strength.

Need For Good Highways. 1

NOK HE good roads question continues to attract widespread public interest, judging from the extensive discussion of the subject in the public press. 'The proposition of Federal support in this respect seems to be gaining strength in the country at large, and the good roads propositions as presented to recent Congresses are being earnestly examined by many interested citizens, as the demand upon the Capitol document rooms at Washington attests. These bills seek to enlist the financial support of the Federal Government in the improvement of the wagon roads of the country, the plan being for Uncle Sam to supply a sum equal to the sum any State will supply up to the maximum provided for.

Congressman Brownlow, in explaining the provisions of his bill, said that Federal co-operation in the premises was but just in order to fairly distribute the burden of taxation necessary to improve the public highways. He makes this telling point:

"So long as we pursue the original method of taxation the entire burden of cost for highway improvement falls upon the owners of agricultural lands Mrs. Emma Fleissner, 1412 Sixth Avenue, and the persons living in the rural dis-Seattle, Wash., Worthy Treasurer Sons of tricts. When the great mass of the people lived in the rural districts this "I suffered over two years with irwas a just and equitable distribution regular and painful periods. My health was in a very precarious conof taxes for such purposes, but with dition and 1 was anxious to find something to restore my health and the changed conditions of the present day, when one half of the people live "I was very glad to try Peruna and dein cities, and much more than one-half lighted to find that it was doing me good. of the wealth is concentrated in these I continued to use it a little over three cities and in the corporations that are so powerful at the present time, it is "I consider it a splendid medicine and shall never be without it. taking absolutely necessary that some means a dose occasionally when I feel runshould be devised whereby the revenues requisite for the great improve-Our files contain thousands of testimonials

land.

Stumbled Into Rich Mine.

Nannie Brown, eighteen years old, a negro servant, while searching for a stray cow near the Homestake mine, half a mile east of Butte, stumbled into a gopher hole out of which had been thrown several small particles of quartz in which gold glittered. The girl carried the sparkling rock home and assays in Butte show that the rock carries more than \$1,000 in gold to the ton. The girl led her employers to the gopher hole and the whole country was staked off, the locaters being "Con" Conklin, S. W. Brown, "Al" Stevens and Miss Brown, each taking an equal share. Two shafts have been sunk thirty feet, revealing two large gold leads in which the free gold can be easily seen. About \$6,00 worth of rock is in sight and excitement runs high over the discovery.

Threw Rock Too Far.

As John Jones of Goshen; Vt., attempted to remove a rock from his yard with dynamite recently, the lock was thrown to the roof of a cow stable near by, crushing through the roof to the floor and nearly killing some private refrigerator car lines. calves which were in the stable.

CONSUMPTION

ment that is called for should be derived from all of the people and resources of the country as nearly as possible, and not rest, as heretofore, upon the farming classes, who are the immediate losers by every failure of crops and suffer by every decline in price of agricultural products."

Another important consideration is that, in the last analysis, the cities and towns benefit from good roads just as much as do the people living along them. It is to the interest of the merchant as well as of the farmer to have an improved system of roads in every part of the country.

The development of the rural free delivery system has served to bring the people of the country into closer touch with not only the towns, but with the Federal Government, than ever before. The Government, speaking and acting for the country at large, has, therefore, a direct interest in the welfare of the people living in the rural sections, and the benefits to be derived from good roads would be shared not merely by those living upon them, but by all the people.-Atlanta Constitution

### The Movement's Progress

That the good roads movement is popular and has come to stay is evidenced by the attention now given to good roads engineering in our educational institutions. The Rhode Island College of Agriculture and Mechanic Arts has recently issued a circular concerning its course of Highway Engineering, which circular can be had from the president by addressing him at Kingston, R. I. This medium is to call the attention of any young men who are thinking of doing engineering work to the advantages of including education along good roads lines. This last addition is badly needed and will be of immense value in the Southern States of the Union where less attention, perhaps, has been given to this than in those further north. That it seriously concerns us all is evident without any argument, and the action of President Butterfield, of the Rhode

highly commended. In addition to this we learn that in the Iowa State College at Ames, Iowa, the Iowa highway commission has established a road school in which every piece of the work, including class work, work, field work, modern road machinery, cement in highway improvements, etc., is taught. Plans are being made to build model sections of earth, gravel and macadam roads, and practical men have been engaged for the schools, and it is thought that the results will be very flattering.

#### True Warning of Death.

A remarkable case of a dream warn ing was that of Mr. Henry Gay, of Abertillery, Monmouthshire, Eng., who on Feb. 19, 1901, had a vivid dream, in which he declared he was standing with a "radiant presence" in a shining cornfield: His companion gathered four ripe ears of corn and handed them to him with the words. "These are all for thee." Mr. Gay immediately told Rev. D. Collier, of Abertillery, of his strange dream, and said he was convinced that he had four more years to live, a conviction which no argument could shake. Exactly four later. on Feb. 19, 1905, Mr. Gay died.

#### Linking of Coincidences.

Fire broke out on the roof of F. E. Young's blacksmith shop at Enosburgh Falls, Vt., on July 25. Exactly three years previous to a day a fire broke out on the same roof in the same spot and, stranger yet, the same customer, Edward Brady, was having his horse shod at the time.

## Revolutionary Cannon Ball.

While digging a ditch in the south east part of the town of Bennington, Vt., recently a workman dug up a sixpound cannon ball that had been three feet under ground and badly rusted. It was on the direct road taken by the Berkshire county troops that came to participate in the battle of Bennington, and on the lot where they camped the night before reaching Stark's army.

#### Of Special Value.

In Southern Louisiana the good roads movement is of special value from the fact that our great crops of cane and rice weigh more in proportion to the area of land on which they are grown than do the crops of any others of the States of the Union. Thousands of acres of sugar cane have been lost in Louisiana during rainy harvesting seasons from the practical impassability of our roads, and while no good roads movement can change our climate, we can unquestionably change some of the effects of our climate by reiterating the importance of road drainage and other physical ameliorations, as well as suggest the financial and politico-economic methods for road improvement .- Louislana Planter.

Admiral Togo, when in England, in the 70's, was commented on by a critic, who said: "Mr. Togo quite annoys himself with his politeness."

fort are the sure results. A remarkable man of 94 says: "For many long years I suffered more or less with chronic costiveness and painful indigestion. This condition made life a great burden to me, as you may well imagine. "Two years ago I began to use Grape-Nuts as food, and am thankful that I did. It has been a blessing to me in every way. I first noticed that it had restored my digestion. This was SOMETHER MENY UNDER THE SUR a great gain, but was nothing to compare in importance with the fact that in a short time my bowels were restored to free and normal action. "The cure seemed to be complete; for two years I have had none of the old trouble. I use the Grape-Nuts food every morning for breakfast and frequently eat nothing else. The use has made me comfortable and happy, and although I will be 94 years old next fall, I have become strong and supple again, erect in figure and can walk with anybody and enjoy it."
