

## TURNED THE TABLES.

Negro who had been Roughly Used by Men. Comes Back With Gun.

Thomasville, June 7.—Saturday afternoon about four miles of this place J. C. Everhart, white, and Albert Moore, colored, got into a dispute about a trade made between them some time previous. Words followed and Moore threw a rock and hit Everhart. Everhart caught Moore and gave him a good choking, telling him to go away, which he did. Moore came to town and bought a box of loaded shells and went back home, got his gun, loaded it and went back to see Everhart, who was at work in a field with his brother, Hubbard Everhart. Moore spoke a few words to J. C. Everhart and then told him he was going to shoot him. He cocked and aimed his gun and Everhart turned and ran for the woods. Just as he reached the woods Moore fired, but missed, then fired again and one shot hit Everhart in the neck. Moore then turned on Hubbard Everhart and told him he would give him two minutes to get on his horse and get away. However, Everhart didn't need but about ten seconds—he skidded to the woods in a hurry. After this Moore took to the woods and this writing has not been caught.

No one can account for the strange actions of Moore, for he has always been considered a harmless, peaceable old negro. He recently suffered a stroke of paralysis and is badly crippled on one side. J. C. Everhart is out at work and suffered very little from the one shot which hit him.

## A Zealous Officer.

"I want the United States commissioners throughout this district to understand that they are to stay in their offices and try cases brought before them by the proper officers, according to the law and the evidence, and that I will consider it proper cause for removal for any commissioner to in any way participate in gathering evidence or doing anything to influence the bringing of cases into his court," declared Judge H. G. Connor, the newly appointed judge of the United States District and Circuit Courts from the bench. The jury had just retired in a case against James Goins in which C. B. Rossen, United States commissioner at Sanford, had appeared as a witness for the prosecution, it appearing that Rossen had worked up the case against Goins, taken the man in actual custody, telegraphed to revenue officers to come and take prisoner and destroy the still and then had actually tried the case and bound the prisoner over.—Raleigh dispatch.

## Another Feudist Killed.

Jackson, Ky., June 7.—Ed. Callahan, a former Breathitt county sheriff and notorious feudist, was last night fatally shot by an unknown person while quietly sitting in his home in this city. The shooting is supposed to be the result of a long-standing feud.

Callahan, though a deacon in the church, was the right hand man of Judge James Hargis, the feudist who was killed by his son last year. The reputation of Callahan was very bad in this part of the country.

Callahan's shooting stirred Jackson as never before. Its inhabitants are polishing their rifles in anticipation of trouble. The trouble here Thursday, started by Jake Mohle and A. S. Johnson, bringing into action the well known Deaton faction. It is believed the shooting of Callahan will bring into the country a battalion of the national guard.

Judge Adams has appealed to the governor for protection, while sitting on the circuit court bench. Since Callahan's followers declare they will kill the Deaton faction there is little chance of keeping order without troops.

## Hay's Hair Health

## Seven Years on Sweet Milk.

Drinking from one to three gallons of sweet milk each day has been the diet of young John Jordan during the past seven years. No solid food or fruit or any other liquid of any description have passed his lips in the meantime. The young fellow is about 18 years of age, and it is remarkable how well he keeps up on his monotonous diet. He suffered a severe attack of typhoid fever about seven years ago and the disease settled on his stomach, or so deranged the organ that his condition has baffled physicians to remedy it. He is the son of "Doctor" Jordan, who lives on Hearne's Heights in Albemarle. The boy takes his infirmity most patiently, and it is a common sight to see him walking along with a pail of milk.—Staflly Enterprise.

## Dead Baby Found in the Woods.

Anderson, S. C., June 4.—The half decomposed body of a white female infant was found in the woods just outside the northeastern limits of the city late this afternoon. It was wrapped in an old checked apron and flour sack and appeared to have been dead for two days or more. It was hardly more than a few hours old when pitched into the woods.

The sheriff viewed the body this afternoon and an inquest will be held to-morrow morning. It is not known whether the child was alive or dead when left in the woods.—Special to Charlotte Observer.

## Whiskey is Scarce.

Some of the out-of-town whiskey dealers think they have hit it rich. They are sending out an offer to deliver a gallon of liquor for so much including the gift of a handsome cut glass decanter with a stopper arranged so it cannot be opened except by one knowing the combination, having a dial just like a safe. This is silly. Let a man leave one of these decanters exposed, filled with liquor, the first man that got his eye on it would knock the neck of the decanter sky high in order to get the liquor. A little thing like a combination lock would not bother him. To get the liquor would be his object and he would accomplish the feat. A fancy decanter might do in a town where whiskey is plentiful, but in a dry town like this it would not last three seconds. Whiskey is so scarce here that men are actually keeping it locked up in a vault.—Greensboro Record.

## Will Have to Sign the Pledge.

Pittsburg, Pa., June 7.—The sight of one of his old employees going to work in an intoxicated condition caused Henry C. Frick to compel with the various steel men of this city, with the result that a temperance pledge was drawn up, which workmen will hereafter be forced to sign before being employed.

Mr. Frick was taking an early morning stroll and walked past the works of the Carnegie Steel Company. A white haired man who had been employed by Mr. Frick years ago, lurched across the street and staggered through the gates leading to the shops. Mr. Frick sent the man home in a cab and later in the morning conferred with the directors of the several steel companies with which he is connected. The result was the drawing of an agreement whereby all prospective employees must take oath to abstain from the use of intoxicants. Sixty thousand men already employed in this city will be forced to sign the pledge.

## Say They Were Sold Out.

Philadelphia, June 8.—Charging the Transit Company with breaking its agreement with its recently striking employees signed after the strike and agreed at the statement of Transit Company officers repudiating the union and explaining how the strike ended, Carmen's Union leaders will probably call an indignation meeting immediately.

## Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE. It is the best medicine ever sold over a druggist's counter.

## Puzzled the Liquor Men.

The dispensary investigation was unusually entertaining today. A now test of whiskey made by the prosecution, and which was apparently a real puzzle to the experts present, separated the constituent parts of the liquor, and applied to Hunter's Baltimore rye, selling now to the dispensaries at \$10.50 a case, showed it to be made of coloring matter, cologne spirits and extracts of rye, worth according to the experts less than \$3 a case. The test applied to whiskey bottled in bond showed pure whiskey.

Another interesting revelation was that big orders for liquor signed by Directors John Black and J. B. Wylie, and M. H. Mobley, as clerk, were delivered in person by Jim Farnum, who demanded the commissions on them.

This new test, which Colonel Elder applied to a bottle of Hunter's Baltimore rye, made by the Lanahan people, and which is still being sold to the county boards throughout the State, is a colorless fluid, which Colonel Elder says was explained to and furnished him by a whiskey expert. It does its work perfectly in about two minutes after being poured into the tube containing the liquor and shaken about. The test was applied to a bottle of Hunter's, which Colonel Elder said he brought in a South Carolina dispensary under the name of John Smith. Chairman Murray, who is a wholesale druggist, was much interested, as were all the other members of the commission and the liquor men present.—Columbia, S. C., correspondence Charlotte Observer.

## Strange Freak of Lightning.

Richmond, Va., June 7.—Miss Hilda Clark, was swinging in hammock on the veranda of her home this afternoon watching the storm clouds, when a playful bolt of lightning struck her garter clasp, tore off the garter, ripped off the silken hose and shattered a high heel slipper.

Miss Clark was shocked, but not injured. The only mark left by the lightning is a blue streak about her knee, where the garter clasped the limb. Members of the household hurried to her assistance. Miss Clark was found sitting upright in the hammock, but in an almost senseless condition.

## An Alarming Situation.

Girl babies are all right, but what's the use of overdoing the thing? About 75 per cent. of all the new babies reported to have arrived in Anderson county during the past twelve months have been girls, and it begins to look like we will have to import a few boys from the founding asylum. All we have said in favor of diversified crops seems to have gone unheeded. Let the mayor and council, the county officials and the grand jury look into this baby matter. The situation is indeed most alarming.—Anderson, S. C., Intelligencer.

## YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women. Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

## Washington News.

Washington, June 11.—The most important happenings in the national capitol to-day were as follows:

In the Senate where the woolen schedule of the tariff bill was under discussion, Senator LaFollette declared that Senator Aldrich had forfeited the confidence of other Republican Senators and had stated "half truths, which has discredited his leadership before this body and before this country." When the chair called Mr. LaFollette to order because of his personal allusion, the latter said he had not noticed that the rule forbidding personal allusions had been applied equally to all Senators. Twenty-four amendments to the wool schedule offered by Mr. LaFollette and voted on en bloc were voted down, and also several amendments by Senator Bacon and one by Senator Gore.

Consideration on the income question was postponed by the Senate until June 18.

Department of Agriculture decided to investigate charges made by J. F. Harms, against the meat inspection system at the National Yards, East St. Louis.

Secretary Ballinger eliminated the common carrier and the so-called unificatory clauses of the old oil and gas pipe line regulations in operation in Oklahoma.

The American National Red Cross Society sent \$5,000 for relief work in Asia Minor.

## Wheat in Surry County.

A Surry dispatch says: The wheat crop in Surry promises an abundant yield and the price of cake bread should come down about \$2.00 on the hundred pounds. Flour is plentiful everywhere and the officers of the law in the several states are a set of cowards if they do not at once move against trusts and combinations which have been formed and carried on to the distress and almost ruin of hundreds of honest and poor people. The farmer never gets over 70 or 75 for his wheat and generally less than these figures—the trouble is with the gamblers. Will the people never stand up for their rights?
