Homemade Presents For the Dainty Woman—Shoe Case For Traveling—Night-dress Case—Holder For Baby Ribbon.

For women who travel as well as those who stay at home there are many novelties in workbags and sewing cases being shown in the shops which are not only attractive, but essentially practical. While the cost of

MATERIALS REQUIRED.

- Two yards of pretty cretonne.
- One yard and half of elastic.
- One piece of tape.
- Four brass eyelets.

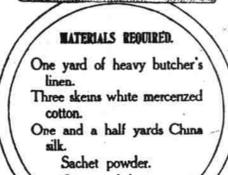

SHOE CASE FOR TRAVELING.

These is not exorbitant, any one of them may be made at home from odd pieces of ribbon, chintz, silk or linen, which, with the addition of a bit of hand embroidery, make pretty gifts.

The shoe bag or case is a useful article which also may be constructed at home at a trifling expense from almost any material one chooses, provided it is heavy enough to keep its shape. Either linen or cretonne is particularly effective, the four pockets accommodating two pairs of shoes or slippers. These pockets are bound and fastened to the case with ribbons or tape matching or harmonizing with the material of the case, in the top of which are set four brass eyelets. In this way the necessity of tacking in place is avoided, the eyelets being slipped over brass hooks screwed in door or wall.

A convenient pocket pouch and pin case are bowed with ribbon and set above the shoe pockets. When traveling the case is simply rolled and tied with a matching ribbon tacked at one end on the outer side.

A pretty case for the robe de nuit embroidered with a heavy mercerized thread on a heavy linen identifies the long envelope case with its embroidered buttoned flap as that in which the particular girl carries her dainty night robe. This is made of heavy white butcher's linen in envelope pattern, embroidered in white cotton thread, and may be lined, if one elects.

MATERIALS REQUIRED.

- One yard of heavy butcher's linen.
- Three skeins white mercerized cotton.
- One and a half yards China silk.
- Sachet powder.
- One pearl button.

NIGHTDRESS CASE.

with a dainty pink and blue china silk, beneath which is laid a single sheet of sachet scented wadding.

Every girl who uses baby ribbon would be delighted with a case filled with three or four different shades as a Christmas gift. Here are two attractive ways to prepare such a gift: For the first take a long, shallow pasteboard box just wide enough to hold a ten yard roll of baby ribbon and long enough for as many bolts as you may wish to give. Cover this box neatly inside and out with wall paper or a pretty fancy silk, first having made as many small slits on the top as there are bolts of ribbon.

Paste the covering on the box, and if it is found difficult to turn in the edges neatly around the slits do not attempt it, but cover the roughness with a narrow edge of gift paper for binding.

Put the ribbon in the box, first having removed the paper and rewrapped the ribbon and put one end through each slit so it is about an inch on the outside of the lid. If these ends are fastened through bodkins, for which narrow strips have been provided on the top of lid to hold them in place, it will add much to the convenience of the gift.

Workbag For Christmas.

A capacious workbag is made of silk a yard and a quarter long. Across each end featherbone is sewed; then the selvage on either side is gathered up as close as possible and secured so that the two pieces meet.

Ribbons tie the opening together in the middle, and the bag is carried by handles of ribbons that start from big bows on either side where the silk is drawn up.

A Dangerous Operation

is the removal of the appendix by a surgeon. No one who takes Dr. King's New Life Pills is ever subjected to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, biliousness and malaria. 25c at all drug stores.

ATTRACTIVE TRIFLES.

Artistic Gifts That Take Little Time to Make.

The mission photograph frame is carried out in heavy green linen crash. The colors used in embroidering the conventional design are the dark shades of green and the bronze browns.

Fretty opera bags are always a welcome gift, and half a yard of handsome ribbon will make up into a most desirable receptacle for glasses.

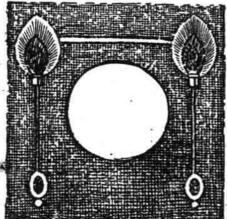

Candle shades covered with pale pink baby ribbon in little crinkly loops are attractive and as presents would please most housewives.

Perfumed coat and skirt hangers are popular, and so are the ribbon cases that contain the glass tube hatpin holder.

Really beautiful utility cases that can be hung upon a wall or rolled for traveling are made from ribbon. To make such an article get half a yard of ribbon that is six inches in width. Turn down an inch wide hem at the top and along the bottom gather and sew on a thin piece of silk the same size. This is then divided into pockets and the upper edge shirred. Runners the length of the case, dividing it into sections, should then be put on the inside.

Through these articles of the toilet such as a shoe horn, button hook, manicure implements, etc., and a sewing outfit with pockets for needles, spoons of thread and silk, scissors and all such necessities are put. A little pin-cushion is set firmly at one end. The pockets receive bolts of baby ribbon, buttons and all the trifles that go to furnish a workbasket.

Cardboard boxes neatly covered with ribbon and furnished with three spools of baby ribbon in dainty colorings are a gift within the skill of the amateur seamstress. A loop should be added

MATERIALS REQUIRED.

- One small linen doily.
- Fine embroidery silk.
- Sheet of cotton wadding.
- Ten cents' worth of sachet powder.
- Three yards of baby ribbon.

MISSION PHOTOGRAPH FRAME.

Inside the cover to hold a couple of bodkins and a pair of tiny scissors.

A ribbon covered glove case is equally simple of construction. It should be interlined with perfumed cotton and fitted with a soft silk lining. A pretty finish is to turn back one corner, holding down with a bow of ribbon.

Another acceptable present that can be made by the artistic girl is a set of name cards, hand painted. These are sure to give pleasure if given to a woman who entertains largely.

Those in the form of floral wreaths cut out so they slip on over the edge of the tumbler are new; also dainty figures of women copied from some old painting and provided with pasteboard backs so they stand. These figures can carry big muffs as reticules that can be lifted and show a blank space for the name underneath, thus making them available later for framing when pasted to a flat surface and surrounded by a gilt mat.

College flags are quite simple to make for Christmas gifts, but require care and much precision in putting the letters on as well as in cutting them.

A good plan is to cut the letters from stiff cardboard and trace around them on the felt, afterward cutting with a sharp knife.

In mounting on the felt background paste them on with a very thin coating of photograph paste and couch around all edges with many strands of silk caught down at regular intervals with a single strand of the same color.

Couching means to hold the heavy cord or many strands of silk along the edge of the thing to be outlined and stitching across it and through the material with the single thread in the needle.

Handkerchief Case. A handkerchief case is a pretty gift that can be made from ribbon by first cutting two pieces of cardboard into heart shapes. These hearts are covered on both sides and form the bottom and the cover, respectively.

The broad flowered ribbon used is gathered on both edges, one of which is sewed to the heart at the bottom. Then a lining of plain soft silk is set in, and the edge of the ribbon is connected to the upper edge of the lining. A ruffling of narrow ribbon trims the cover and a bow acts as a hinge. A loop answers the purpose of a lid lifter.

Gifts For Fifty Cents.

For the young man of the family sleeve buttons, silver pencil, coat hanger, sofa cushion cover, penknife, cigar cutter, leather collar box, sachel tag, linen table cover or a photograph frame for his room.

For little girl, dolls, games, workbox, skates, string of beads or a music roll.

For small boy, baseball, games, studs, face mask, penknife, stamp book, skates, books or a box of buttons.

For smaller boy, train cars, locomotive, skates, transparent slate.

How to Make Christmas Presents For Both Sexes—Hatpin Cushion—Needlebook—Suit Case Set For a Man.

The hatpin cushion shown is made of pompadour ribbon and val lace. It is tied in the center with baby ribbon. The needlebook is also a dainty little trinket, easily made, and appreciated either by men or women.

The design shown is a conventional primrose pattern worked in ribbons.

For the man who travels nothing will be more appreciated than what is call-

ed a suit case set. So many people use the suit case, but have never been able to overcome the difficulty of keeping the shoes and brushes from rubbing up against their clean linen. There are three different articles in this set, all of which are made of coarse linen. The receptacle for shirts is in the shape of a large envelope, the edges bound with braid, and should be large enough to contain two shirts.

The bag for collars is made from the same material. The bottom is circular and made from pasteboard. A good idea is to sew to this a strip of pasteboard about two inches deep. These should be covered with the linen before being fastened together. The upper part of bag should be full and gathered with a drawing string. This protects the collars from crushing as well as keeps them clean.

The third article in the set is a plain linen bag lined with oiled silk. This is intended for sponges and protects the contents of the suit case from the moisture of this toilet necessity after it has been used. The hairbrush can be put in this bag if no sponge is used. The monogram can be embroidered on the outside.

To make a slumber robe for baby take two and a half yards of plain silkoline, three bolts of No. 1 ribbon, one skein of Shetland floss and one bolt of fine cotton.

Divide the silkline into two equal parts, place in a frame and put in

MATERIALS REQUIRED.

- Quarter yard of brocade silk.
- Fine embroidery silk.
- Two yards of half inch ribbon.

NEEDLEBOOK.

layers of cotton between, ready for tying.

Tie the ribbons all in tiny bows. Thread the needle with the Shetland floss, using it double. Bring the needle up from the bottom, then down again, taking a stitch through one of the bows. Tie the yarn on the wrong side, with three or four extra needles tied in the knot to make a small tuft.

Continue the knotting in this manner, beginning with two and a half inches from the edges, making the tufts four inches apart. Turn in the edges all around and buttonhole closely with the yarn used singly.

Crochet a row of shells around the quilt, each shell of five double crochet fastened with a single crochet and placed close enough together to make the work lie flat and filled at the corners.

On the right side, just inside the buttonholing, make a row of feather-stitching with the yarn.

This makes a light, dainty cover for the baby. It is very pretty of blue silkoline tied with white ribbons or of white silkoline tied with pink and blue.

Safety Pin Holder.

As a gift to young mothers to accompany the baby basket safety pin holders make useful presents.

PAPER CHRISTMAS GIFTS.

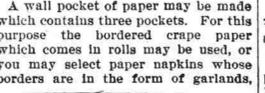

How to Make Attractive Desk Blotters and Wall Pockets.

Make your Christmas presents of paper. One of the most attractive of these paper articles is a desk blotter. The usual size for a woman is eighteen inches deep by fifteen wide. The materials necessary are one piece of cardboard of the dimensions mentioned and a second piece half an inch less in each dimension. The pad is covered with flowered paper on the lower side and has flowered paper corners. Plain crape paper is used to cover the top of the pad.

The largest of the cardboard rectangles is first covered with the flowered paper. The paper is folded over the edge to a considerable depth, at least an inch and a half being desirable. Its edges are then pasted neatly down, care being taken to make neat corners.

The smaller cardboard rectangle is covered with the plain crape paper, which, for instance, may be yellow if a yellow flowered paper is being used. Four right angled triangles which are three inches on the two even sides are then cut from stiff and very heavy wrapping paper and covered on one side with plain and on the other with flowered paper. These are the four corners. When they are covered a margin of paper is left on the equal sides, and this is re-enforced by a narrow strip of muslin. This margin is turned over and pasted to the upper side of the cardboard, which is to form the bottom of the pad. The upper part of the pad is then laid on the lower part, and they are pasted neatly together. The corners, of course, go underneath the pad corners. The pad corners are not pasted down along their long side, as it is desirable to have them free so that new blotters may be slipped in and out at will.

A wall pocket of paper may be made which contains three pockets. For this purpose the bordered crape paper which comes in rolls may be used, or you may select paper napkins whose borders are in the form of garlands,

MATERIALS REQUIRED.

- One piece of cardboard eighteen inches wide by fifteen deep and a second piece half inch less in dimension.
- One roll of plain crape paper.
- One large blotter.

which will not make the pocket too long. The pocket must, of course, be just as long as the motif of the design.

The materials needed are three pieces of cardboard about nine inches long. The length, however, depends upon the design of the paper which is to be used. The cardboard is cut to the length of the design. The three cardboard are of graduated depths. They are straight on three sides, and on the top they are cut in the shape of the design of the paper. Sometimes the top line is straight and rounding, and again it will have large scallops. A design should not be chosen which has too small a pattern.

All of the cardboards are covered on the outside with the bordered paper and inside with plain crape paper. Perforations are made at equal distances in the three pieces along the bottom and sides. The perforations along the bottom are close enough together to permit of the sections of the pocket being laced together. Only three holes are necessary along the sides. Ribbon the color of the flower in the border is used to lace the sections together and fastened at the ends

with two tiny bows. Along the sides bands of ribbon are used to hold the sections together. The lowest band is very short, the next one longer and the top one longest of all. The edges of the pocket may be touched with gold paint, which adds to the attractiveness of the design.

FOR COUGHS, COLDS, THE BRONCHITIS AND ALL THROAT AND LUNG TROUBLES.
GUARANTEED SATISFACTORY OR MONEY REFUNDED.

A Suggestion for the Legislature.

"I really believe the Legislature ought to pass a law making it a breach of the peace to kill a man," said a Charlotte resident yesterday. "In aggravated cases imprisonment for a few weeks would not, in my opinion, be excessive; it may be wrong, but I cannot see that the throwing of dice or retailing of liquor is so very much worse than the taking of the life of one's fellowman. It is quite possible that I am a few decades, in fact perhaps a few centuries, ahead of public sentiment on the question, but I believe that some day it will come to pass."

Marked For Death.

"Three years ago I was marked for death. A grave yard cough was tearing my lungs to pieces. Doctors failed to help me, and hope had fled, when my husband got Dr. King's New Discovery," says Mrs. A. C. Williams, of Bac, Ky. "The first dose helped me and improvement kept on until I had gained 58 pounds in weight and my health was fully restored." The Christian Mother.

Perhaps our finest human exhibition of true spiritual leadership and service is that of the Christian mother, and we all may learn of her. She is a queen among her children, and rules them with the sovereignty of love. No one escapes her dominion, and he would count it as torment if he could escape. She teaches them by her own sweet example to wait upon her, and upon each other and upon all around them, with a service that is not felt to be service, and that is contagious. It may be easy to give money if we have it; it may be easy to grant favors and do deeds of courtesy and mercy; but to make the atmosphere and attitude and habit of our inmost living the spirit of Christ-like service, as Christ meant it and exemplified it—that must be the very crown and consummation of character.—The Examiner.

An 18-oz. bottle contains all the minerals in a barrel of the average water. We furnish the minerals, you furnish the water.

We have certificates both from the public and from eminent physicians, telling of its virtue in **Dyspepsia, Rheumatism, a large variety of Female Disorders, Chronic Diarrhoea and Dysentery, General Debility, Anaemia, Malaria, Ulceration of the Throat, Diabetes, Piles, Chronic Eczema, Nervousness, Chronic Constipation, and many showing the wonderful cures in that dreadful disease, Scrofula.**

Dr. T. L. KABLER, for fifteen years a resident at the Springs, says: "For Scrofula, that fearful destroyer of human health and happiness, we have in this water a remedy which neither science nor fortune accident has hitherto found an equal. It is in this remedy, and some forms of secondary and tertiary Syphilis, that this water when carried to its full alternative effect, displays its highest curative powers. In all forms of diseases peculiar to females, this water will be found to exert a curative influence second to none in Virginia."

I have given your Concentrated Water a fair trial, and say with pleasure I have been greatly benefited. For some years I have suffered more or less with Indigestion, followed by Constipation and other attendant ills. Within the past two months I have found such relief from your remedy that I have improved in strength and weight; have eaten what I have not dared to do for a long time, and have done harder work than I have been able to do before for years.

Rev. OSCAR LITTLETON,
Presiding Elder, Lynchburg, Va.

Since 1894 I have been afflicted with Chronic Diarrhoea. About six months ago I commenced using your Concentrated Iron and Alum Water with the most wonderful and satisfactory results. For three or four years past I have been deprived of the privilege of visiting friends or going to church, as my trouble kept me in constant apprehension having lost almost entirely the control of my bowels; but now I am happy to state that after using about a half dozen bottles of your remedy I am entirely cured, not having used any for the last four months. I am confidently and most gladly recommend your remedy for Chronic Diarrhoea.

CAPT. RUFUS AMIS, Virginia, Va.

I was an intense sufferer for some months with Indigestion, and could get no relief from the ordinary remedies. During the month of January I began the use of your Concentrated Water, and one bottle has entirely relieved me. I can now digest any diet and am entirely free from suffering. I take great pleasure in giving this testimonial.

Rev. H. M. BLAIR,
Editor N. C. Christian Advocate,
Greensboro, N. C.

I have used and prescribed waters from several Iron and Alum Springs, but none of them begin to come up to your Concentrated Water in all that goes to make the ideal alternative, strengthener, appetizer and restorative. It is at once a fine tonic and flesh-builder. Have advised several recently to try it, and always with fine and quick results. In January I had a bottle sent from one of your dealers to a lady, with the understanding that if it did not at once improve her digestive apparatus, I would pay the \$1.00 myself. She not only willingly paid the bill, but used a part of one-half dozen more bottles, and is now completely cured of a long and annoying Stomach Trouble. This seems to be the case with all who try it.
