Young Woman Ends Her Life.

Miss Bella Everhardt, of Chestnut Hill, committed suicide by shooting yesterday morning about 6:30. Miss Everhardt had prepared breakfast as usual for her father and brother. When she had done this she went to the room where the two were asleep and securing a shotgun discharged one barrel into her stomach. The brother of the girl did not hear the shot, but strange to say, did hear the sound of the gun falling to the floor after the shot was fired. He discovered his sister lying there mortally wounded, and death ensued in a few minutes. No cause has been assigned for the rash act. Coroner Dorsett went out to conduct an investigation and the result of this is not yet known.

A Recent Bill.

A bill has recently passed the lower house of the legislature that provides for the creation of the office of recorder for Salisbury. But little is known here of the provisions of the bill, but it is presumed if it goes into effect it will provide a good job for someone, and this someone will preside over the municipal court and try petty offenders against the law. We have not yet heard that the bill has passed the Senate. Representative Murphy, of Rowan, introduced the bill. This measure does not meet with popular approval, but it is not likely that this will worry those who are primarily responsible for the introduction of the bill.

Cent Meetings.

Rev. R. E. Neighbor, pastor of the First Baptist church, contemplates arranging for the purchase of a large tent which is to be used for religious meetings. The tent which he has in view will accommodate something over one thousand people and its estimated cost is \$500. It is to be filled with benches, lights, etc. Mr. Neighbor will endeavor to secure some well known evangelist to hold the opening meeting. Permission has been asked to place the tent on the ground formerly occupied by the tabernacle, which was torn down by a storm in April 1905. It is thought that the members of the different denominations of Salisbury will be glad to assist in defraying the expense of the undertaking.

Coal Missing.

It is stated that a quiet investigation has been in progress at Spencer, by detectives and others, in order to locate about 100 cars of coal which are reported missing and for which there is nothing to show. This coal is said to have been shipped to Spencer and received there, but to whom it was delivered, or when, no one seems to know. It is rather strange that so much coal as this could disappear without some one knowing the circumstances under which it took flight. Perhaps time will clear the mystery.

Opening Display This Week of New Spring Models In Women's Ready-to-wear Garments.

Suitable for Local Wear or Adaptable for Southern Climates. An authoritative presentation of high-class apparel, showing latest Parisian ideas and colors, in

Complete Costumes, Dresses, Tailored and Demi-tailored suits, Baby Irish lace, Linen and Lingerie waists, Princess gowns in organdie, mull, batiste, nets and lawn, hand embroidered and lace trimmed, wraps and traveling coats, etc.

Mention is particularly made of the splendid collection of "Demi" or Fancy Tailored Suits, Princess Gowns and French Waists and Blouses.

The Princess Gown is pre-eminently the correct style for spring and summer, and the soft, sheer, clinging fabrics are most wanted. Laces for trimmings are very extensively used, the heavy laces being greatly in evidence.

This same idea is very elaborately carried out in the new French Waists, heavy laced and hand embroidery being used in profusion.

In the Lace Waists and Baby Irish is most wanted. These are shown here in a splendid variety of new patterns, and most of them have the German val. laces used as trimmings, the elbow sleeves predominates.

In the "Demi" and Full Tailored Suits the thin wool fabrics are used almost exclusively—voiles, chiffon Panamas and the plain Panamas—and they are much trimmed with braids, laces and embroideries, in Persian effects, etc.

The Eton Jacket, the Pony Coat and the Plaited Skirt are the leading styles for spring, and they are made in a wide variety of adaptations.

The present display is of unusual attractiveness, embracing as it does most comprehensive assortments of ready-to-wear apparel in both tropical and medium weights.

An inquiry as to the spring styles will be answered same day as received.

Descriptions of the new suits, waists, shirts, etc., sent on application.
