Women to Have Beards.

The students at the University of Chicago recently were agitated when Prof. Samuel W. Williston, head of the department of paleontology, made the startling statement that hair would soon grow on the faces of women.

"The day will soon come when you will not only have mustaches but you will have beards," declared the professor, who has won a national reputation as a scholar. He was addressing a school class of coeds.

"Horror!" whispered one. I'll have mine cut Van Dyke said another. "I always did like Van Dyke beards." "I am going to part mine in the center," ventured the third. "Everything is tending towards beards for women," continued the professor. "You girls have more than you until the day will come when you will have long flowing beards like the pictures of Noah and Sanator Peffer of Kansas."

When will that be? queried one of the timid ones.

"Oh, a few centuries from now," answered the professor.

RUMOR ON THE WACHOWIA BANK.

A Number of Small Depositors, Woodlessly Alarmed, Withdraw Their Money.

Owing to an unfounded rumor, last Thursday morning a number of women, children and other small depositors of the Wachovia Loan and Trust Company's banks here and at Spencer, experienced what is commonly known as a "run," in other words these depositors became unduly alarmed as to the bank's stability and called for their deposits. This caused quite a commotion about the banks for several hours, but was viewed with considerable amusement by the larger depositors and business people generally who were better informed. The banks had, as usual, an abundant supply of ready cash and paid all comers as fast as was practicable, and was at no time in the least alarmed as to the outcome. Quite a number of business people upon hearing of the trouble showed their confidence in the company by making big deposits and by offering to transfer their accounts in other banks if needed. It is also to the credit of Salisbury's other banking institutions that they also made offers of assistance. In fact, the Wachovia Loan and Trust Co., with its parent bank in Winston and branches at High Point, Asheville, Salisbury and Spencer, is one of the strongest, if not the strongest, institutions of its kind in the State, and though it did not need assistance, the home office sent an automobile from Winston with a barrel of money in order to be ready for any emergency that may arise. These banks are all in a very flourishing condition and have stood a test that will hereafter be a credit to them and their conservative, capable and courteous officials.

The origin of the rumor has not yet been settled although very careful inquiry has been made. Should it be found to have been the work of some maliciously inclined person an indictment will be brought, if the guilty party can be ascertained.
