REBUKING IMPERTINENCE.

The South has for a long time been the target at which misrepresentation and impertinent interference has been aimed. It is refreshing in view of this fact to read the following from Gov. Northern of Georgia. There is no denying the fact that Governor Northern made an ass of himself over the Corbett-Mitell fight, even his warmest admirers must admit that, but such utterances as the following will cover a great multitude of short comings like the prize fight incident.

By way of preface and introduction we will state that for some months past a lying negroess, Ida Wells, has been going through the North and through England, slandering the South, Southern people and Southern officials, telling outrageous falsehoods about the lynching of negroes in the South. She deals in that of populism which in certain markets in the North finds eager buyers among certain classes who are purveyors of slanders and misrepresentation against our people and our section. A committee of smart Alec Englishmen it seems has taken it upon themselves to come over into this country "to investigate and denounce southern lynchings." The New York World sent the following telegram to Gov. Northern:

Gov. W. J. Northern Atlanta, Ga. English committee has been sent here to investigate and denounce southern lynchings. Will you please telegram us what you think of English meddling with our affairs. The World.

And this is Gov. Northern's reply about as cutting a rebuke to impertinence as we have ever read and is richly merited. Gov Northern says: The World, New York, N. Y.

Say to the "English committee" who have come to this country "to investigate and denounce lynchings at the south," that in position to know that they have received their information from the most reliable sources, and that the English people have declined and refused to be properly informed about our laws and the conduct of our government. The English papers, to my knowledge, have declined to print and publish statements made to them in a house of the south by Englishmen who are now residents of the south. Under these conditions we do not want any further outside hypocritical cant upon false ideas of our government.

The people of this state are quite able to administer their own affairs, and they are doing it in full justice to the negro, as our laws and our conduct will attest. We have already had more outside interference in our local matters than we will submit to tolerate in the future. Let these staidly disposed Englishmen return to their own country and prevent by law the inhuman sale of virtuous girls to lustful men in high places, hang all such devils as Jack the Ripper, punish as he deserves the barbarous wholesale slaughter of negroes in Africa by Englishmen, who go there to steal their gold and silver, and to spread and labor riots and strikes, which are wholly unknown to the people of the south and give employment to the poor, as the people of my section give to the oppressed Irishmen the rights humanity demands, and which they shall have upon the best of their own eyes, they may then, with better grace, appoint themselves a committee to hunt for the most that may be in our eye.

While we have irregularities at the south, and negroes are sometimes lynched they are never lynchings by wholesale, as Englishmen sometimes destroy. I send you by mail the law and record of my state on these in the card I challenge not only the English committee on lynchings at the south, but the civilized world, to show a better.

Why come, before investigation, to denounce the south, just prior to a congressional election, when we have just had a negro lynched in Kansas, April 16th, and when the Poles and Hungarians have recently been brutally murdered in Michigan and Pennsylvania, and negroes run out of Franklin Park, N. J. in honor of the late President Grant?

We challenge investigations by all persons who have the right to investigate these charges, but any attempt upon the part of Englishmen, lynchings for trial, must be considered as a gross impertinence.

Hon. T. J. Jerome, editor of the Stanly News and Democratic candidate for the State senate from the district composed of Stanly and Cabarrus counties was here Monday on his way home from Concord where he attended the Cabarrus county convention held Saturday. Mr. Jerome says that the convention adopted strong resolutions instructing the legislative candidates to vote for Hon. T. J. Jarvis for U. S. Senator and in favor of electing U. S. Senators by a popular vote. Mr. Jerome says there are very few Populists in Stanly county and that the Republicans will vote the Democratic ticket in preference to the one nominated by the Confusionists. He also says that Hon. Jno. S. Henderson's speech at Concord Saturday was a powerful one and did great good for the cause of Democracy.

The Populist members of Congress during the last session introduced bills which if they had become laws would have entailed expenditures amounting annually to thirty-billion, five hundred million dollars! Just let the people of North Carolina allow the Populist to get control of the State and see how quick ruin will follow and taxes shoot up.

The Goldsboro Headlight, one of the State's liveliest and most prosperous weeklies, has entered upon its eighth volume. We wish it continued success.

DEMOCRATIC LEGISLATION.

It is a fact—a matter of record that under Democratic administration the expenditures of the government have already been reduced over two hundred millions of dollars. Many pernicious laws put upon the statute books by the Republican, designed for the oppression of the people of the South and having a beneficial influence upon the business interests of the country have been repealed and the good work has just gotten fully underway. What has been done is simply an earnest of what is going to be done.

But if the Democratic party had done nothing else, and should never do anything more than repeal the McKinley tariff bill and substitute for it the bill recently enacted, it is entitled to the eternal gratitude of the people of this country.

The tariff bill is not what we wanted, nor what we confidently expected to get, but the Democratic party is not responsible for this. The party cannot justly be held responsible for the treachery of the Gorman-Brice band of traitors.

But with all its shortcomings the bill is a big step towards tariff reform, and, compared with McKinleyism, is a beneficent measure. The more it is studied, the better law it appears to be. It makes a very marked reduction in many articles, and will materially reduce the cost of living.

We are indebted to Mr. T. C. Linn, the private secretary of Hon. Jno. S. Henderson, for the following list, which will prove a revelation to those who have not closely studied the bill.

The tariff on the following articles has been reduced one hundred per cent—or in other words, the following articles have been made free: Paints, colors, etc., in part. Potash, caustic, refined. Burr stones, manufactured. Cotton ties of iron or steel. Copper-ore, and manufactures of. Timber and Lumber.

Binding twine. Burlaps. Bags for grain made of burlaps. Bagging for cotton. Wool manufactured. Wool, tops, slubbing, and other wools. Wool, rags, munging, and flecks. Wool, noils.

The tariff on the following has been reduced between 75 and 100 per cent. Bar iron, and slabs, blooms or loops. Spike of wrought iron or steel. Woolen cloths. Woolen shawls. Common pipes of clay.

The tariff on 114 articles has been reduced between 50 and 75 per cent, of which articles the following are the principal: Whiting ground in oil (putty). Soap. Bicarbonate of soda. Chaus. Penknives. Carving or cooking knives. Files. Pistols. Shotguns. Lead in ore or in pigs and bars. Lead pipes, sheets, shot, etc. Zinc in sheets. Cotton cloth.

Cables, cordage, etc. Blankets. Hats of wool. Flannels for underwear. Dress goods. Carpets.

On 370 articles the tariff has been reduced between 25 and 50 per cent. Of these the following are some of the principal: Spirit varnishes. Sulphur. Brick. Bottles. Window glass. Cylinders and crown glass, polished, unpolished. Spectacles and eyeglasses. Freestone, sandstone, granite, etc. Iron ore.

Fig iron. Scrap iron. Bar iron, rolled or hammered. Steel rails. Tin plate. Wire. Anchors. Anvils. Hammers and sledges, etc. Bolts. Cast iron vessels. Hollow ware. Razors. Nails. Needles. Screws. Leaf tobacco for cigar wrappers. Horses. Shirts and draws. Stockings. Oil cloths. Collars and cuffs. Clothing, ready made. Wood pulp.

Printing paper. Pearl buttons. Ivory buttons. Corks. Bituminous coal and shale. Coke. Matches. Hats of fur. Ladies' and children's gloves. Men's gloves. Slate pencils.

238 articles reduced under 25 per cent. The rates are increased on 53 articles such as sawed boards of mahogany, ebony, hogs, olives, dressed meats, precious stones, etc.

Ayer's Hair Vigor tones up the weak hair-roots, stimulates the vessels and tissue which supply the hair with nutrition, strengthens the hair itself, adds the oil which keeps the shafts soft, lustrous, and silky. The most popular and valuable toilet preparation in the world.

Senator Peffer, the leader of the Populists, the recognized exponent of Populist ideas, plans, and purposes, believes that all the tax for the support of the government, in all its branches, should be levied on land, and introduced a bill into Congress to that effect. How does that suit the farmers of Rowan County? Just such laws may be looked for should the Populists ever control the legislation of this country.

It is well not to forget what the Democratic Congress has done, as recounted by Speaker Crisp in his Atlanta speech: We have repealed the McKinley law. We have greatly reduced taxation. We have made living cheaper. We have made all money taxable. We have taxed surplus incomes. We have restored freedom of elections. We have reduced public expenditures. We have declared undying hostility to all trusts and monopolies organized for the oppression of the people.

LEAVING THE WEST. The forest fires have broken out again in Minnesota, and other northwestern states are suffering from drawbacks more or less serious. In Nebraska, Kansas, Colorado and Oklahoma the farmers are moving away by thousands.

Naturally, these people are coming south. They cannot go to the middle and north Atlantic states because they are already overcrowded and the lands are too high priced. The south offers them just such a home as they have been longing for. Our climatic conditions are favorable and we never have more than one partial crop failure in nine seasons. The Boston Transcript says of the new movement:

This is corroborated by dispatches from Nebraska that long trains of canvas-covered wagons are constantly passing through that place filled with disheartened settlers, who are anxious to find homes elsewhere, and that as many as 10,000 of them have left since the failure of this year's crops. There is now a similar movement from Western Kansas, and also from eastern Colorado. The North Carolina papers offer a welcome to these people; tell them that land can be bought or leased there on easy terms, and declare that the Old North State is just the place for them. Other southern states are desirous of attracting the fugitives from Nebraska, Kansas, Colorado and Oklahoma.

The Worcester, Mass., Spy has the following on the same line: Many northwestern farmers have become thoroughly tired of enduring the trials to which their uncertain climate subjects them, and are turning their eyes toward the south as the land of promise. A large number of Nevada stock farmers and dairymen are preparing to move to North Carolina and purchase farms in localities suited to their avocations.

Gov. Carr's Suggestion. Columbia, S. C., State. The Governor of North Carolina suggests as one means of checking the resort to lynch law, that prisoners threatened shall be speedily tried, and shall, awaiting trial, be confined in the penitentiary. The latter expedient meets each particular case only. It would by no means operate to check the spirit which underlies the resort to lynch law. It is good only as a means of preventing the action of the mob so that the accused may be brought to trial. What is admitted, on all hands, to be most calculated to induce people to let the law take its course, is the assurance of a speedy trial. The law's delay is in no case so irritating as where a great crime has been committed and the courts seem slow to punish the criminal. Nowhere else in the United States is there so great need of reform in the criminal procedure so as to insure the prompt trial of accused persons as there is in South Carolina. Nowhere else can the skill of the well paid lawyer be more effectively employed to postpone the punishment of criminals. It is this state of law, known by the people, that has contributed perhaps more than any other cause to the frequent resort to lynch law in this State. The wonder is that so flagrant defects in our criminal procedure appear altogether to have escaped the notice of the Legislature.

Mr. Butler, on going over to the Republican party, has agreed to give as his initiation fee, the Populist vote of the State to the Republicans. Butler is gone. He has deserted the Populists as treacherously as he did the Democrats. He undertook to sell Democracy on the 18th of May, 1892, but he couldn't deliver the goods. In 1894 he undertook to give Populism to the Republicans in exchange for a seat in the United States Senate. Can he deliver the goods this time? There are good honest men in the Populist party. They are there from the best of motives. Will they endorse this base action of their traitorous master and submit to it like slaves?—Clinton Democrat.

WASHINGTON LETTER.

At Democratic headquarters here, the managers are getting campaign matters in fine shape for hard work. Investigation shows that in districts now democratic 131 have made nomination. Of this number 97 are renominations and 34 are new nominators. This gives a ratio of 74 per cent of old nominations and 26 per cent of new nominations.

I learn from the Navy Department that everything is in readiness for the trial trip of the new cruiser Raleigh. She has had a successful trial at Norfolk and can go to sea whenever the date for her official test is set.

Among the late acts of congress was one concerning the sale of leaf tobacco which all dealers may notice with much interest. The internal revenue law as a whole remains about the same as before with the exceptions of this change. In section 60 of the act of Aug. 23rd, 1894, entitled "An act to reduce taxation to provide revenue for the government and for other purposes," it provides that: "Every person shall also be regarded as a manufacturer of tobacco whose business it is to sell leaf tobacco in quantities less than a hoghead, case or bale; or who sells directly to consumers, or to persons other than duly registered manufacturers of tobacco, snuff or cigars, or to persons who purchase in packages for export; and all tobacco so sold by such persons shall be regarded as tobacco and such manufactured tobacco shall be put up and prepared only as the Commissioner of Internal Revenue with the approval of the secretary shall provide." Provided that farmers and growers of tobacco who sell leaf tobacco of their own growth and raising shall not be regarded as manufacturers of tobacco.

Every bureau in the Treasury Department is in a strain to get the business arranged to begin work in the different offices under the new law known as the Docketry Bill which goes into effect Oct. 1. This law makes a thorough re-organization in all the bureaus of the Treasury Department, the first since the days of Alexander Hamilton. Herebefore matters would come to one of the officers dealing probably with three or four different departments of the government. This has all been simplified under the Docketry Bill, which changes the names as well as the manner of work for the officers.

Mrs. Burnett is visiting her daughter Mrs. Harry Martin at Guilford. Weekly Weather Crop Bulletin. The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina State Weather Service, for the week ending Monday, September 10th, 1894, indicate that the weather during past week has been above the normal in temperature, and rather dry except near the coast. The hazy or moky condition of the sky, which was probably due to the great forest fires in the northwest, ended Saturday, and Sunday, the 9th, was an unusually warm day for this season of the year. Cotton is opening rapidly. Farmers are busy picking cotton, pulling fodder, making hay, cutting and curing tobacco, and with their fall plowing where ground is not too dry.

Weather forecast for coming week: Rain probably Tuesday evening or Wednesday, follow the latter part of the week by a moderate cool wave, the first of the season. WESTERN DISTRICT.—The weather has been very warm for the season, with abundant sunshine; last two days of week warm. Although very little rain has fallen, not much damage is reported by drought. Fodder-pulling is progressing rapidly. Hay-making is receiving plenty of attention. Tobacco is being cut and housed and curing has commenced. Cotton is opening very fast. Turnips are doing very well. Farmers generally are in good spirits everywhere.

Women in Varied Fields. From the New York Mercury. But man never ventured where the modern woman will not fearlessly jump in. There are two woman pilots and three woman captains on the Mississippi and if a boiler should burst there need be no doubt that these women would, like Jim Bludso, hold her muzzle against the bank till the last gullet ashore.

There is another captain navigating the Puget Sound. The Queen of Greece is an Admiral in the Russian Navy, appointed by her cousin, the Czar. And it is the same in all other fields of enterprise. A woman runs the dummy engine in a log sawing mill in the State of Washington, another is the engineer in a Chicago steam laundry, and in the same city a woman is the engineer-in-chief in a large business building, while a third runs an elevator in one of the Windy City's sky-scraping buildings. In Nebraska a woman owns and personally operates a steam threshing machine, moving with it from one part of State to another, making her own contracts and her own work.

So woman, all around, everywhere has got the steam up, and when she lets the whistle scream man would better get out of the way. Temples, boils and other humors of the blood are liable to break out in the warm weather. Prevent it by taking Hood's Sarsaparilla.

POPULIST PURITY.

A Sample of Third Party Statement.

The following from the Washington News shows just how "pure" and consistent the Populist is when he gets into office, and it is likewise a pretty fair sample of the stamanship of the leaders of that crowd of misguided people:

The indications at present prevailing in Washington, says the News, are that Senator Peffer has gotten himself into that delightful position known as being between the man-eating shark in the water and the man eating tiger on the land, and the prospects are that both will get him. When Congress convened in extraordinary session on the 7th of August one year ago the Democrats gathered Senator Peffer into the majority fold and received him with more soda water effervescence than is usually accorded to new recruits. The party wanted to solidify their votes beyond peradventure. Mr. Peffer was given the chairmanship of the Committee to Examine the several branches of the Civil Service with a lustrous committee room in the Malthy Building. While Senators Hour, Hawley and other veterans in the House of Lords were relegated to dim-lighted and inaccessible locations, the new debutante from Kansas reveled in sumptuousness. As his share of the Senate fund for the employment of clerks and messengers he was allowed \$9,200 year. As chairman of a presumably active committee he was granted a clerk at \$2,250 per year. This position was filled by his daughter. Then the gentleman from Kansas settled down to every day life in an atmosphere so thick with serenity that many tourists carried away chunks of it as souvenirs. But the evil day came. It slipped along like a policeman with creepers on his feet, and its insidious advances were glamorized over with the apparently sincere smile of Fortune. The tariff bill was approaching a crucial period. Questions of moment were becoming so thick that if a Senator dodged one he knocked his head against a half dozen. One of Mr. Peffer's sons was offered a lucrative position by the Sugar Trust to become connected with one of their refineries in the mosquito-biting regions of New Jersey. It was such an offer that the young man turned up his nose at \$1,600 a year, and, encasing himself in a wrought-iron suit, he left for his new situation. But a wicked and ungenerous newspaper correspondent thought that he detected the odor of a rat when the younger Peffer entered the employ of the Sugar Trust. He did not do a thing but caused the facts and suspicions to be proclaimed from every housetop in Kansas. He made it a religious duty to promulgate the tidings. Then the Senator not only got both feet over the traces, but upset the cart by voting against the trust. In fact, it is alleged that his eccentric method of voting caused several of the Democratic managers in the Senate to pace the floor for many a night when the gentleman from Kansas slumbered peacefully in his bed. When the agony ended and the weary Senators disgusted themselves and started over various unfrequented routes for home Col. Dick Bright, Sergeant-at Arms, notified the junior Mr. Peffer that he would not be allowed compensation during recess. A very noisy rumor is prevalent to the effect that the perquisite of \$2,250 for a clerk will be withdrawn, and that all the odds and ends of comforts and prerogatives heretofore given Mr. Peffer as a member of the majority will be taken from him. Meanwhile this same rumor asserts that the Sugar Trust has not yet recovered from a stroke of paralysis occasioned by Mr. Peffer's turning them down in the Senate, but when consciousness returns they will promptly request Mr. Peffer, jr., to pack up his wrought-iron outfit and retire from any connection with the New Jersey refinery.

There is nothing to prevent anyone concocting a mixture and calling it "Sarsaparilla" and there is nothing to prevent anyone spending good money testing the stuff; but prudent people, who wish to be sure of their remedy, take only Ayer's Sarsaparilla, and so get cured.

Clarence W. Clark, a prominent member of the Brotherhood of Locomotive Engineers, was shot and seriously wounded on a Pennsylvania Railroad train at Newark, N. J., Sunday by his divorced wife. When the train slowed up at Newark the woman entered the car and shot him at short range with a pistol. The woman suddenly left the car and stepped off the train. The train had started before the Conductor knew of the shooting and he brought the wounded man to this city. The divorce was granted in New York on Thursday last, and Clark was on his way to San Francisco when attacked. Clark may recover.

Dr. Worth, of Asheboro, whom it was reported in last week's Watchman had been robbed of a considerable amount of money, has recovered all the stolen property and the robber is in jail. There was \$475 in money and bonds and property to the amount of \$100,000.

Women are getting into the habit of wearing high-heeled shoes, and this is a very bad habit. It is a habit that is doing much to ruin the feet of our women. It is a habit that is doing much to ruin the feet of our women. It is a habit that is doing much to ruin the feet of our women.

Football will prove a paying game to Mr. Zeb Andrews, of Raleigh. He weighs 280 pounds, is strong in proportion and while in Durham some time ago his build attracted the attention of the Trinity football "cranks." A correspondence ensued with Mr. Andrews in regard to his playing the next season on the Trinity team. An offer was made him of tuition at the College, board and \$700 in cash cash.

The Wilmington Messenger says that the cases against the directors of the suspended Bank of New Hanover have been moved from Duplin Superior court to Lenoir Superior court for trial, and will be heard at the November term. The court granted the change of venue upon motion of the counsel for the defendants.

JUDGE WALTER CLARK USES AND ENDORSES THE Electropoise TRADE MARK. Investigation Invited. North Carolina Supreme Court. WALTER CLARK, ASSOCIATE JUSTICE. BAL. P. O. N. C. Jan. 24, 1894. We have found the Electropoise very valuable in the treatment of rheumatism, neuralgia, sciatica, etc. It is a powerful remedy for all these ailments. From my experience with it and the successful results obtained by its use, I am satisfied that it is a valuable remedy for all these ailments. WALTER CLARK, ASSOCIATE JUSTICE.
