HOW THE PEOPLE ARE SWINDLED.

the Government.

BY CLYDE H. TAVENNER. Staff Washington correspondent

of this newspaper. Washington, July 11 .- One of the crowning sins of the Congress which recently passed into history was its failure to pass income or inheritance tax legislation. All

Thus it might, and no doubt frequently does, happen, that a court." section hand on the railroad with a family of six or seven children pays more toward running the national government, toward keeping our standing army, than the millionaire bachelor who is too proud to marry and raise

President Taft, and President Taft alone, must bear the brunt of responsibility for the failure felony, shall be deemed to be of Congress to tack an income tax provision on the Payne-Aldrich bill. A majority of both houses were in favor of an income tax. Aldrich saw that an income tax amendment would be passed, and, as usual, appealed to Presi-

dent Taft for aid. The President knuckled absolutery to the will of Boss Aldrich. urging Congress to pass a corporation tax instead of an income tax. To fool and console the people the treacherous Aldrich then smilingly consented to a ratification of a constitutional amendment legalizing an income tax, well knowing that ways could be worked out to thwart such ratification, at least within the life of the present gen-

As an excuse for having killed an income tax, President Taft stated that the corporation tax should contain a publicity clause which would enable the government and the people to secure information about the working methods of the anything, when making political corporations. He held out the hope this publicity clause would make it possible for the govern- ocratic majority in the next house ment to hold the law-breaking trusts responsible incourt for their acts.

So Congress passed the corporation tax, but jokered the people by purposely failing to provide funds for the handling of data which would come in under the publicity clause. Even this was not enough. Congress, in the session just closed, completed the swindle on the public by striking out the publicity feature all together! And Mr Taft himself had declared the publicity clause was the most valuable feature in the bill! How long are the people going to stand for such treachery as this?

SENATOR CLAPP'S ILLUSTRATION. Senator Clapp of Minnesota, Republican insurgent, was recently giving an interview on the justness of a tax on incomes. Finally he stopped abruptly and pointed out of his window. He said, "notice that marble wall yonder. Which stone bears the greatest or the one at the top? REPUBLICAN EXTRAVAGANCE. When the Republicans took control of the Federal government in 1861 the expenses of the government were about \$65,000. 000 annually, nearly \$1,000,000, 000 less than now. As Hon. James G. Blaine says in his twenty years in Congress: "The leaders of the Democratic party had guarded the treasury with unceasing vigilance against every attempt at extravagance or corruption." The result of this frugality and honesty was seen in the annual expenditures. Economy in public expenditures has always been a cardinal principle of the Democratic Party. The appropriations for the four years of Cleveland's administration were less than one half the approtions of the last four years of

Religious exercises, consisting of the reading of the Bible, singing and prayer, cannot be held in the schools of Illinois during the time pupils are required to be in attendance, according to a decision handed down by the Illinois Supreme Court at Springfield.

The decision was given in the case of the Catholic residents of Winchester, Scott county, who protested against religious exercises and asked a writ of mandamus requiring the board of education to discontinue religious services in the schools.

Ferry but is Seized with Cramp.

John Baker, a young man of Summersett, Ky:, and an employee at a camp, near the river, of a construction force of the Southbound railway, lost his life, last Wednesday evening, in an attempt to swim the Yadkin near Bringle's ferry. Mr. Baker in company with Reuben Carter, of Providence Township, were on the Davidson side of the river, but had no boat with which to make the crossing, so Mr. Baker proposed swiming across the river and secure a boat for his companions. It is said that he was warned of the danger, but having faith in his ability as a swimmer did not heed the warning and proceeded to make the attempt. He got about half way across and was noticed to struggle and sink, but being far beyond reach his companions were unable to render him assistance, so the water claimed him for the realme of eternity. Efforts were made to recover the body, but without success until Friday. The remains were turned over to G. W. Wright's undertaking department. His father, Chas, Baker, of Summersette, Ky., was notified, but as yet nothing has been heard

The young man's remains were interred in the potters' field at

the County Home. It is thought he was seized with crmps, and the water being too deep for him at that point, was unable to avoid sinking.
