L. W. Lingle sold a big load of five corn this week at 75 cents per bushel.

L. W. Lingle had a shucking last Monday evening. It was the biggest corn, I ever saw. Why boys it took two men to shuck one ear and after it was shucked it took two men to roll one ear across the pile of corn on a two-inch plank.

L. M. Safrit and family have moved to his father-in-law's.

Ille Blanche, the little daughter of Emanuel C. and Mary Shaver, died October 4th and was laid to rest in the new cemetery at Zion M. E. church October 5th. She was a sweet little curly-haired girl, loving and obedient—and was loved by all who knew her. She was too bright and precious for this world, so the God who gaveth, hath taken away.

BROWN EYES.

CHESTNUT HILL.

October 19.—A pounding was given Friday night, to J. A. J. Farrington and wife, by his many friends of Chestnut Hill. All enjoyed the occasion.

We have two blacksmiths in Rockwell now and both are doing a good business we are glad to report.

Aunt Jane made a little mistake when she said that all the girls were wearing Bryan buttons. Only two or three are wearing them and they keep them somewhat hid. But of course Billy can't help it if he is baldheaded. YOUNGSTER.

THE ROAD TO WEALTH.

It is the First Thousand Dollars That Counts.

"The thing that counts," said a man of independently large means, accumulated by hard work, saving and wise investments, "is the first thousand dollars. When you've got that amount together you are beginning to get somewhere, and with that start you will want to keep on. The red ink interest entries that you see put down in your savings bank book twice a year will strike you very pleasantly indeed. As interest on your thousand dollars you'll get \$35 or \$40 in a year. Your money has begun earning money for you.

"You've got an income now, and you'll want to add to it. You will leave that interest in the bank, to be added to your principal, and now your interest will begin to draw interest; and, to be sure, you will keep right on adding to your principal, too, and every six months you'll see those red figures growing bigger and bigger, pretty figures to contemplate, and you'll keep right along saving. But the thing that really counts is the first thousand dollars. Get that and you're all right, and you'll always be glad you saved it.

"For there really is nothing like financial independence or like having at least some money laid by. Then if you want money you've got to it. You don't have to go to friends to borrow and take the risk of being refused, the risk of being compelled to go without what you need. If you've got money in the bank you can go there and get it. There might come a time when you would need money for your family or for yourself very much. It's a grand thing to have it where you can get it.

"There's nothing mean about being saving and accumulating money. On the contrary, it is every man's duty to make himself financially independent. I don't mean at all that a man wants to set out to accumulate great wealth. There is no great fun in that. But what he does want to do is to get together enough to live on modestly."—New York Sun.

Forehanded.

Little Katherine had been boarding on a farm, and many of the rural expressions were wholly unfamiliar to her. One day she chanced to hear her country hostess praising the good qualities of a thrifty neighbor.

"He really ain't got much compared to some folks," said the farmer's wife, "but he makes out wonderful well. He's so forehanded." That evening the man thus lauded happened to drop in, and Katherine immediately sidled up to him, with curious eyes. Slowly she revolved about the chair in which he sat, and so persistently did she gaze at him that the farmer's wife finally noticed it.

"Well, Katherine," she said, "you seem to find a good deal to look at in Mr. B., don't you?" "Why," replied the child, her little forehead wrinkling in perplexity, "I did want to see his two upper hands, but I can't. Is he sittin' on 'em?"—New York Times.

He Got the Ad.

"You're not on that horrid paper, are you," cried the girl who speaks her mind, "though I did once meet a reporter from it who was rather nice? He came to see about getting an advertisement—What! Not a reporter? Why, I thought he was. Well, anyway, I had lost a dog, and he said he had heard of it and wanted to know if I didn't want to advertise in his paper for it. I told him I didn't believe I liked his old paper, and he said he didn't think much of it himself, but he thought it was pretty apt to reach the class of people who stole dogs. And so since he was so polite about it I thought I might as well advertise in it. But I didn't get the dog."—New York Globe.

How Printing Began.

Laurentius of Haarlem invented the art of printing about A. D. 1430 and practiced it with separate wooden types. Gutenberg afterward invented cut metal types, but the art was carried to perfection by Peter Schoeffer, who invented the mode of casting the types in matrices. Frederick Corseilis began to print at Oxford in 1468 with wooden types, but it was William Caxton who introduced into England the art of printing with fusile types, in 1474.

Needed More.

"Here is some complexion powder, auntie," said little Tommy Toddles. "I bought this little box for mamma and the great big box for you." "But why did you think I needed such a large box?" asked the visiting aunt in surprise. "Oh, because I heard papa say you were two faced."—Kansas City Independent.

Another R. F. D. Carrier Held Up.

On the morning of the 15th of October, 1908, 7 miles from Salisbury on the Wilkesboro road, two white men held up R. F. D. Carrier No. 5 and presented to him a nice box of the best of things to eat prepared by the good ladies of Gay's chapel church. May these good people be spared to have many more good times at their old mother church, and may this R. F. D. carrier pass along that way.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure relief from Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—in the mucus stage—they break up the cold at its source. That's why they are called Preventics. Preventics are little Candy Cold Cures. No quinine, no phos. nothing objectionable. Use for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child. If there is feverishness, in the day, begin with Preventics. They are the greatest efficiency. Sold in the boxes for the pocket, also in the boxes of 48 Preventics. HOW TO HANDLE MOBS.

An Illustration Afforded by the Recent Spartanburg Incident.

Colonel Brock, of the regular army, who was in command of the troops protecting the Spartanburg jail when it was threatened by a mob, has some clear-cut and eminently sound views on lynching and how to deal with the spirit. "My experience at Spartanburg," said he, as quoted by our Columbia correspondent, "demonstrates strikingly that all that is needed in this part of the country to check mob violence is a firm, determined stand by the authorities. With a sheriff of grit and manhood like Sheriff Nichols to hold the fort till the militia can be brought into play." And again: "This speech-making to mobs gives me a tired feeling, and I think it should not be indulged in, at least so far as making the mob promises and concessions. The mob needs to learn, possibly by bitter experience, that it is outside of law, is violator of the law and will be given no consideration. An effort was made to have Sheriff Nichols make a speech to the mob. He declined, as did Governor Ansel. I also declined."

That is the doctrine. What is needed on occasions of this kind is not talking but shooting. There is no sense in Lynch-law when the criminal is a negro and a white woman the victim of his lust. If he can be identified there is no difficulty about hanging him by process of law; if he cannot be identified he ought not to be hanged. In some cases it is necessary to teach this lesson to those who would constitute themselves judge, jury and executioner, by powder and ball, but wherever necessary this effective method of instruction should be unhesitatingly employed.

They Take the Kinks Out.

"I have used Dr. King's New Life Pills for many years, with increasing satisfaction. They take the kinks out of stomach, liver and bowels, without fuss or fussing," says N. H. Brown, of Pittsfield, Vt. Guaranteed satisfactory at all Druggists. 25c.
