Mr. Grier's Statement.

The statement made by S. A. Grier, Secretary of the machinists general committee, as published in one of the city papers, does not endorse all that is claimed by the railroad company in the matter of the machinists' strike. In speaking of the refusal of the machinists to accept Mr. Spencer's offer of arbitration, Mr. Grier says: "In the meantime the committee of the boiler-makers and the committee representing the pipe fitters, tanners and coppersmiths were in conference with the officers of the road, and satisfactory settlements for the men they represented. The boiler-makers receive practically a two cent flat increase, just what we had assured Mr. Spencer we would have accepted ten days before the strike was called. And the pipe fitters, coppersmiths and tanners were granted increases for all their men varying from 1-2 cts. to 3 cts. per hour.

"Considering the above facts, is it natural to suppose that the machinists should be willing to arbitrate for what we agreed to take before we went out, and what the company considered fair to give to other trades? Our men said no, and we think our stand is justly taken.

"The boiler-makers and machinists have always been considered by the Southern as on the same basis, and have been paid the same rate of wages, then why should we be called upon to arbitrate for what the company gave them?"
