#### A Diplomatic Sign.

As soon as the apartment house was ready for occupancy the janitor placed a "Rented" sign in several of the second and third story windows. When the agent saw the placards he said a good many things not exactly complimentary to the discretion of the janitor.

"What did you stick all those notices up for ?" he asked.

"Because the apartments are really rented," was the reply. "I thought it a good plan to let folks know they were going off so quickly." .

"That is all right in principle," said the agent, somewhat mollified, "but you didn't go about it in the right way. That is not the proper kind of a notice. Never use the word 'Rented' in a high class apartment house. Always say 'Leased.' It makes a better impression. 'Rented' sounds cheap. Any agent who wants his apartments to bring a big price will tell you that."-Philadelphia North American.
