

SHOULD BE LOOKED AFTER.

Cases of This Sort Should Receive Prompt and Effective Treatment.

While going to her home on Davis avenue one night recently, a young lady who is necessarily kept at her work up town until 8:30 and 9 o'clock, was approached by two large negro men at a point just in front of the Associate Reformed church, on east Broad street, and one of the negroes addressed her in the following language: "How do you do, sweetheart?" The young lady was badly frightened and hurried home without calling for help. A number of such incidents have been known in Statesville recently and if the young ladies insulted would only call for help the insolent brutes would be attended to. At the time of the incident mentioned above, two policemen were standing near the square, in calling distance, and if the young lady had called for help the negroes could have been easily arrested.

Cases of this sort mean trouble. The negroes who offer the insults are probably not of the kind to take a hint, but if some of them are caught they'll wish they had.—Statesville Landmark.

Replanting Cotton.

When you read of cotton being replanted it usually means that what came up in the rows was plowed under and that new seed were planted, but the object of this article is to call attention to the importance of replanting the missing places in the rows. This has always been regarded as a hard job and one reason why it was not done.

The old way of replanting was to dig a trench the whole length of the missing place and sow seed all the way along and then covered them. Now unless the missing place is over two feet long we pay no attention to it. Where replanting is needed we dig holes about two feet apart and put three or four seed in each hole.

By this method the work is much easier done and hardly any chopping is necessary and the stand of cotton is obtained. Where land is well manured and thoroughly tilled the importance of a good stand is greater than where a light yield is expected from the start. Now is the time to do this work if it has not already been done.—J. M. ty in Smithfield Herald.

Cotton Outlook Poor in Mississippi.

R. L. Hardison returned Saturday night from West Point, Miss., where he had been on a visit to his brother, John M. Hardison. Mr. Hardison says that many farmers around West Point were planting cotton for the third time last week. It has been raining almost all the spring in Mississippi and where there is anything like a stand of cotton the plant is hidden by weeds and grass. The outlook for the staple in Mississippi is the poorest ever known at this season, so Mr. Hardison was informed.—Wadesboro Messenger.

Accident to Veteran.

J. D. Tarleton, a Confederate veteran who lives on the Moore farm near Charlotte, was found on the depot yard here last Friday morning at 1 o'clock in an unconscious condition and with bad bruises on his body. The man could give no account of himself. He was taken to the Monroe Hotel and Dr. J. M. Blair was called to attend the injured man. The man's name was not known by any one here until last Sunday when W. W. Moore, of Charlotte, came down to see him. Two of Mr. Tarleton's sons, came down Monday and spent the night with him. The unfortunate man is here in the hands of strangers and they are doing everything possible for him. It is supposed that Mr. Tarleton, in returning from the re-union at Richmond, stepped off the train here and was hurt.—Monroe Enquirer.

FELL FROM TRAIN.

Veteran Returning From Re-union Meets Death on the Rail.

Greenville, S. C., June 6.—Judge J. S. Bossier, of New Orleans, met death last night about 7 o'clock by falling from a Southern passenger train about two miles south of Easley. He was apparently passing from one coach to another and fell from a platform, falling a distance of 60 feet down an embankment. He was a veteran of the civil war and had been in attendance at the Richmond re-union, from which he was returning. He is said to have carried a robe which was worn by Jefferson Davis, to the re-union and sold it for the owner for a handsome price. Examination by the doctors showed that his neck was dislocated in the fall. Otherwise he received few bruises. He was a recent candidate for Lieutenant Governor of Louisiana. His family lives in Louisiana. His body was embalmed and sent home today.—Special to Charlotte Observer.

Work of a Pipe Line Walker.

Jack Hovey has walked over the Tidewater pipe line from Rixford, McKean county, to Williamsport continuously during the last twenty-six years.

He makes from eight to twenty-one miles a day, carrying a kit of tools weighing about sixty pounds, among which is a telegraph instrument, which in case of breaks or other accidents, he attaches to the company's wire which follows the line, and informs headquarters at Williamsport. The distance is 145 miles as the line runs, up and down hill, across valleys and through woodlands and forests forty miles of it being through the dense Potter county woods, with scarcely a habitation along the route.—Philadelphia Record.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation. Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.
