Cough Caution

Never, positively never poison your lungs. If you sough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a superfying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if peisons are in your Cough Mixture." Good! Very good! Il Hereafter for this very reason mothers, and ethers, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by have be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

will greatly "increase your yield per acre" of corn or any other crop. In some cases remarkable results have been obtained. Mr. C. W. Caruthers of Sumpter County, Fla., writes: "Words cannot express the value of your fertilizer. It is really so far ahead of other companies' goods, that it would not pay anyone to use other brands, were they given free and put in the field. I can prove what I say to be a fact. I made a test on five acres. I used on one half the land your fertilizer and on the other half another company's fertilizer, same grade; the land received the same cultivation every time. I kept a correct account of the amount of money I got off each half and I got \$300 more from the land on which I used Virginia Carolina Fertilizer than I did off the other half. I got four times as much corn from the land on which I used your fertilizer." Write today to nearest office of the Virginia-Carolina Chemical
