

**Helped Hold a Victim of Hydrophobia and in Danger of the Disease.**

Today William G. Rouse, of La Grange, arrived here for treatment by Dr. Shore, the State Pasteur expert, his case being by far the most interesting yet treated. Last Friday he was asked by the father of a youth of 19, a neighbour, who was dying of hydrophobia, to help him hold his son. The other people in the neighbourhood who had been asked to help would not go and some fled. Rouse was dead game and undertook the dangerous duty. He says that he believes if he had not helped the father the latter would have been killed by his son, whose struggles were something terrible to see, and whose strength was great, being large and very strong naturally, and the disease giving him undue strength. The face and hands of the dying youth were covered with saliva and he scratched Rouse on the hand and arm. There were unmistakable symptoms of hydrophobia. Last May the young man was bitten, but no attention was paid to the matter and four days before his death the dreaded disease gripped him hard and he never slept a moment from that time. He did not bite but scratched. Sometimes he was partly conscious, but had crazy ideas, thinking he was being attacked and fighting savagely.

This is the third case from hydrophobia in North Carolina this year, in face of the fact that treatment, perfectly certain in its results, is provided by the State at Raleigh. In the early summer a negro boy died near Rocky Mount, and near Wilson a little white boy who had been bitten by a stray dog also died, simply because his people did not think anything of the bite. If people can pay for the treatment the charge is \$50, but if they cannot pay there is no charge.—Raleigh dispatch, 27th.

**JUDGE FOR YOURSELF.**

Which is Better—Try an Experiment or Profit by a Salisbury Citizen's Experience.

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit. But the endorsement of a friend is. Now supposing you had a bad back, A Lame, Weak or Aching one. Would you experiment on it? Endorsed by stranger from far-away place.

It's different when the endorsement comes from home.

Easy to prove local testimony. Home endorsement is the proof that backs every box of Doan's Kidney Pills. Read this case.

John W. Glover, 128 So. Long St., Salisbury, N. C., says: "In my estimation Doan's Kidney Pills are the best kidney remedy on the market. I suffered from kidney complaint for a long time and often was in a serious condition, due to the severe pain in the small of my back. In the morning I was often so lame and sore that I could not get out of bed without assistance and I was at a loss to know how to dispose of my trouble. Finally a friend told me about Doan's Kidney Pills and deciding to try them, I procured a box at McPherson & Co.'s drug store. They quickly drove away the pain in my back and in proved my health. Whenever I notice a return of the trouble, I take Doan's Kidney Pills and prompt relief follows. For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Makes blood and muscle faster than any other remedy. Gives health, strength and vitality. Hollister's Rocky Mountain Tea towers above all other remedies for making sick people well, and well people "weller." Take it tonight, Corneilson & Cook.

The reason why so many men never get used to wearing their sets of false teeth is that they put them in their vest pocket at mealtime, under their pillow when asleep and most anywhere when at work.

The next worst thing to occupying a lot in the cemetery is for the boy from eight to sixteen to get snagged with the cigarette habit. Fact is, he is a more useful member of society in the former than in the latter capacity.

Instead of driving around a wagon or cart with milk in large cans, the Italian milk vendor drives his flock of goats from house to house and milks as much as his patron may want. Milk delivered in this way has the merit of being fresh and undiluted.

Milk production is had at cheapest cost when pastures are lush in the early summer. The recognized best and cheapest substitute for pasture grass is ensilage. If this is to be taken advantage of the coming winter the plans for the silo should be looked up now.

**MATTERS OF NEWS.**

A dispatch from Eastport, Me., says six men rescued from a wrecked steamer Tuesday are believed to be the only survivors of 41 men and boys who were aboard the vessel.

Coming all the way from Chicago to Birmingham to commit the crime, Thomas Pappos, a Greek, shot and killed Pete Pappos, another Greek, in Birmingham, Ala., Wednesday. The men are not related. Tom Pappos claims Pete had alienated the affections of his wife and prevented her from coming to him at Chicago.

General Oliver O. Howard, last of the Union commanders of the civil war, died at his home in Burlington, Vt., Tuesday night. Heart disease was the cause of the noted soldier's death. He was 79 years old. Including General Howard's services in the Union wars he was probably in more engagements than any other officer in the United States army. He was born in Leeds, Maine, November 8, 1830.

An estimated loss of five millions of pesos, including crops and fine hardwoods, two lives known to be lost and many others, it is feared, sacrificed in the floods, hundreds of homes in the country and town washed away and thousands of head of cattle drowned, are the known results of the disastrous cloudburst and storm that broke over the State of Tabasco, Mexico, Monday, following 21 days of incessant rain all over that region. Rivers are out of their banks, towns are inundated, thousands are homeless and no relief is yet in sight.

At New Orleans Tuesday the dead body of Thos. Davidson, a lad of 12, was dragged from the river 12 hours after the body of his younger brother, John, aged 12, had been found near the same spot. The boys disappeared from a boarding house in New Orleans October 21, shortly after their mother had reprimanded them for making a noise in the room of their sister, who was ill. Mrs. Davidson was traveling from Dallas, Texas, to Thomasville, Ga., and had stopped in New Orleans. It is supposed the boys either committed suicide or were accidentally drowned.

**The Automobile Party Goes Through.**

The passing of the auto party going from New York to Atlanta, on the good road tour, was witnessed by almost a circus day crowd on Saturday afternoon. Quite a number of people from the country were here, but we don't know whether they came to see the auto party or just because it was Saturday and a fine day. The town folks were out to see the parade. Main street was filled with people from Bank street to the Court House. The first car arrived at about 1:30 and for about two hours kept coming every few minutes until all had passed. A few made short stops at the Empire Hotel and partook of some light refreshments, tendered by admiring friends, after which they left down Bank street to Fulton and out Fulton following the tin signs, which designate the route laid out some time ago. There were several ladies in the party and they, as well as the men, were so covered with dust that it was hard to tell whether they were good looking or not. We did not know Ty Cobb, that chap some papers and base ball cranks are making so much of ado about, but somebody said he was along.

Things we recognized was the blue book car, the Bell Telephone car; the Spartanburg, S. C., car; the Roanoke, Va., car; the Anderson, S. C., car; Miss Cuneo's car and Col. Geo. L. Carson's car. They all went through Salisbury at the rate of about 30 miles per hour.

We're sorry if you've tried other medicines and they failed. As a last resort try Hollister's Rocky Mountain Tea. It's a simple remedy, but it's worked wonders, made millions well and happy. Purifies the blood, makes flesh and muscle, cleanses your system. Corneilson & Cook.
