The camp boys wish to thank them for their kindness and consideration and hereby extend a cordial invitation for their visit to be repeated in the near future. Remember the string to the latch of our tent door ever hangs on the outside. MIKE.

PINEY WOODS.

April 26.—Farmers are busy planting corn, etc., but few people are done yet. A good rain would help considerably now. Wheat and oats are looking promising. The early oats are needing rain bad.

The writer had a smash up last Saturday evening, while canvassing for THE CAROLINA WATCHMAN near Gold Hill. A team belonging to Geo. Beaver, got scared at a plank sliding from the wagon which hit the team. They ran over the writer's buggy and horse, which was standing by the roadside. I had just stepped a short distance trying to get a gentleman to take my paper when suddenly I heard the crash. The team was running at full speed, a small boy being the driver. It completely demolished the buggy. None of the horses being hurt, but were all knocked down. The writer picked up the remaining part of the buggy, sent it to the shop, mounted his horse and proceeded on his journey. I think the editor of THE WATCHMAN ought to present me the buggy, as I lost one for sake of THE WATCHMAN. Any way it was in a good cause. Next Saturday evening, at 6 o'clock, we will tell you who is the winner. SOUTHERNER.

WE ALL FALL DOWN.

Only a Question of Sooner or Later for us to Get Our Dose.

One day last week a salesman—he was a traveling salesman, very much a traveling salesman for he is still traveling—struck the town, hired a good team and a driver at a livery stable and started out to sell things. He sold. The southeastern part of the county was his territory. The salesman had a great big catalogue, a regular "Roars and Seabuck" marked-down catalogue, and the oily-tongued fellow told the people where he went that he would give them about half off the catalogue price. For instance, offered a two-horse Studebaker wagon for \$28. The fellow's scheme was to get half down, the balance when goods were delivered. He played 'em like a flute, got his half all right—and he's traveling, traveling on. The goods have not come and a well-known citizen of Lanes Creek township was here last Tuesday using the wires to know "how come?" Trade was good with the sharper the day he spent in Union county. Buggies and wagons were his specials. We might moralize a little just here, but we will not, for next week along may come a guy selling insurance stock or some other easy-looking thing and hand us ours good and hard. A dandy agent might not sell you a half-priced wagon out of a red-backed catalogue "half down and half when in it comes," but, beloved, you will get yours sooner or later, sure as gun's iron. None of us are so bloomin' smart that we cannot be taken in sometimes. So what's the use of one of us lecturing the other? We are all, without exception, an easy mark if the right fellow comes along. At some time in life we all play the fool and err exceedingly—in a business way as well as in others.—Monroe Enquirer.

WILL LIVE TO BE 500

Another New Cult—and from Boston, of Course

If you want to live to be as old as Methuselah visit the Rev. John Fair. Up in the private office of his suite in Hunting Chambers the apostle of the New Life said, handing a book to an interviewer:

"This is one of several of our publications. We are circulating our books in all parts of the country. The book you now hold in your hand I wrote fifty years ago." He did not appear to be over 30. "I hope to live to be 500. It all depends upon the life man leads. Man lived to be 900 years until sin cut him down. The New Life overcomes death, hell and the grave.

"Our head church here in Boston will be the mother church of the world. I am planning to organize 70 churches in the principal cities of the United States and eventually we will have a church in every city, village and hamlet in the country. Our gospel is two-fold, the salvation of the body and the salvation of the soul. If you want to reach and purify the soul you must first purify the body.

"I will look as young as I do now when I am 200 years old, and there is no reason why I should not look as young at 500."—Boston dispatch.

Geo. W. Wright, one of the most reliable and enterprising undertakers in the state, has purchased a very handsome hearse.

Down on Nepotism.

Senator McCumber, of North Dakota, to-day, in criticizing the conference report on the census bill, made the charge that the census office has in its employ in one bureau the wife of a secretary of a Representative in Congress, the wives of two officials of the War Department and the wife of a prominent official in the Treasury Department.

"Promotion," he said, "seems to be almost wholly for women who have husbands in the departments. This is getting to be a city of official families holding positions under the government.

The fact, he said, is that whole families holding positions under the government departments credited to the states which the younger members of the families have never seen.

"Ninety per cent.," said Mr. McCumber, "of officials in the departments in the city of Washington are residents of this city and the other 10 per cent. may be said to be residents of the other portions of the country. If we were to apply the rules of apportionment to the civil service the city of Washington would have two per cent, and the remaining officials would be from the States."

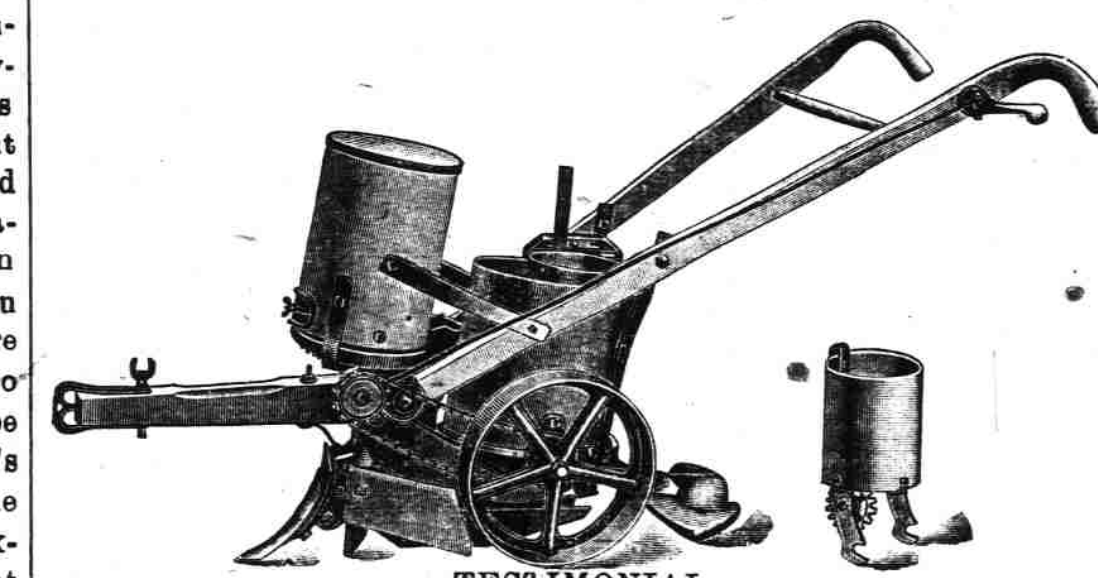

Further criticism of the report was made by other Senators, the conference was rejected and a further conference ordered.—Washington dispatch.

A. W. Winecoff has bought the stock of groceries and business which has been conducted by his brother, L. R. Winecoff, and will continue the same at the present stand.

Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J. C. The Cole Universal Planters FOR SALE IN SALISBURY AT Kesler Sons Hardware Co.

TESTIMONIAL:

NEWBERRY, S. C., April 25th, 1905.

The Cole Mfg. Co., GENTLEMEN: The Universal Planter No. 7 that I bought of you March, 1904, is the best farming implement a cotton or corn farmer can possess.

If I could not get another one I would not take \$150.00 for my machine today. I had the best stand of cotton and corn around here and it came up evenly. I have two other planters, but do not use them now. Yours respectfully, EDWARD SCHLOTZ.

We keep these planters in stock and would be glad to show them to any one desiring the best planter on the market. Kesler Sons Hardware Co., SALISBURY, N. C.
