

BETSY JONES THE CRY OF WHEAT

And Suggests Harvesting be Done With a Magnifying Glass and a Razor.

Millertown, June 5.—The farmers are now having a hard fight with the grass. Harvest too is upon them. Wheat is very sorry while we think there will be a right good crop of oats.

The picnic at Parker's school house last Thursday was attended with a right large crowd, also the ice cream supper given by Miss Julia Morgan that night.

We are more than sorry to note that Mr. Bringle, the popular mail carrier from Richfield to Pool, has an attack of heart trouble, however, we wish him a speedy recovery.

Mr. and Mrs. Jos. W. Miller and Mr. and Mrs. William Kirk went to Whitney Ascension-day to see the big dam and works going on down there. It is quite a sight for one to see.

I am requested to say that those who wish to call on David Wyatt, Cross Roads, will find him at home every Sunday as usual.

There will be children's day at Zion M. E. church next Sunday.

J. Cal Fraley, the shop man at this place, has had his hands full now for some time making and repairing cradles, tho' the cradles are almost necessary in the wheat line we understand some one was talking of taking a razor to shave off his wheat.

Best wishes for the WATCHMAN and all its readers, BETSEY.

The Rothschild Rules.

It is a characteristic of rich old men to hand out advice with a free hand. The late Baron Rothschild had a set of rules which he was in the habit of giving to young men who manifested symptoms of a desire to touch him. His advice is summed up as follows:

- "Shun liquor.
- "Dare to go forward.
- "Never be discouraged.
- "Be polite to everybody.
- "Never tell business lies.
- "Pay your debts promptly.
- "Be prompt in everything.
- "Bear all troubles patiently.
- "Do not reckon upon chances.
- "Make no useless acquaintances.
- "Be brave in the struggle in life.

"Maintain your integrity as a sacred thing.

"Never appear to be something more than you are.

"Take time to consider; then decide positively.

"Carefully examine into every detail of your business."

These rules are good from first to last and the young man who will follow them is bound to succeed. They are hard to live up to, but success never comes easy. Only those who work for it attain it. In giving young men these rules, the Baron served them better than if he had given them money.—Charlotte Chronicle.

CATTLE BEING QUARANTINED.

Only a Half Crop of Wheat. Wm. A. Cauble Still Quite Ill.

This community was visited by a light hail storm last Thursday evening. Hail was about the size of peas. No damage done.

The farmers are cutting wheat. The crop is most extra, about one-half a crop is counted on.

Henry Cauble, of Faith, visited his father Sunday.

Wm. A. Cauble does not improve. The swelling caused by dropsy is returning again after having been allayed. The present indications are for the worse. However, we wish him a speedy recovery.

Rev. N. D. Bodie preached a most excellent sermon Sunday at Union E. L. church. The house was filled to the limit of seating capacity.

Mr. Bell, of the Agricultural Department, is making a canvass of this county in the interest of the quarantine of the cattle. He quarantined Calvin Kesler's cattle, also Albert Lyerly's. If you don't want your cattle quarantined, hunt the ticks on them and have them cleaned up nice before he comes around. We would advise Bros. Lee and Jake to get all the ticks off themselves or they will be quarantined.

Bro. Lee seems very much interested in the buzzard and finger problem. I think we can solve it. Jake was mistaken in it being a finger. It must have been a toe that Lee lost sometime ago. Are we correct in the loss of the toe Lee?

Chas. A. Trexler and family visited his brother-in-law (Bartlett) Saturday evening.

Anson Cauble and Bartlett visited the big dam at Whitney last Thursday. It is well worth any ones time to visit this place and see the work that is being done. The building of coffer dams, the steam shovels, in fact everything around the work is interesting. BARTLETT.

Microbe Weather

These warm, balmy days make fine growing weather for myriads of microbes. They are laying in wait for your health. The thing to do is to destroy them with a good germicide before they have an opportunity of harming you. Smallpox, diphtheria, typhus, scarlet fever and all infectious diseases are germ diseases. Disinfectants should be used freely in every dark spot or damp place, in cellars, drains, etc., and the sooner we have every disinfectant of known value. Cost almost nothing in comparison with good they do.

Calf Gives Milk.

Arthur P. Freeland, of Villa Heights, who works for the Catawba Power Company, has a curiosity in the shape of a 11-months-old calf that gives milk freely. The animal is an ordinary healthy, brindle calf, with no outward indications of being abnormal.

The calf became a pet of the neighborhood children when it was very young. They began milking it for fun. A week or two ago it began giving milk, and now it averages a pint a day. Cows usually begin to give milk when they are two years old.—Charlotte Chronicle.

Alabastine

A Rock Cement in white and beautiful tints. Does not rub or scale. Destroys disease germs and vermin. No washing of walls after once applied. Any one can brush it on—mix with cold water. Plain tinning and whitening, and the most elaborate relief, stencil work and frescoing may be done with it. Other finishes (bearing fanciful names and mixed with hot water) do not have the cementing property of Alabastine. They are stuck on with glue or other animal matter, which rots, feeding disease germs, rubbing, scaling and spalling walls, clothing, etc. Such finishes must be washed off every year—costly and dirty work. Buy Alabastine only in five-pound packages, properly labeled. Tint card, pretty wall and ceiling designs. "Hints on Decorating" and our artists' services in making color plans, free.
