The current number of the Confederate Veteran, published at Nashville, Tenn., contains an excellent photograph of Miss Bessie Henderson, the beautiful daughter of Congressman John Henderson, of Salisbury. Miss Henderson is now visiting her friend, Miss Mina Brem, in Morganton. Morganton Herald.

Some weeks ago the Atlanta Constitution, in its gallery of southern beauties, published the photograph of Miss Henderson but gave Goldsboro the credit of possessing her when it rightfully belonged to Salisbury. We are to proud of Miss Henderson as a daughter of Salisbury to accord this honor to Goldsboro.

Mr. T. K. Bremer, of the Agricultural Department, has a letter from Mr. A. B. Howland, of Titusville, Pa., in which that gentleman says that he has been examining mineral bearing rocks of Rowan and Cabarrus counties with a view of locating a mine. Mr. Howland will erect a ten stamp mill, and is now sinking a shaft close to the dividing line between the counties of Rowan and Cabarrus. He will send his son to study the region thoroughly under the guidance of Mr. R. Eames M. E.

There was a sensation Friday in Vance county. Two brothers named Burwell have had a feud growing out of the division of their father's property. One lived with his mother and wheat at the old home. The other went there to see his mother. The other brother suddenly rushed out of the house at midnight with a revolver in his hand and began firing, while the ladies screamed with fear. The visiting brother returned the fire and eleven shots were exchanged while the men were in the yard. The resident brother was shot in the leg. One brother had just been released from a peace bond, having made threats against the other.

Several boys between twelve and fifteen joined in it and one was killed, or beaten so badly that he died shortly afterward. The fight took place while the teacher was away at dinner.

Announcement.

To the Democratic People of North Carolina.

Having never been a candidate before you, I announce myself with hesitation.

I offer myself for the seat in the United States Senate, made vacant by the death of Senator Vance. In doing this I do not antagonize either of the present Senators but aspire to an office that neither of them seeks.

The two great questions involved in the Chicago platform were tariff reform and financial reform. The tariff bill just passed does not fully in our expectations, and I favor such modifications of it as will deprive every trust and combine of any advantage it allows.

On the tariff and on most subjects, I stand with the Democratic President, and give him a cordial and zealous support. I regret not to be able to agree with him in his financial policy. Financial reform is of the most pressing importance, and I favor immediate action in respect to that matter.

To many, the result of the first regular session of our Democratic Congress has been something of a disappointment. Disappointments come to all parties. The Republican party is at present disappointed at the repeal of the McKinley tariff law; at the repeal of the law placing our elections under supervision of Federal marshals; at the continued supremacy of the Democrats in the Southern States and their full accession to power at Washington, and at the complete failure of Republican plans and purposes.

Our disappointments are but temporary in their nature. They should make us only the more determined to press onward until the principles of the Democratic party are fully carried into operation—to the lasting benefit and advantage of the people, and to the glory of our country. In this cause I have already spent many years of my life, and I shall esteem it a privilege to continue my work in the new field and high station to which I aspire. I therefore solicit your favor and support, trusting that you may esteem me worthy to represent you in the Senate chamber, and I beg my friends, wherever they may be, who favor my election, to be active in urging it.

S. A. ASHE, Raleigh, N. C., Aug. 24th, 1894.

A Good Appetite

Always accompanies good health, and an absence of appetite is an indication of something wrong. The universal testimony given by those who have used Hood's Sarsaparilla, as to its merits in restoring the appetite, and is a purifier of blood, constitutes the strongest recommendation that can be urged for any medicine.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache. 25c.

Col. Breckinridge having declared

A special from Washington to the Raleigh News & Observer says: The talk of the city, tonight, is the suit of Charles L. Glascock, of Statesville, N. C., for divorce in which a distinguished United States silver Senator is named as co respondent. All names mentioned in the scandal are of prominent people.

Senator Butler, in South Carolina, announces that he will not abide by the result of the primaries, but that friends of his will see that there is a candidate for the legislature in every county, favorable to him.

Wadesboro Messenger-Intelligencer: Some of the colored people of Wadesboro are talking of going to Liberia, and understand that they held a meeting Tuesday night to take some action in that direction.

When the scalp is atrophied, or shynobald, no preparation will restore the hair; in all other cases, Hall's Hair Renewer will start a growth.

Mr. Debs' testimony that his strike was beaten by the Government's war on lawlessness, is a rather poor invention. It negates his present reliance on peaceful methods. Debs knows that his boycott was aimed at the public, and that it was impossible that it should succeed if the Government was able to maintain order. It was absolutely necessary to succeed that the unemployed should be intimidated from taking the places of the strikers.—Louisville Courier-Journal, Dec.

In the past we thought only bad tasting medicine cured, and it was no better to make a herb tea before going to bed; now it is too much trouble. These changed conditions are met by Simmons' Liver Regulator which is pleasant to the taste, and already prepared in liquid and powder form. Try a 2-cent sample package. Nothing better for Biliousness, Headache, constipation, indigestion.

Winston Sentinel: C. C. Stultz, of Bethania, tells a snake story that is quite singular. He says that he went into his hen house some time ago and found that a large black snake had driven a setting duck from her nest and swallowed all the eggs. Mr. Stultz got his gun and shot the snake's head off and taking the serpent by the tail, poured the eggs back in the nest. The duck took her place on the nest and in four days hatched thirteen ducks.

St. Petersburg, Aug. 25.—A terribly disastrous cyclone swept along the shore of the sea of Arzoff today, working immense damage. In some instances entire villages were swept into the sea. Many steamers were sunk or driven ashore, and wrecked, and it is believed that at least one thousand persons perished.

A dose of Ayer's Cherry Pectoral taken in time has prevented many deaths of children and saved numerous lives. This proves the necessity of keeping this inestimable medicine where it can be readily reached at all hours of the day or night.

A novel but true story of how to unchoke a calf comes in from Sardis. Mr. C. S. Sturgeon had a calf which undertook Friday to swallow an apple that was too large for its throat. It got stuck in the calf's throat and nothing moved it one way or the other. It was a desperate case, one of Mr. Sturgeon's one thought, demanding a desperate remedy. He betheval himself, therefore, of this novel way of killing or curing the animal. He took a hammer and a rock, putting the rock on one side, and with the hammer struck the calf on the other side. The effect was as desired. The apple was mashed, and the poor thing relieved.—Mecklenburg Times.

Senator Butler withdrew his pledge to abide by the decision of the primaries. The Columbia State says: It is not to be imagined for a moment that Senator Butler's withdrawal of his pledge implies the abandonment of his candidacy for the Senate. We are not in his confidence, but we are very sure of that. It means, instead, that he is at least prepared to admit that "B. R. Tillman is an enemy of Democracy and his Ring organization a mere personal machine devoted to the betrayal of the party it professes to serve. This is and has been the State's platform, and we congratulate Senator Butler upon mounting it, even at the eleventh hour. One by one, those anti-Tillmanites who so strenuously opposed the Straightout movement of 1890 are coming to admit its rightfulness. Four years of Tillmanism have convinced them of what was known by some of us in 1890—that Tillmanism is anti-Democracy. We are glad they are learning the truth at last.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreary disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, assisting nature in doing its work. It is a positive cure, and its work is done. It is a positive cure, and its work is done. It is a positive cure, and its work is done.

Dr. Lash In The West.

A letter received from Dr. Lash, who with his family, is travelling out West, will not be written for publication, contains some interesting items which we take the liberty of using. His letter is dated from Spokane, Wash., where he met Pat Winston, known throughout North Carolina. The doctor says Pat loves North Carolina and everybody in the State, and has shown them every attention.

What he says, sells there for 17 cts a bushel, costing 20 cts to raise it. "Four hundred and seventy five horses sold here in the street this week for 50 cents each. You can buy them any time for \$3 to \$10. This is a silver mining section, but the industry is very flat just now. If you want to get rich (9) come West. This town has five churches and 204 bar-rooms, each paying a license of \$500 a year. They are allowed to use screens and keep open all night if they want to," bars, not churches.—Greensboro Record.

No appetite? Then do not try to force food down; but use the most scientific means for restoring tone to the stomach. How? Why, by taking Ayer's Sarsaparilla, and in a surprisingly short time, your appetite will come again, and come to stay.

A Dangerous Flirtation.

The Populist party is acting like a giddy headed and unsophisticated maiden. It has wandered forth in charge of chaperones who are not particular as to the kind of company it keeps. Republicanism smiled at it and the wayward thing smiled back. A clandestine friendship sprung up between the two and there have been twilight talks under trusting trees. At the solicitation of wily Republicanism, Populism in her muslin gown has lately strolled into darker glades and stayed out late at night. At first she loved moonshine best, but now when thick clouds bedim night's candles the companionship is most agreeable. Wayward Mary affectionately leans her giddy head upon the breast of deceptive Dan, whose arm encircles her slender waist, whose lips touch hers, and whisper soft seductive words into her ear. Dan's arm never tires and Mary is so happy that she is not conscious of the fact that she is being squeezed to death. Dan is only a masher and he doesn't mean to marry. He is having a good time now and nobody blames him. But what of the giddy creature in his embrace? She has been caught under circumstances that compromise her character and people are talking of her conduct. There will be a tale of woe directly when Dan lets go. There is going to be breach of promise after awhile a Breckinridge case politically speaking. See if there isn't.

The last sentence of the annexed paragraph is worthy of special consideration because it is from the Philadelphia Times, a paper that has a reputation for conservatism throughout the country:

The tariff policy of the Government is now settled for years to come. There will doubtless be amendments proposed and some probably adopted, but these will be matters of detail, and not affect the policy of the new tariff bill. There never will be any serious criticism made by any party to return to the monopoly taxes of the McKinley law that is now in its expiring agonies. Industry, commerce and trade now have a clear field, and with our large surplus of products will be expanded, a season of great industrial and commercial activity is certainly ahead of us.

The saying, "Now are the mighty fallen," seems to apply just now to "General" J. S. Coley. Once he was the idol of the Populists, and as long as he charged high flames for his speeches at political meetings, he was well. But they cannot stand his proposition to address similar gatherings at ten cent a head; it is too much for them, and as a result, the Indiana contingent want to repudiate him.—Phil. Ledger, Ind.

This Parson Is a Good One.

The Republicans held a primary convention at the academy, July 28th, with a large and enthusiastic crowd. The house was called to order by the chairman, and the first thing was prayer by Rev. E. Presson, who prayed diligently for the Republican party to prosper, and said they had been going the downward road to destruction, but by the help of God and Republicanism they hoped to be delivered from the Devil and his angels.—Asheville Citizen.

Concord Standard: Miss Maggie Tate, sister-in-law of Prof. F. B. Brown of Enochville (Rowan county) committed suicide Wednesday night by cutting her throat with a razor. Miss Tate was a lady of very fine qualities, and was highly esteemed by all who knew her. She was about 35 years of age, and lived with Professor Brown, about one-half mile from Enochville. The cause of her rash act is assigned to the general cause for such deeds—the result of a love affair.

Washington, Aug. 27.—Secretary Carlisle to-day offered \$200 reward for the supposed illicit distiller, or brewers in Stokes county, N. C., who shot W. C. Lewis, a United States marshal, on August 18th while endeavoring to capture moonshiners.

The Republicans of Lincoln county instructed their delegates to cast the ballot of that county for Capt. E. W. Ward, of that county, for Congress at the Statesville convention.

Oliver H. Dockery has been nominated

by the Republicans for Congress in the sixth district.

The primaries last Saturday was well attended throughout the county which shows that the party is in a prosperous condition. From all reports Mr. Julian is one of the nominees for the Legislature, while the vote for McKenzie and Murphy for the Legislature is so close that the friends of both parties claim that their man will be the nominee. It will probably take an official count to decide the matter. The only other contest was for cotton weaver, which no one man will go into the convention with enough votes to nominate on the first ballot, and may prove an interesting contest in the county convention next Saturday.

Duluth, Minn., Aug. 26.—Col. Robert G. Ingersoll's letter asserting suicide is no sin is partly responsible for suicide that came out to light today. The body of Joseph McNamee, thirty years old and single, was found on the beach of Minnesota Point, a short distance east of the ship canal, and it is probable that he threw himself in and was carried out into the lake by the current which sweeps around the Minnesota Point. The body was almost unrecognizable, because it had been pounded on the beach a long time. His feet and hands were bound. Eight weeks ago he came here for his health from Kansas City, where he and his brother had been in business. He spent his \$100 in spree and became despondent when his brother refused to send him money for his hotel bill. To his fellow-boarders he talked suicide and quoted Ingersoll, and ten days ago he disappeared. His parents who are well to do, live at Junction City, Kans.
