CHIP TOBACCO is one of the best and largest plugs of fine-cured goods ever offered the consumer at 10c. It is manufactured by a strictly INDEPENDENT firm, a concern depending solely upon the good will and patronage of the people at large; a patronage only desired upon the strength of the superior quality of their tobacco. That it has earned this appreciation is amply proved by the tremendous and rapidly increasing demand for CHIP. In fact, wherever their tobacco comes into competition with other makes, whether with the people or before judges of the world's great exhibitions, they are invariably winners. Call for CHIP and save the tags as they are valuable.

A copy of our 1907 premium catalogue, which is one of the largest and most attractive ever gotten out by a tobacco manufacturer, will be mailed to any address in the United States on receipt of only 4c in postage stamps or 8 of the tags we are redeeming.
