A NOTORIOUS BLOCKADER CAPTURED.

Sheriff McKenzie and Deputy Krider Have an Interesting Time Sunday Evening.

Some parties down in Providence township who believe in the observance of law, recently notified the sheriff that a noted blockader, of Montgomery county, was making headquarters in Morgan township. This, therefore, was cause sufficient for our Sheriff and Deputy Krider to plan a capture at once. So, Sunday evening, they drove down to the neighborhood, called on M. E. Hall, an old-time and latter-day blockader. This Knight of the Moonshine Still, suddenly became interested in traveling. So, with little notice or preparation, he began a tour through a near-by swamp and meadow, and made splendid headway, while the officers of the law connived to make the trip just as

interesting as possible. Just imagine the scene: blockader acting as pathfinder, the sheriff and deputy making four corn rows at a jump, and the distance between the two parties rapidly growing less until

the officers nab their man, bring him to Salisbury, and lock him in jail to await the next term of the Superior court. Hall is wanted in Montgomery county for blockading. Solicitor Hammer was communicated with and he instructed the sheriff to require a justified bond of \$500, which Hall has so far failed to give. The Montgomery officials will call for him in a few days.

The capture speaks well for our sheriff and it is a source of gratification to the good people throughout the county to know that we have a man in office who is doing all in his power to enforce law and capture criminals. With the aid of the citizens he will be the greater able to perform the duties of his office, and without this assistance he will accomplish little.

Croup postively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by Cornelson & Cook.

The Best Fertilizers for Corn

That the yield of corn from the average farm can be greatly increased by intelligent liberal fertilization has been repeatedly demonstrated. Large crops of good corn result from preparing the land well, using the right kind and quantity of fertilizer, good seed and proper cultivation.

Virginia-Carolina Fertilizers

will greatly "increase your yield per acre" of corn or any other crop. In some cases remarkable results have been obtained.

Mr. C. W. Caruthers of Sumpter County, Fla., writes: "Words cannot express the value of your fertilizer. It is really so far ahead of other companies' goods, that it would not pay anyone to use other brands, were they given free and put in the field. I can prove what I say to be a fact. I made a test on five acres. I used on one half the land your fertilizer and on the other half another company's fertilizer, same grade; the land received the same cultivation every time. I kept a correct account of the amount of money I got off each half and I got \$300 more from the land on which I used Virginia-Carolina Fertilizer than I did off the other half. I got four times as much corn from the land on which I used your fertilizer."

Write today to nearest office of the Virginia-Carolina Chemical Company for a free copy of the new 1909 Farmers' Year-Book or Almanac, full of the most valuable and unprejudiced information for planters and farmers; or ask your fertilizer dealer for a copy.

The Cole Universal Planters FOR SALE IN SALISBURY AT Kesler Sons Hardware Co.

TESTIMONIAL:

NEWBERRY, S. C., April 25th, 1905.

The Cole Mfg. Co., GENTLEMEN: The Universal Planter No. 7 that I bought of you March, 1904, is the best farming implement a cotton or corn farmer can possess.

If I could not get another one I would not take \$150.00 for my machine today. I had the best stand of cotton and corn around here and it came up evenly. I have two other planters, but do not use them now.

Yours respectfully, EDWARD SCHLOTZ

We keep these planters in stock and would be glad to show them to any one desiring the best planter on the market.

The Curse of the South.

What is the matter with the South? According to government report of 1908 "The Secret is out at last—the Southerner, contrary to current opinion is not lazy, shiftless, indifferent or careless. "He is sick" the South is afflicted with and harbors that most dreaded treacherous and destructive of all diseases Anemia, Pernicious Anemia. The average Southerner is a sufferer of this health destroying parasite which destroys the red blood cells producing an impoverished condition of the blood; characterized by extreme pallor, general debility, weakness, loss of vigor, lack of ambition, and general undermining of vitality. The climate and atmospheric conditions destroy the vitality. Let him get over it. Get rid of it. Get well, and he is good physically as the best American can boast. If there is health of the slightest degree in your system, "WAKE IT UP! CALL IT FORTH. PULL YOURSELF TOGETHER! MAN, WOMAN OR CHILD; all can and should be well. To neglect yourself is to reflect upon the wisdom of your Maker. Nature intends all humanity to enjoy a full measure of health and vigor. If you do not the fault is your own, for you are yourself to blame for it. Wonders have been accomplished for the people of Tennessee, Alabama, Georgia and Mississippi, let us now do as much for the people of the Carolinas. A postal will bring you the necessary information. Send no money. Write to-day. Don't neglect this chance here offered you. Address, The Cleveland Institute of Medicine and Surgery, CLEVELAND, OHIO. CORNER KINSMAN RD. AND 72D. STREET.
