The pastor will also preach at Salem on Easter Sunday at 4 o'clock.

CHARGED WITH MURDER IN VIRGINIA.

Robert Douglas, a young unmarried man, a son of Dr. B. F. Douglas, of Concord township, this county, was arrested in Salisbury Wednesday by Detectives W. G. and R. M. Baldwin, of Bluefield, W. Va., and Deputy Sheriff Nicholson, of Iredell. Douglas is charged with killing a man in Tazewell county, Va., on the first day of February. He was brought to Statesville Wednesday afternoon and lodged in jail pending an investigation of the charge against him.

A letter written by the postmaster at Tazewell under date of February 10th, and addressed to the postmaster at Statesville, gives the following particulars of the murder: "On February 1st in this county, on a mountain road, a foul murder was committed, both parties being strangers. The men were seen at the foot of the mountain and the murderer can be easily identified if caught. A horse was stolen near Marion, Smythe county, Va., and the man on him inquired the way to Statesville, N. C., before leaving the horse in the road. Another horse was stolen next night near Glade Spring, Va., it is supposed by the same man. The man who did the killing was of small stature, something near 5 1/2 feet high, dark complexion, and wore at the time a dark, short moustache. The balance of his face looked like he had not shaved for two or three weeks. He is said to have come from your place (Statesville) and went under the name of Carter in some places, then under the name of Daugherty. In the mining regions he changed his name to Dowdy. It was a most horrible murder. The name of the man killed has never been learned. The board of supervisors of this county have offered a reward of \$100 and the Governor has been asked to add more. The people in the neighborhood where the killing was done say they will raise \$100 more. At one place he (the supposed murderer) inquired the way to Mt. Airy, N. C. If you will keep a lookout and have this man arrested you will be well paid," etc.

Our understanding is that the man who was murdered was a pedler and that his companion had attached himself to him and was traveling about the country with him. The object of the murder is supposed to have been robbery.

Detectives were put on the case with the result that they arrived here Tuesday, as stated, and made an investigation, going to the home of Douglas' father in Concord township. Douglas was in town Monday and talked with Policeman Steele. He bade him goodbye, telling him that he might never see him again, and left in the direction of Salisbury. Douglas answered the description of the man wanted by the detectives and they left here for Salisbury Tuesday night, accompanied by Deputy Sheriff Nicholson. Douglas was arrested at a camp of stumps in the suburbs of Salisbury. He stood on his rights and refused to return to Virginia without a requisition. After being photographed in Salisbury he was brought to Statesville and lodged in jail. The detectives returned to Virginia with the photographs and if the people of the community where the murder occurred recognize the photograph as that of the murdered man's companion a requisition will be secured and Douglas will be taken to Virginia for trial.

Douglas of course denies the charge against him, and we are informed gives the following account

of himself during the month of February: He says he was in Asheville on the 28th day of January, came from there to Hickory and from Hickory to Statesville. Then he went to Mooresville and spent a day, and on the first day of February—the day of the murder—he was at Bell's store in this county. Since that time he says he has been at his father's and other places in the county, never leaving the county until he went to Salisbury.

There is no certainty, then, that Douglas is the murderer, and we hope for his own sake and that of his father and other relatives in the county, who are good citizens, that he is innocent. Unfortunately Douglas' conduct for years has been very bad; he has been wandering from place to place, generally in bad company, but we hope he is not guilty as charged.—Statesville Landmark.

ITEMS FROM ELI.

Our farmers are about through putting in compost.

Peach and plum trees are nearly in bloom. We hope they will not be killed by frosts.

We gladly welcome gentle spring, and with it comes grand old nature in all its grandeur renewed.

Two of our industrious young ladies are very busy now piecing quilts, etc., preparatory to a more blissful life it is supposed.

Five new members were initiated at the last meeting of Elm Grove Alliance, and two more applications received. Old Elm Grove is bustling for 100 members and she will get them.

Several of our people in adjoining communities are afflicted with the mumps.

The measles are getting closer and closer, and some of our people are preparing for them even now. Don't cross the bridge before you get to it, is very good and wholesome advice, John.

The stockholders of the proposed new plan for running the Alliance store at Eli held a meeting recently to decide on some definite plan for the future life of said store.

A certain fellow of Rockwell is contemplating matrimony, so his friends say. He is having some fine quilts made. Well Lewis go it while you are young.

Mr. P. M. Brown, of Bear Poplar, paid his best girl a flying visit on last Wednesday night.

A Marion paper states that there are only 47 women engaged in publishing either books or papers and magazines in the United States. This is a very small percentage, when we consider the population of the country. Where are the new women? Surely they are not all wearing bloomers.

An authority on the just proportions of the human form says: "The ears should be so placed as not to be higher than the eye brows, lower than the tip of the nose." The leap year girls when dressing to call on their best fellows should not forget this very important fact.

STEELE ITEMS.

Corn planting commences with us this week.

Peach trees are blooming.

Wheat is showing up nice, but oats is doing but little.

Mr. D. Hall Thompson and his wife and one child are sick. Mr. Thompson is not expected to recover. Three physicians are in attendance upon him.

Considerable cotton will be planted this year.

Your correspondent at Manning says they have a school there this winter, the first in three years. He must have been off from home for two years. We are sure Mr. J. C. Nail held the fort there for two years. Give an account of yourself, sir.

African-American Gold Mining and Trading Company,

100 BROADWAY, NEW YORK CITY

OUR COUNTRY NEEDS IT—GOLD!

The principal objects of this company are to buy, sell and operate gold mines.

Perhaps you cannot afford to buy an entire gold mine, but you can have an interest in several valuable ones through us.

Enormous fortunes have been made in gold-mining, but never were the opportunities greater than they are to-day.

The ownership of a few shares of our stock may make you rich.

Some of the wealthiest men of to-day became so through mining. The cry of the whole world is for gold! and its value and necessity is being more fully appreciated each day.

All precious mineral discoveries are practically gifts to the people. Each person is entitled to what he can fairly get. Why not try for your share through us now?

Splendid opportunities for securing great bargains in mines come to us constantly. Our agents are reporting from the gold fields of this continent and from Africa. The company owns two promising properties in Cripple Creek. We propose to develop one of the most remarkable, well-proven placer mines in the world. It has already produced about \$2,000,000 by crude surface working, and is estimated to contain over \$25,000,000 in gold.

Now is the time to invest. Write us. Do not wait until every man, woman and child is eager to buy. Prices have advanced enormously.

In 1887 the first shipments of gold, amounting to less than \$500,000, were made from South Africa. In 1894 the production was nearly \$40,000,000. It is estimated that works under way and contemplated will produce \$100,000,000 per year.

Less than five years ago Cripple Creek was unknown as a mining camp. In 1892 it produced \$300,000. It is now producing \$1,000,000 per month.

Two old men, tired and almost hopeless, not many years since lunged desperately to a small hole in the ground which showed some traces of gold. That hole has since yielded over \$1,000,000. The Idaho Mine has paid nearly \$5,000,000 in dividends. The Crown Point nearly \$12,000,000. The Belcher over \$15,000,000.

We know of no other promising industry, paying such large dividends on capital invested as fully developed producing gold mines. The rate of 25 per cent per annum is quite common, while phenomenal returns are made in many instances.

We offer for sale 50,000 shares of our capital stock at the par value—

\$10 PER SHARE.

Payable \$2 per share on application and \$1 forty nights, beginning in two weeks. However, those desiring to pay in full can secure certificates of full paid stock at once.

Remit by check or post-office or express order or registered letter to AUSTIN GALLAGHER, Secretary, 100 Broadway, New York.
