WEALTHY MAN SUICIDES.

Prominent Citizen Shoots Himself While Alone in His Bath Room.

Cincinnati, O., March 18.—William A. Proctor, president of the Proctor & Gamble Company, and of one of the firm's founders, died this afternoon from a bullet wound, self-inflicted, at his home in Glendale, a suburb of this city. When announcement was made of his death it was stated that death resulted suddenly and it did not develop till some hours later that he had shot himself in the head while alone in the bath room. Mr. Proctor was widely known in business circles and was a prominent layman in the Protestant Episcopal church to the institutions of which he was a liberal giver.

His wealth was estimated at many millions, most of which had been made by himself. He was noted for the co-operative scheme for a division of profits with employees which he had designed for his company.

Fire at Statesville.

At 9 o'clock tonight the citizens of Statesville were startled by cries of fire—started because the disastrous conflagration of a year ago, when the city suffered so sorely from the cruel, merciless flames is still fresh in the memory of our citizens.

Repairing to the lurid scene it was found that the Emerson building, on Broad street was enveloped by a tongue of red. In addition to this building two frame structures owned by Messrs. W. E. Anderson and L. B. Patterson, were burned to the ground. The fire is thought to have originated in Wilson's tailor shop from an explosive of some kind. The flames had made considerable headway before they were discovered.

The loss will be covered by \$10,000 with \$5,000 insurance. There is no doubt but that for the excellent work of the fire department, pay and volunteers, the conflagration would have resulted more disastrously.

In making his exit a Mr. Phifer was struck by a piece of burning timber and several parties had narrow escapes.—Special to Charlotte Observer 80th.

Well Worth Careful Consideration.

A distinguished minister of the gospel now gone to his reward, who had reared perhaps the most distinguished family of children, all in all, ever reared by any father in North Carolina, was asked, in view of the high and honorable station his boys were filling, the pride of the church and the pride of the home and the pride of the State, how he managed to accomplish so great and blessed results, replied: "I never allowed my boys to be on the streets after dark." That, of course, was only a part of his parental work, but a very important part. Night is the time the devil seizes upon to effect his destructive work upon the young. It is strange that parents do not see this and set themselves like the rock of Gibraltar against the loafing of their boys upon the streets at night. And what is stranger still, there are parents who allow their daughters this perilous privilege in view of the fact that falls that shock communities and break the hearts of families are generally from the street tramping contingent at night. It is a low grade phase of public sentiment that does not ostracize it.—Progressive Farmer.

His Dear old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feel strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles by all druggists. 50c.

TIME NOT YET RIPE.

No Definite Information as to the Progress of the South American War.

Washington, March 28.—The moment has not yet arrived when America and Mexico can intervene to stop the spread of war in Central America. This was the decision arrived at as the result of a conference between Secretary Root and Ambassador Creel at the State Department today. The Secretary also had the benefit of the advice received by the diplomatic representatives of the Central American States from their own government.

The absence of definite information from the seat of trouble is embarrassing to the officials who are desirous of bringing about peace. The State Department received a dispatch today from United States Minister Merry, of San Jose, Costa Rica, announcing that it is reported there that Amapala, Honduras, is being bombarded. Amapala is the chief Honduran port on the Pacific side and President Bonilla, of Honduras, is reported to have fled to that port which was formerly one of his strongholds. Some time ago it was reported that Nicaragua had sent a gunboat to storm Amapala.

No Picnic This Year.

The employees of the Southern Railway Company will not have their usual annual picnic this spring. Master Mechanic Roesch has notified Chairman W. H. Burton, of the transportation committee of the employees' picnic, that owing to the shortage of equipment, congestion of traffic, high price of operating expenses, etc., it will be impossible to furnish a free picnic train for the employees this year. This picnic has always been quite an event and those interested will no doubt be somewhat disappointed.

The Merchants Meet.

Last Thursday night the Merchants' Association held a meeting at its rooms which was largely attended. The delinquent list which has just been completed was placed in the hands of the members. A committee was appointed to decide upon how the list shall be used, and this committee will report on the matter at the next meeting. A complaint was made to the effect that certain wholesale merchants of the city have been selling goods at retail. A committee was appointed to see these merchants and request that they quit this practice, as it is claimed to be injurious to the retail dealers.

The New Passenger Depot.

People who have kept up with the divers and sundry reasons about the proposed new passenger depot, will be pleased to learn that the latest report is to the effect that the contract has been awarded and work is to commence immediately, if not sooner. The estimated cost of the structure and trimmings, has taken a long leap upward, and this is now placed near the \$100,000 mark. The Greensboro Construction Company has secured the contract for the work.

The Law is all Right.

A Raleigh dispatch of the 28th created a little excitement here among the friends of Hayden Clement, Esq., who was recently appointed by Attorney General Gilmer as his assistant. Some wise ones had found some flaw in the law authorizing the appointment of this assistant and the payment of his salary. The Council of State made a careful investigation and reached the conclusion that the law was all right.

Chew What You Know About and Know What You Are Chewing

There is real pleasure in chewing the best tobacco grown—where the best tobacco grows—in the famous Piedmont Country.

Only choice selections of this well-matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and others of the Reynold's brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco, and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more

chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the large 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. Cuts. Strictly 10c. and 15c. Plugs
