BROWN-TAIL MOTH.

A Serious Insect Pest Recently Found in North Carolina.

The Brown-tail Moth has been found in North Carolina. This is a serious insect pest which has done much damage in Massachusetts and other New England states, where large amounts of money have been expended in combatting it. It was originally a native of Europe, and this winter it has been found in many states on young nursery stock imported from France.

The North Carolina State Department of Agriculture took immediate steps to have all French stock coming into the state inspected, and while only a part of the stock ordered has yet arrived, one nest of the insect containing many live young caterpillars, has been found, and probably others will be found as the inspections are continued.

It is hoped that the trouble is being detected and checked in the beginning, but the fact that it has been found in as many states recently indicates that it is likely establishing itself in various parts of the country, and our people are warned to be on the watch for it.

Any web-nest the size of a man's hand or smaller, attached to a limb or twigs of trees should be sent to the department for examination. During the summer close watch should be kept for any kind of caterpillar which is defoliating fruit, shade or forest trees, and should be sent for examination. It is more likely to become a pest in western and piedmont North Carolina, than in the east.

Specimens should be mailed in tight, strong, pastboard, wooden or tin boxes, with enough leaves for food for several days, all packages should be wrapped and tied neatly and should bear the name and address of the sender. Mail them, together with explanatory letter, to Franklin Sherman, entomologist, Department of Agriculture, Raleigh, N. C., and all inquiries will be answered by him or his associates.

GRAHAM X ROADS.

March 6.—Chills are plentiful in this community at this time.

Will Briggs will, in the near future, erect a new dwelling on his place near Graham X Roads. Any young lady wishing a good home will do well to keep her eyes open.

Some of the Salem members went to the parsonage last Thursday with wagons and teams and cut logs and hauled them to the mill and put a new wire fence around the parsonage garden.

The Salem school will close its term on the 16th of March. All the children can do then is to sit on the fence and whistle.

A heavy thunder and hailstorm passed over this community last Wednesday, but no damage was done.

Thomas Link is getting out lumber for a storehouse which he will build in the near future. He will run a wholesale and retail house for the benefit of all this community.

Otho Caable is still very low. No earthly help can bring about his recovery.

A young wife whispered in her husband's ear: "John, do you love me still?" "Of course I do, the stiller you are the better."

JACK

Apples in Boxes.

This subject would be threadbare with all the discussion it has had of late were it not for the urgency of the facts. The apple barrel is by no means a satisfactory package, especially to the shipper of good apples, and in spite of obstacles the apple box is making progress. A larger proportion of last year's apple crop was sold in boxes than ever before. These facts are most painful to the attention of eastern apple growers when all through the winter months Oregon apples in boxes sold at good prices in all western cities, while New York and New England fruit was a drug in the market. It was a situation which could leave no doubt in the eastern apple grower's mind that something has to be done. Naturally the eastern grower, who sees his market thus cut out from under him, thinks first of boxing his own apples. He considers also the fancy packing, trademarking and other selling devices at which the western men are so clever. All these schemes he must adopt, imitate or improve. But there is one thing more, and a very important one, which must be taken into the account. The eastern grower must grow better fruit.

Eastern apples are conceded to be of better quality than Pacific coast stock, but the eastern grower has relied quite too much on this single fact. The western apples are allowed to have the best color and finish, but again the eastern grower has taken this estimate too much for granted. The high quality of New York and New England apples must be preserved, augmented and then advertised. The fruit must be carefully hand thinned on the trees in order to get a uniform grade for box packing. The color and appearance must be improved by better care. Western methods of co-operative packing, shipping and selling must be adopted. These are large reforms here pointed out, and the eastern farmer is a hard subject for reform, but these improvements have all got to be made. Otherwise the Oregon apple grower will appropriate the entire eastern market, and the eastern apple growers will go into the milk business.

JUDGE TAFT IS NOW PRESIDENT.

Inaugurated Thursday Noon under Terrible Weather Conditions.

Washington, March 4.—This city is in the grip of a semi-blizzard to-day. During the night a rain changed to sleet and snow, and when the tens of thousands of people looked from their windows this morning, snow and sleet covered the streets two inches deep. Sleet and snow prevailed everywhere. Trees were bowed under the weight of frozen sleet, while a cold penetrating wind added to the general desolation of the scene.

At 8 o'clock only a few pedestrians could be seen on the streets where tens of thousands would have been if the weather had been fine. Car traffic is badly crippled, and there was not a telegraph or telephone wire working out of Washington until nearly noon. The poles of both services are down by the dozen. Telegraph men say the demoralization of the two services is the worse in years.

Fairbanks administered the oath to Sherman in the Senate Chamber. Mr. Taft also, because of the weather, took the oath in the Senate Chamber, immediately following Sherman, Chief Justice Fuller administered the oath and the inaugural address followed.

Have you a pain of any kind, anywhere? stop just a minute and think! It matters not whether it be womanly pains, head pains, or any kind of a pain, one of Dr. Shoop's little Pink Pain Tablets will surely stop it in 20 minutes. Formula plainly printed on the 25c. box. Sold by Cornelison & Cook.

FAITH.

March 8.—A young couple drove out from Salisbury Tuesday and called on Rev. C. P. Fisher, at the Lutheran message and was united in the sacrament of matrimony. We understand that Frank Morris and Mrs. M. E. Bearhardt. We hope they will give to Faith and love a happy life.

Murry Peeler moved on his plantation Thursday, March 4th. He sold his house and lot in Faith to Rev. J. M. L. Lyerly.

We understand that Rev. C. B. Heller has bought Roland Kirk's little farm near here.

L. M. Peeler, M. G. M. Fisher and Charles Peeler went to Washington city to take in the inauguration. They have just returned home and are telling about their pleasant trip.

The farmers had started their plowing while the weather was fine before this rain set in.

A trolley line from Faith to Salisbury would make a lot of money hauling granite and passengers, the owners would get all they could do and the line would pay well.

They empty houses are all being filled. Times are getting better.

F. M. Thompson has returned from a visit to Jacksonville.

The Watchman and Record Voting Contest.

The Candidates are Getting Busy all Along the Line and Interest is Increasing.

The Boys are now at Work and While all do not Expect to Win, None are Willing to Sit Idle.

THE WATCHMAN and ROWAN RECORD's determination to give away one of the best buggies that can be built in these parts, and a splendid, high-grade sewing machine, is beginning to attract attention throughout the county, and those who see by a little extra effort during leisure hours, is likely to bring to them said buggy or sewing machine, are now beginning to make telling use of their time. Of course there is plenty of time to work, but it is not good policy to wait so long before getting busy in earnest, nor should any one be discouraged because he is not near the top. Just keep hammering away and the final result will show for itself. To those who have friends in the contest, the opportunity to do them a kindness that will be remembered, is manifest. Take an interest in his fight, encourage him by voting for him, or better yet, pay something on your own subscription. All of the contestants are worthy people and will appreciate any little help that you may extend.

We would advise all candidates to make their greatest efforts towards securing double subscriptions, two years to either THE WATCHMAN or THE RECORD, or one year to both papers. These papers will to all intents and purposes answer the readers requirements of a semi-weekly, and those wanting all the news should take them both.

The standing of the candidates to-day at 12 o'clock is as shown in the list below. No one should become alarmed because he does not stand at the head of the list just now. There is just as much chance for the last as for the first. The one who stands head at the end of the contest will be the winner. The race is not always to the swift, nor to the strong, but to him that persevereth to the end.
