BILL

Against the Original Package Bill.

A LONG CONTEST

Principal Objection Was That It Would Give a State Power to Controi Interstate Commerce,

District in an interest and the second Washington, = (Special,) = The House committee on judiciary killed the Hauate bill to permit the State of South Carelina to control liquors brought into the State in original packages. The motion to report it favorably was lost on a tie vote. The action of the committee ends a long contest that has attracted national attention. The South Carolina dispensary law was assumed to be legal under the provisions of the old Wilson law, which gave the State the power to regulate the liquor fraffic under the police powers of the States. But the Supreme Court held that the law did not come under the police powers, and the present bill, extending Money is useful as a servant but tyrannithe power of the States to specifically control the liquor traffic in original packages, was introduced and passed

by the Senate. The House judiciary committee gave rearings on the bill and has discussed it at several meetings. One of the principal objections developed was that it would give the State the power to control inter-state commerce, and might lead to the invocation of the power in case of other communities. Before the vote was taken an amendment to the bill providing that the States should not discriminate against the liquor of any particular State, was adopted by a vote of 7 to 5. The vote on the motion to favorably report the bill was then lost on tie vote, as it requires a majority to report a bill favorably. The members decided to keep the record of the vote secret, and the names of those who voted for and against the motion were carefully guarded.

PRONOUNCED SMALLPOX.

Dr. Wertenbaker, of the Marine Hos pital, Makes an Investigation.

Dr. Wertenbaker, in obedience to in structions from the Surgeon General of the United States Marine Hospital Service, visited Charlotte, N. C., on the 11th and investigated the nature of certain cases of sickness supposed to be smallpox, now in the pest house on the outskirts of that city. mayor, is as follows:

Accompanied by Drs. Strong and Wilder, 1 this morning visited the post house of your city and found therein hine persons, all colored, four of whom, are suffering with smallpox, the other five having been exposed to the disease and are now detained, awaiting developments, and are employed in nursing the sick. The following named persons are suffering from the disease; Sallie Wagnor, Oscar Jackson, Frank Jackson and Harvey Perkins. Sailie Wagner and Oscar Jackson are recovering, both having had a light attact of the disease,

Frank Jackson, aged 4 years, is a son of the case that died with smallpox recently. Frank developed the eruption on Wednesday last, and has a very slight attack. In the cases of Sally Wagner, Oscar Jackson and Frank Jackson the disease has been modified by vaccination.

Harvey Perkins, aged 57, nativity North Carolina, developed the eruption last Monday morning at Neal's camp, twelve miles north of Mooresville, on the Mocksville extension of the Southern Railway. He had come from Greenville and arrived at the camp on Sunday evening and slept with some of the employes on Sunday night. On awakening Monday morning he noticed that he was broken out with the eruption. He left the camp quietly, without mentioning the eruption to anyone, and made his way to Charlotte, arriving yesterday afternoon, February 16th, 1898 He is now in the fifth day of the cruption, and his case is typical. I have the honor to remain.

Respectfully yours, C. P. WERTENBAKER, Passed Assistant Surgeon U. S. Marine Hos-

Dr. Wertenbaker says further: "The danger to the city lies in the possibilities of the disease being imported from elsowhere, and finding unprotected persons here, may claim new victims, and is to prevent its introduction, and the other is to give it no material to feed on. With the number of cases of smallpox at Present scattered through the Bonthern States, it is not practicable to prevent its coming into this city. So the only other alternative is to be pre-

KILLED. ORGANIZE SOUTHERN LABOR.

House Committee on Judiciary Votes | Southern Confederacy of Labor Is Now Being Agitated.

WHAT EDITOR LOVERING SAYS

New Organization is Being Discussed by Labor Men Throughout the Bouth.

The plan suggested by A. F. Levering, editor of The Toesin, to farm a South: orn confederacy of labor, or some or: ganization that will be to the South what the American Federation of Labor is to the North, is meeting with great favor among the working men and the labor organizations of the South.

The American Federation of Labor does not give the relief to the Southern working man that it should, and there are many reasons why the working men of the South want to be out of that organization and in one of their own. The main reason for the discontent is found in the following extract taken from the articles of agreement of the American Discussed Their Daughter's Case for Hours. Federation of Labor:

"We reaffirm as one of the cardinal principles of the trade union movement, that the working people must unite and organize irrespective of creed, color,

sex, nationality or politics. The word 'color' is what causes the trouble. The greatest trouble that the working man in the South has is having to compete with cheap colored labor, and while it is the very thing they are fighting, it is useless, they say, for them to belong to an organization that takes the negro in and gives him the same protection that it does the whites.

This is the main trouble and the trade unions of the South claim that the American Federation of Labor does not help them in other ways. The American Federation takes in their money as dues, but when they have occasion to call on the federation for help they do not get it, they say. The interests of the Southern working man and his Northern brother are not the same and for this reason it is thought best to will be to the South what the American Federation of Labor is to the North.

The idea originated with Mr. Lovering and through the columns of his paper he has suggested the idea of having a convention of labor organizations of the South to be held in Atlanta to discuss the plan and organize. Letters have been received from labor organizations all over the South in which the plan is heartily endorsed and the writers signify their willingness to take part in such a convention.

It has not been decided yet when the convention will be held, as arrangements are pending with the railroads, but it is thought now that it will be called for the middle of March. The His report to the Hon. E. B. Springs, lides in forming the new organization is not to take the labor unions out of the American Federation unless they so desire and it is not to be hestile to that organization. Labor unions may belong to both, but it is hardly likely that they will affiliate with the American Federation after they are members of the proposed organization. - Atlanta Ga.) Constitution.

ADVERTISING THE SOUTH.

How the Southern Railway is Exptoiting Advantages of This Section. At the Congregationalist Church, Washington, D. C., there was delivered by Rev. A. G. Rogers, of Reading, Pa., a lecture entitled "In Nature" Paradise," illustrated by some 200 colored views of scenery and cities of the South on the line of the Southern Rail

Sky," illustrated a scene of our country which he described as beautiful i natural grandeur, and being rapidly developed by enterprise and industry seldom equalled in our history. This method of placing the South as a place of resort for health and pleasure at al seasons, as well as business opportunity, and familiarizing one section of country with the other is an enterprise. of the Southern Railway.

Pensions in Virginia.

In the Virginia House Capt, Parks inestablish new foci of infection. As to troduced a bill, the object of which is the methods of prevention of smallpox to eliminate from the pension list such there are only two practicable: "One names as should not be upon it. The bill changes the present law so that all applications for pensions shall first pass through the county courts, where each applicant shall make out a written form and be examined by two reputable physicians. All pensions now granted shall be null and yold, and those wishing to be pensioned shall go through the process provided in this act.

Flour Rate War On.

The Illinois Central has finally taken a hand in the flour rate war. It is announced that a reduction in the rate from Chicago to New Orleans of 4 cents will take place at once. The low rates affect practically every point in the East, Southeast and South and indirectly the Southwest. Never before has flour been carried so cheap.

Greatest Grain Crib in the World. Young Joseph Leiter, the king of the wheat deals, will, so it was said, erect the largest elevator of the world, in Kansas City, Mo. It will be completed in time to handle next year's

The rejection of the arbitration treaty was a calamity. Even if a defeat, yet its friends should take heart, for it is a principle too well grounded to wither and pass away. We have won every honor that war can bestow. We can blend the lilies of peace with the laurels of war. Not in humility, not in deprecation, not as a nation whose palms have yet to be won, do we seek this heroic and virtuous consummation. Peace with arbitration would be a blessing to mankind, a blessing and likewise a guerdon to the American A Beautiful Girl's Affliction.

From the Republican, Versailles, In !. The Tuckers of Versailles, Ind., like all fond parents, are completely wrapped up in their children. Their daughter Lucy, in particular, has given them much concern. She is fifteen, and from a strong, healthy girl, three years ago, had become weak and kept failing off in flesh, until she became a mere skeleton. She seemed to have no life at all. Her blood became impure and finally

at all. Her blood became impure and finally she became the victim of nervous prostration. Doctors did not help her. Most of the time she was confined to bed, was very nervous and irritable, and seemed on the verge of St. Vitus' dance.

"One morning," said Mrs. Tucker, "the doctor teld us to give her Dr. Willams' Pink Pills for Pale People, which he brought with him. He said he was treating a similar case with these pills and they were curing the patient. We hegan giving the pills and the patient. We hegan giving the pills and the heat day sould see a change for the better,

The doctor came and was surprised to see such an improvement. He told us to keep giving her the medicine. We gave her one pill after each meal until eight boxes had been used when she was well. She has not been sick since, and we have no fear of the old trouble returning. We think the cure almost miraculous.

FRANK TUCKER, Mas, Phane Tucken, Subscribed and sworn to before me this

28th day of April, 1897 HUGH JOHNSON, Justice of the Peder. These pills are wonderfully effective in the treatment of all diseases arising from impure blood, or shaftered herve force. They are adapted to young or old, and may be had at any drug store.

Flowers Answered Both Purposes. A certain young widow of Indianapolis who had just changed her weed? for brighter hues gave a dinner party not long ago. The rooms were decorated with a great profusion of flowers. Roses in masses were on the mantels and the digner table fairly blossomed-in fact, the abundance of flowhave an organization in the South that ers was unusual. One of the guests could restrain her curiosity no longer, and when the dessert was brought in said: "Well, Mrs. Blank, you're rather spreading on the flowers to-night." "Yes," replied the fair widow brightly, "but to-morrow I am going to take them out to Crown Hill and put them on poor Tem's grave."
