illness, we are glad it has fallen in competent hands who will give us a paper equally as good, and may the people still continue to love and patronize the "Oldest Journal in North Carolina." C. R. Austin. Mooresville, June 4, 1894.

A telegram received in the city late yesterday afternoon announced the destruction by fire of the home place of Maj. W. A. Graham, in Lincoln county, about noon yesterday.

His residence and all the outbuildings, except a kitchen were burned and along with them went Maj. Graham's household effects. The fire was caused by a defective flue.—Charlotte News.

Baccalaureate Sermon. At 11 o'clock Sunday morning a large congregation assembled in Gerold Hall, where Rev. Dr. F. J. Murdoch, of Salisbury, preached the baccalaureate sermon before the senior class.

He took his text from Acts 9 and 2 Timothy 4:1. "Lord, what wilt thou have me to do?" "I have finished my course." The theme of the doctor's discourse was "choosing a plan for life." The entire sermon was full of practical thoughts. It was deep and logical, yet so simple and concrete that a child could understand it. To briefly summarize the sermon, Dr. Murdoch said that just as it was utterly folly to build a house without a plan, so was it even greater folly to live a life without a definite plan or purpose. Life is more than building for education—life is growth and it is important that life be begun right, because of the influence of the beginning upon the future. It is a true maxim that the "boy is father of the man." The first few weeks of his whole career. The same is true of him when he enters the great university of life; therefore he should choose wisely a plan for his career in life. The doctor stated that there are few things in creation so certain that they cannot be questioned. The first of these is that man has come into the world for ever. The world was made for man and he must content himself with his lot. He cannot annihilate himself, neither can he be annihilated. The soul must live on—it cannot be cut off. We are also conscious of the fact that we must die. No one questions this fact.

The second great truth is that this universe is one in which law reigns and no law can be violated with impunity.

The third fact is that development goes on as long as there is existence. The life of Christ from the time He was upon earth, has been one of continued development. So must ours be. The time will come when we will have a thousand times more mental and spiritual wisdom than we now possess. The time is coming when each man will be a kingdom in himself.

All the facts should be known to us before we choose our plan of life. In adopting a plan of life, we should first adopt the Christian religion, because it is the only one that promises pardon. We should surrender ourselves like St. Paul when he asked, "Lord, what wilt thou have me to do?" The plan adopted by the great apostle was one of obedience—it was the true plan, and the one to be adopted by young men starting in life. When the plan of life is adopted, it should be pursued with great thoughtfulness, and as life draws to a close each one can speak as Paul, "I have finished my course."—Charlotte Hill correspondent of the Charlotte Observer.

Southern Railroad Company. The Raleigh News-Observer-Chronicle publishes a special dispatch from New York in its issue last Saturday as follows:

It is reliably learned that on July 1st, there will be a reorganization of the Richmond & Danville Railroad system by which the name will be changed, and it will no longer be known as the Richmond & Danville, but will be the Southern Railroad Company. This arrangement will not at present affect the receivership of the Charlotte, Columbia and Augusta, the Georgia Pacific, or the Columbia & Greenville, but they will be included in the new system when their affairs shall have been settled and placed in such shape as is necessary to that end. The new regime will go into effect July 1st.

New Advertisements. The wellknown tobacconist and marble firm of Webb & Rabe have a new advertisement in this weeks Watchman.

The Solicitorship. L. C. Caldwell, of Statesville, has issued a circular letter announcing himself for a candidate for solicitor of this district, subject to the action of the Democratic nominating convention. His announcement is made upon the assumption, as he states it, that B. F. Long, the present incumbent, will not be a candidate for re-nomination. The circular does not give the source of information concerning Mr. Long's intention, but as both gentlemen live in the same town, it is fair to presume that there is an understanding between them and that Mr. Long is out of the contest. In this view of the matter there is an open field, and whoever may enter it and contest for the nomination. It would be so anyway but some one would decline to enter the contest out of personal regard for the present incumbent, who is universally regarded as an efficient officer. Mr. Caldwell may be the coming man, but the Dispatch does not see it that way. There are numbers of lawyers in the district who are eligible to the office and more competent than he to fill it. Besides, a Statesville lawyer has held the office eight years, and rotation in office is a well recognized tradition of the Democratic party.—Davidson Dispatch.

Rev. B. Frank Davis, of Farmersville, O., has accepted a call as pastor of Concord Reformed church.

Dr. Kirby, of Goldsboro, took charge as Superintendent of the Insane Asylum at Raleigh, last Friday. Dr. Wood having resigned.
