A State temperance mass meeting
is called to meet in Greensboro, N.
C., on Wednesday, August 15th, '94.
The object of the meeting is to or-

ject the overthrow of the liquor
traffic in the State. All members of
local temperance organizations
throughout the State, and all per-
sons in sympathy with the cause of
temperance, without regard to po-
litical affiliations, are requested to
attend.
Home and Abroad.
It is the duty to everyone, whether
at home or traveling for pleasure or
business, to equip himself with the re-
medy which will keep up strength and
prevent illness, and cure such ill-
ness as are liable to come upon all in every
day life. Hood's Sarsaparilla keeps
the blood pure and less liable to ab-
sorb the germs of disease.
A Snake in a Living Dog.
Newbern Journal.
We have seen it in print and heard
it stated that if a dog is bitten by a
snake a post-mortem examination
will reveal a live snake attached to his
liver. This statement seems to be
pretty generally known, but to have
few believers. We heard one man
say he wouldn't believe it if he saw it.
Capt. D. S. Lancaster, of the
steamer Carolina, had heard the state-
ment, and knowing of a dog that
had in the past—about five years ago
as near as could be determined—
been bitten by a snake and had
never seemed right since that time,
though perfectly healthy before, he
got permission from the owner, a
colored man named Henry Edwards,
to kill the dog and test the matter.
The dog seemed about to die any-
way.
The dog was accordingly shot and
an examination made in the presence
of the crew of the Carolina and the
colored man. It was an astonished
crowd when the liver was brought in
view. Attached to it by his mouth
was something snake-like, about
four feet in length and about as
large around at the largest part as
the small part of a man's little fin-
ger. The liver had been partly eaten
up by the thing. Taking hold of its
body with a split stick, it was pulled
away, and after its hold was broken
it lived about two hours. It did
not crawl around like a snake, but
wriggled around somewhat on the
style of an eel. It had an obtuse
flat head and a mouth made not for
biting but for sucking. The color
is a dingy white.
Capt. Lancaster put the parasite in
alcohol and brought the bottle con-
taining it to the city. It is now at
Dr. Street's office and any one who
chooses may see it.
That Tired Feeling
Is a dangerous condition directly
due to depleted or impure blood.
It should not be allowed to continue
as its debility the system is especial-
ly liable to serious attacks of illness.
Hood's Sarsaparilla is the remedy for
such a condition, and also for that
weakness which prevails at the
change of season, climate or life.
Hood's Pills are purely vegetable,
carefully prepared from the best in-
gredients. 25c.
About the most interesting con-
gressional fight now in progress is
that in the sixth district.
Each county in the district having
one candidate and one or two coun-
ties having two candidates.
A Good Appetite
Always accompanies good health, and
an absence of appetite is an indication
of something wrong. The universal
testimony given by those who have
used Hood's Sarsaparilla, as to its
merits in restoring the appetite, and
as a purifier of blood, constitutes the
strongest recommendation that can be
urged for any medicine.
Hood's Pills cure all liver ills, bil-
iousness, jaundice, indigestion, sick-
headache. 25c.
Newspaper Subscriptions
A newspaper in Illinois recently
brought suit against forty-three men
who would not pay their subscrip-
tions, and obtained judgement in
each case for the amount of each
claim. Of these, 28 made affidavit
that they owned no more than the
law allowed them, thus preventing
attachments. Then under the deci-
sion of the Supreme court they were
arrested for petit larceny and
bound over in the sum of \$300
each. All but six gave the bonds.
The postal laws make it petit lar-
ceny to take a paper and refuse to
pay for it.
A Grand Feature
Of Hood's Sarsaparilla is that while it
purifies the blood and sends it coursing
through the veins full of richness and health, it also
imparts new life and vigor to every
function of the body. Hence the expression so
often heard: "Hood's Sarsaparilla made
a new person of me." It overcomes that tired
feeling so common now.
Hood's Pills are purely vegetable, perfectly
harmless, always reliable and beneficial.

The institution in the State has ever
grown more rapidly than the Agricul-

growth shows that the times are ripe
for such work, and that our young men
are seeking such an education
for themselves. See its advertisement in
this issue.
