THE STATE PLATFORM

Official Declaration of the Principles of North Carolina Democrats.

The Democracy of North Carolina, in convention assembled, renews its allegiance to the principles of constitutional government, through laws enacted and executed in the interest of the whole people, without favor to individual or class, and it pledges itself to continue the just, wise and economical administration of public affairs, which have obtained in State and county since its return to power in 1899. We congratulate the people of the State that, under Democratic auspices, there has been established throughout the borders of the State a reign of law and liberty, peace and progress; that our people are no longer employed in guarding their homes and protecting their lives, liberty and property, as they were under Republican rule, but safe in the protection of law and enjoying the freedom which comes from security are directing their energies to peaceful pursuits of honest industry.

We endorse the wise, patriotic and able administration of our State's affairs by Governor Robert B. Glenn and the other State officials, and we point with pride to the record of our Senators and Democratic Representatives in Congress and endorse the same.

Constitutional Amendment.

We again congratulate the people of North Carolina upon the successful operation of the constitutional amendment regulating the elective franchise. The adoption of this measure has permanently solved the race problem, which had so long agitated the public mind, and was a menace to peace and good government. In its operation, the assurances made by the Democratic party to the people, that no white man would be disfranchised thereby, have been fully verified, and the predictions of the Republican party to the contrary proven false. After a test of five years the wisdom of the amendment is recognized and acquiesced in by all political parties, and is accepted as a solution of a vexed question.

We congratulate the people upon the beneficial effect of the temperance legislation enacted by the Democratic party, and approve and endorse the principles enunciated in the Watts bill and the Ward bill regulating the manufacture and sale of liquor.

On Education.

We reaffirm our constitutional declarations that religion, morality and knowledge, being necessary to good government and the happiness of mankind, schools and means of education shall be forever encouraged, and that the people have the right to the privilege of education, and that it is the duty of the State to guard and maintain that right, and we express hearty approval of the great results accomplished through educational work during the past six years of Democratic rule; at the great improvement made during that time in our educational conditions, and we promise a continuance of a four months' school term for all the children of the State. The Democratic party established the system of pensioning Confederate soldiers and opened the soldiers' home to the care of the veterans who responded to the call of the State in the war between the States. Every dollar given them was appropriated or forced by Democratic legislation, or Democratic public sentiment. We pledge the party to a fuller discharge of a debt that can never be fully paid to these aging heroes, who offered their lives as a sacrifice upon the altars of their country.

Care of the Insane.

We point with pride to the record of the Democratic party in its care of the unfortunate classes in our State and promise to continue to enlarge our charitable institutions until all the indigent insane are cared for at the expense of the State.

The powers of the corporation commission should be so enlarged as to give it full and adequate power to regulate all public service corporations within the State and subject to its jurisdiction. Passenger and freight rates in North Carolina are too high and should be materially and substantially reduced and we demand such action by the Legislature and corporation commission as will accomplish such reduction. We are opposed to granting charters to corporations in perpetuity.

The discrimination of railroads against North Carolina cities and towns and in favor of other points having no greater natural advantages is a grave injustice to the people of this State, and should be corrected by such limitations set by the constitution of the United States.

The interference by public service corporations in political matters should be called so sharply to the attention of the people that it will be odious and the efficiency of such corporations as political agencies should thus be destroyed. The law against issuing free passes should be so amended as to make the party who illegally receives them equally guilty with the corporation issuing them.

The failure of connecting lines of railways to make connection as scheduled is a source of much inconvenience, expense and annoyance to the traveling public, and we demand such additional legislation as may be necessary to enforce that provision of our statute, which requires connect-

ing lines to make as close connection as is practicable for the convenience of the traveling public.

Favors Forest Reserve.

We favor the Appalachian forest reserve and the construction of the inland water way from Norfolk, Virginia, to Beaufort inlet, North Carolina. While both of these projects involve great benefits to the State, they are also of national importance. The one preserves our mountain forests and conserves our water supply promotes the public health, maintains our water power and aids agriculture, the latter will open up a free outlet North and South for the water-borne trade of eastern North Carolina, equalize traffic rates and promote the prosperity of our people. Its construction will also greatly increase the coast-wise trade between the South Atlantic and North Atlantic ports. We urge our Senators and Representatives to continue their efforts to secure legislation for the establishment of the one and the construction of the other.

Equal Rights to All.

We reaffirm our adherence to the time honored principle of Democracy of "equal rights to all and special privileges to none" and we condemn subsidies, gratuities, bonuses, trusts and monopolies. For nearly ten years the Republican party has been in absolute control of all departments of national government with power to change unjust conditions and to rectify evils. Yet, during that time colossal combinations of capital have dominated the people, and illegal perversion of corporate laws have stifled competition and unfairly limited the opportunity of the individual citizen. Wealth thereby illegally obtained has been unsparsingly used to control legislation and corrupt elections. No honest effort has been made, or is being made, by Republican legislation to cure or eradicate these evils.

We denounce the hypocrisy of the Republican party which, while pretending to legislate against these conditions, deals only with the symptoms and not with the disease. The unfair, tyrannical features of the so-called "protective tariff" have made these things possible, and no permanent relief can be secured until its obnoxious features are removed. To remedy this evil we demand a thorough revision of present tariff laws.

Trusts Denounced.

The growth of the trusts and other inordinate and dangerous combinations of capital, the tremendous and rapidly increasing absorption and centralization of the wealth of the country in the hands of a chosen few, all due to premeditated and systematic legislation in behalf of special interests by the Republican party, demand a change in the policies imposed upon the country by that party and make the passage of restrictive laws an imperative necessity.

We denounce the appalling system of corruption heretofore practiced by the great insurance companies, whereby money entrusted to them for the benefit of widows and orphans has been devoted to the enrichment of favored individuals and to the campaign fund of the Republican party.

The Tariff.

We denounce the present iniquitous, unjust and trust-creating protective tariff imposed upon the people by the Republican party and demand its immediate revision, to the end that all unjust burdens shall be removed, and especially those upon the necessities of life and those that enable the trust to extort from the people unreasonable profits and to sell their products to consumers at home at greater prices than are charged for the same goods to the foreign consumer.

Debate on Platform.

After the report was read Mr. Jno. D. Bellamy, of New Hanover, moved that the perpetuity clause be stricken out. Mr. W. H. Powel, of Tarboro, seconded the motion. The amendment did not carry. Mr. J. D. Murphy, of Buncombe, asked that an amendment be added to the platform to give the corporation commission power to fix just and reasonable tolls and rentals to be received by telephone companies. Major E. J. Hale insisted on his resolution endorsing the Chicago platform and other things and moved that it be added to the report of the platform committee. N. S. Spence moved as a substitute that the resolutions be laid on the table. There were calls for a vote. Spence's motion carried. A division was called and a poll of the counties taken. The result was 351 against, and 345 for. Senator Simmons offered the following substitute to Major Hale's resolution:

Senators and Judges by Direct Vote.
Resolved, That the Democratic party, in convention assembled, declares itself in favor of the election of United States Senators and Federal judges by a direct vote of the people; that it also favors the enactment of a graduated income tax and for the purpose favors such amendment to the constitution of the United States as may be necessary.

Mr. Cameron Morrison spoke against adding "Federal judges" to the resolution. He said that it was revolutionary to talk of electing Federal judges by the people. Senator Simmons said that he did not understand the "Federal judge" clause to refer to the United States Supreme Court judges. Major Hale insisted on the Federal judges being added, explaining that he did not mean to include Supreme Court judges.

San Francisco, Special.—Congressman Hearst said: "I would like to state very positively that I am not a candidate for the Democratic presidential nomination in 1908."

"Mr. Bryan said the other day in London that there were others besides himself who had claims on the nomination, through services rendered the Democratic party, and mentioned pleasantly Messrs. Folk, Bailey and myself.

"Mr. Bryan's services to Democracy are too well diagnosed to be rehearsed. He has led the party conspicuously in two presidential campaigns and one senatorial campaign. In the national house of Congress he has made issues himself and expounded them with brilliancy unapproached."

Rising in a crowded coach, and displaying a revolver in each hand, Ellison, who was the worst for drink, announced that he was going to kill everybody in the car.
