WM. H. STEWART, EDITOR.

## DEMOCRATIC CAMPAIGN KEYNOTE.

### Why We Pay Higher Prices on Certain Kinds of Goods.

By Clyde H. Tavener, special correspondent of this newspaper. Washington, Sept. 12.—When a woman purchases \$10 worth of woolen dress goods, \$4.87 represents the value of the goods and \$5.13 the amount of the tariff.

This is because of the Payne-Aldrich ad valorem tariff of 105 per cent. Or in other words, on each \$1 worth of woolen dress goods imported, the Payne-Aldrich law levies a tax of \$1.05. The consumer must pay the \$1 value and the \$1.05 tariff, or \$2.05 for one dollar's worth of goods.

This is but one of a thousand illustrations that could be submitted to show the tariff affects the cost of living.

Here is another sample illustration for the tariff arithmetic class, which is composed of some 90,000,000 American consumers, all of whom are more or less dissatisfied with the awful increase in prices:

A suit of clothes having an important price of \$10, and which costs an Englishman \$10 when ready to put on, all wool and tailor made, pays at the custom house an ad valorem tariff of 80 per cent, or \$8 per suit, making the suit cost the American when it is put on \$18, disregarding transportation and retail profits.

Another comparison: An English woman carpeting a room 15 ft. square with ingrain carpet two ply would 36 yards at a dollar a yard flat, or would pay \$36. An American woman using the same carpet would pay \$23.76 tariff at the custom house, which would make the carpet cost her \$59.76.

WAY PRICES ARE HIGH. The following table shows a number of common articles of consumption, the ad valorem tariff rate under the new Republican tariff law, the real value of the articles and the tariff additions on the basis of \$10.00 purchases.

Amount of tariff rate.	Real value.	Tariff.
Sugar, 60 per cent.	\$6.25	\$3.75
Glassware 60 per cent.	6.25	3.75
Window Glass, 84 per cent.	5.43	4.57
Soap, 45 per cent.	8.54	3.16
Machinery 45 per cent.	8.59	3.11
Tinware, 45 per cent.	8.59	3.11
Metal tools, 45 per cent.	5.81	4.99
Stockings \$1 doz 88	5.31	4.99
Shirts, 60 per cent.	8.25	3.75
Blankets, 107 per cent.	4.83	5.17
Flannels, 40c a yd., 144 4 09		5.91

### PROGRESSIVES NOT REPUBLICANS.

Those who approve of the sentiments of such genuine progressives as Victor Murdock of Kansas will be disappointed if they expect that the Republican party proper has any intention of carrying out such ideas. This is made plain in the Republican text book just issued by the Republican congressional committee. The campaign book emphatically does not recognize insurgent republicans as republicans, and thereby tacitly serves notice to the public that if the next House is Republican the people need not expect the ideas of progressives to be carried out. The Republican text book, however, officially indorses sentiments of the Aldrich-Cannon-Guggenheim type of Republicans as being Simon-pure Republicanism. As the Democratic campaign book accepts the sentiments of many of the genuine progressive Republicans as being truly Democratic, it would seem that the surest way to secure progressive legislation would be by voting the Democratic ticket.

### REPUBLICANISM IS CANNONISM.

In spite of anything the progressives can do or say, Cannonism and Republicanism are synonymous. The record of the last Congress proves this beyond successful contradiction. Page 8490 of the Congressional Record shows that on March 19 a resolution was reported providing for unseating Cannon as speaker. Of the entire Republican membership only the following nine voted to unseat Cannon: Murdock, of Kansas; Cooper, Cary, Nelson and Leuroot of Wisconsin; Lindburgh and Davis of Minnesota; Poindexter of Washington and Gronna of North Dakota. Thus it is indisputable

## NEWSPAPER BARGAIN DAY.

### Raleigh Afternoon Paper Putting on Special Coupon Offer for Ten Days

One of the biggest bids made for business in this State in recent years by a daily newspaper has just been announced by The Evening Times of Raleigh. The subscription price of this paper is \$5.00 per year, but for a period of ten days only, from October 1 to October 10 at 12 o'clock, p. m., they are going to accept yearly subscriptions in advance for the sum of \$2.50. This certainly is one of the most remarkable offers ever made by a responsible newspaper in this section. It is frequently done in the North and West, but The Evening Times is the first to inaugurate such a plan in this section. The idea is, according to Editor Simms, of The Evening Times, that several thousand new subscriptions can be added to the list in these ten days and collections made on the old accounts with practically no cost, and, therefore, it is best to give the subscriber the benefit of the quick work. The Evening Times is Raleigh's great afternoon paper and its leased wire telegraph service and state news page is among the best. The idea of getting a daily paper on a bargain for \$2.50 per year in this state will be watched with much interest.

that Cannonism dominates all but one twenty-fourth of the Republican party. This is the answer we get by dividing 219, the total Republican membership of the House, by 9, the number of Republicans who voted to unseat Cannon.

CANNONISM BOUND TO RULE. Even if every one of the genuine progressive Republican congressional candidates is elected, Cannonism will reign in the House of Representatives if that body has a Republican majority. As the regulars will outnumber the progressives in Republican caucus, "Uncle Joe" or some one satisfactory to the Old Guard will be nominated for the speakership. The only sure way to kill Cannonism is to deprive the Republican membership of Congress of the balance of power, and to replace a Republican president with a Democrat.

### WHERE AND WHEN?

"The Republican party," declares the Republican text book, "stands for the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit for American industries."

It is true the Republicans promised such a revision in the 1908 platform, but it is safe to predict no Republican candidate for office will declare that the tariff was ever revised on that basis. All genuine progressive Republicans are on record as stating that the promise was ignored as completely as if it had never been made. Revision of the tariff on the basis indicated would have been a big downward revision, while the Republicans revised it upward by 1.71 per cent.

### TWO SAFE BETS.

A \$5,000,000 ship subsidy grab and a central government bank are two good bets in the event of the next House of Representatives retaining its present Republican majority. If the House is Democratic it is an equally good bet that special privilege will be disappointed on both propositions.

### The Lash of a Fiend

would have been about as welcome to A. Cooper, of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. 50c. \$1.00. Trial bottle free. It's positively guaranteed by all druggists.

## THE HOME OF PLEASANT MEMORIES.

### A Charming Home Such as Nearly all of us may Have.

To all of us who knew it it seemed almost the ideal home the one to which we always accepted invitations with gladness, and the home to which, if we had to leave our own, we would most willingly have gone.

It wasn't a fine place, at all: just a little white cottage with a neat and ample lawn in front of it; a big tree or two to shadow and guard it; on one side an old-fashioned hedge of flowering shrubbery, and clambering roses, and back of these bright and fragrant beds of pansies and violets and snapdragons and sweet williams and old-time pinks and all the hardy flowers that delight to blossom in an informal garden.

Inside, too, it was all very simple and unpretentious with no fussiness or show, but it was always neat and fresh and home-like. There was ever a blazing fire on cold winter evenings, and ever an air of shadowy coolness on hot summer days. On the walls were one or two tasteful pictures that had stories to tell, pictures that didn't grow old; one side of the little sitting-room was lined with books, not gaudy volumes left by wandering agents, but well-selected editions of Dickens and Scott and Shakespeare and other masters, a piano, such as no home is quite complete without, filled another corner. And something in the spirit of the place made one just unglue down, as it were, into his little nook, and enjoy the book or the game or the song.

Perhaps it was the keeper of the home who gave it this atmosphere; for she seemed a part of, so like herself she made it. With all her household duties she found time to enjoy life and to make others enjoy it. One marveled how she did so much, possibly it was because she had learned how to save labor, and because, humble as the home was, it was convenient and equipped with the definite idea of making her work easy. "I would rather spend money for comfort and leisure than for display," she said. So she found enough leisure to fill her home with comfort, and to make it a place to which one tired or discouraged could always turn and find rest or inspiration.

And the best part of the story is that nearly all of us, if we only try, may have such homes as this for our own. Is not the result worth the effort?—Raleigh, N. C., Progressive Farmer and Gazette.

### A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where stomach, liver, kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulator for brain and strong body. 25c. at all druggists.

### No Scarcity of Labor.

Commissioner of Agriculture W. A. Graham returned from his farm in Lincoln county Sunday night. He says the corn crops are good, but the cotton crop will be short.

Major Graham says that he does not hear the farmers complaining on account of the lack of farm hands this year as in the past. They seem to have all the help they need. This condition is probably due to the increased cost of living. The poor man has to work hard for a living, and the farm offers more inducements to the laborer. Possibly another cause is the closing down of the cotton mills. Most of the mill hands came from the farms and when the mills closed down they went back.—Raleigh Times.

### Best for the Hands

S. L. Chapman, Massac, Ky., says: I used Dr. Bell's Antiseptic Salve on my hands, which were sore, and find it the best I ever tried. It cured them completely.

## MORE TIME FOR REPUBLICANS.

### United States Senator Sells in His Resignation to the Hamilton Club.

Chicago, Sept. 10.—A terse note of resignation from the Hamilton Club, of which he had been a member many years, was the answer made today by United States Senator William Lorimer to the action of the club president John H. B. in withdrawing his invitation to the Roosevelt banquet Tuesday night. The invitation was withdrawn at the demand of Colonel Roosevelt, who refused to attend a banquet at which Senator Lorimer also was a guest.

While Senator Lorimer urged that his resignation be accepted immediately, it is said tonight that the Senator's friends on the club board, Governors probably will refuse to accept the resignation.

Together with the resignation today new correspondence from President Lorimer developed, showing that the junior Illinois Senator also was to have been a guest of honor, and it was thought that the club would make the dinner notable as a harmonious occasion where all factions of the Republican party had broken down together.

At least the invitations were sent Lorimer, urging him to attend the banquet, and to the last of these he sent his acceptance. After this, on the day of the banquet, came the sudden recall of the invitation.

The note of resignation was written after a conference of the Senator with a number of his friends, and it was believed to be a cue which could be followed by a number of his admirers in the club. Later it was decided by his friends to refuse to accept the invitation.

Pittsburg, Sept. 10.—Colonel Roosevelt heard tonight that Senator Lorimer had resigned from the Hamilton Club following the attack which the colonel made on him two days ago. He was greatly interested in the news of the Senator's action, but he would make no comment on it.

### Don't Break Down

Sovereign strains the vital organs, like strains in machinery, cause break-down. You can't over tax your stomach, liver, kidneys, bowels or nerves. If you are weak or run down, or under strain of any kind, take Electric Bitters, the matchless tonic medicine. Mrs. J. E. de Saude, of Kirkland Ill., writes: "That I did not break down while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction guaranteed. 50c. at all druggists.

### McKinlay Admits Loss of Many Congressmen

Beverly, Mass., Sept. 11.—The only arrival at the summer White House on Burgess Point today was Representative Dunbar E. McKinlay of California, who has just finished a speaking tour of Maine in the interests of the Republican candidates. Representative McKinlay will be the President's guest for two or three days. The California Congressman expressed the opinion that his wife would be saved to the Republican party, but by a small plurality. He thinks "regular" and "progressive" Republicans, working together at the polls tomorrow, will be able to roll up a vote that the Democrats cannot possibly overcome.

National issues, he said, played no part in the Maine election this year and his prediction was that the Republican plurality would be between 4,000 and 5,000.

After his visit to Beverly it ended, Representative McKinlay will go to Virginia, North Carolina and Tennessee. He predicted that the Republicans would have a majority of 12 in the next House of Representatives.

Your blood is your life. If it's impure, it acts as a receiving agent for disease. Protect your health by keeping your blood pure and rich. Hollister's Rocky Mountain Tea, the most effective blood tonic for 25 years. Nothing so beneficial. 25 cents. Tea or Tablets. Hollister & Cook.

## WHO WILL BE GOVERNOR?

### Second Primary in South Carolina was Held Yesterday.

South Carolina Democrats yesterday made their final choice for Governor, Adjutant General, Railroad Commissioner and Congressmen in two districts. The voting constituted the second primary, made necessary when there are more than two candidates for one office and no one of them receives a majority.

Chief interest in this second primary naturally centers in the contest for Governor between C. O. Featherstone of Laurens and Cole L. Blease, of Newberry. Mr. Featherstone entered the campaign as the champion of the State-wide prohibitionists, while Mr. Blease ran on a local option platform. Since T. G. McLeod, another local option candidate, was eliminated at the first primary, it has been maintained by leading newspapers of the local option persuasion that the issue is no longer one of measures, but a question of personal fitness as between Mr. Featherstone and Mr. Blease. Supporting this view several of the prohibition leaders of the State have come out with admissions that the State-wide prohibitionist cause was practically defeated at the first primary.

Since the first primary the campaign has been bitterly contested with adherents of both candidates working hard. The press of the State, with a single exception, is supporting Mr. Featherstone and attacking Mr. Blease. Predictions on the outcome are futile.

For Adjutant General W. W. Moore of Barnwell and J. M. Richardson are in the second race, while James Candler and G. McDuffie Hampton of Columbia are in the fight for Railroad Commissioner.

In two congressional districts, the second and the sixth, there are second races. In the second district J. O. Patterson, incumbent, of Barnwell, and J. F. Byrnes of Aiken are in the second race. In the sixth district J. E. Ellerbe, incumbent, and P. A. Hodges are the contestants.

### Best in the World

J. W. Hyatt merchant of Warren N. C., writes: Please send enclosed order by mail. Sutherland's Eagle Eye Salve is the best eye remedy in the world. 25c.

### Truth About Hydrophobia.

Washington, Sept. 11.—Hydrophobia is a reality and not a dream, incurable and not infallibly preventable, and is a respecter of no particular season or species of mammal, says a public health service report today. A. M. Stimson, its author, repudiates certain mad dog fallacies and his report admits rabies may not be uniformly fatal, though it is almost so.

Pasteurization generally prevents development.

Mad dogs are not always wild-eyed and frothing at the mouth and determined to jump upon any and everybody he sees.

"The rabid dog" says the report "is sick; he is not necessarily running wild and furious; he is frequently obedient up to a late stage, and often seems to have a bone in his throat or to have sustained injury to the back."

Another fallacy is the general belief that rabies are much more rapidly transmitted in the summer than in other months; the explanation is that more people are moving about and become subject to attack. Nor is the malarial condition to any climate or region. It is liable to occur in the Arctic or the equatorial jungles. Dogs, wolves, coyotes and skunks seem to be especially susceptible.

### Merchants Praise

Dr. Bell's Pine-Tar-Honey. J. W. McDaniel, Etherton, Ill., says: There is no medicine which equals it for coughs, colds, Grippe, asthma and Bronchitis. Look for the Bell on the Bottle.

## DEATH OF DR. D. B. WOOD.

### A Prominent Citizen, Able Physician and Gentleman of the Old School.

Doctor Daniel Burton Wood, who has been confined to his bed for more than five years with a dislocated hip, died at his home at Elmwood, Iredell County, Saturday evening, he being eighty-nine years, four months and seven days old. The funeral took place just afternoon Sunday at the old Third Creek Presbyterian Church, a few miles north of Cleveland, this county. Although his ancestors were Presbyterians and had much to do with the establishment and maintenance of this particular church, Dr. Wood became an Episcopalian and therefore, Archdeacon E. I. Osborn, of Charlotte, conducted the funeral services. The interment took place in the cemetery near the church and among his ancestors.

January 10th, 1908, more than two years ago, Dr. Wood's wife, who was Miss Margaret McKensie Cowan, died. Those who are left to mourn the loss of a kind and affectionate father are: Mrs. Robert Fleming, of Elmwood; William B. Wood and Mrs. George R. Anderson, of Statesville; Daniel Burton Wood, of Spencer; John Charles and James Scott Wood, of Big Sandy, Texas; Rev. Mrs. Edward Green, of Columbia, S. C.; Leonidas C. Wood, of Corinth, Mississippi, and numerous other relatives, including Sheriff Jas. H. McKenzie, Deputy Sheriff Jas. H. Krider and D. B. Krider, of Salisbury.

Dr. Wood was a man of much learning and brilliant ability. He was among the first graduates of Davidson College, and could have attained a position of eminence and wealth had he not been content with the love and esteem so generously bestowed by those in the limited sphere with and for whom he labored. He did many acts of kindness and much practice in the name of charity.

Whenever he made a friend it was lasting and cordial. He had the respect and confidence of all who knew him and it can be truly said that he served his generation and his State with fidelity and great ability. He suffered with patience and cheerfully awaited the call of the Angel of Peace. He lived to see nearly all of his friends and comrades of youth and young manhood pass on before. He and the late Dr. James G. Ramsay attended Davidson College together and were graduated at the same time. Dr. Wood requested Dr. Ramsay to write a brief sketch of his life, should he die first, and agreed to do, and did, the same for Dr. Ramsay. Dr. Ramsay fulfilled his obligation, and the following data is a corrected copy of his sketch:

### DOCTOR DANIEL BURTON WOOD.

The subject of the sketch was of Scotch Irish extraction and born near Third Creek Church in Rowan County, North Carolina, on the 8th day of May, 1821. He was the only child of William A. Wood by his first wife, Lydia Young. His grand father Daniel Wood who married a Miss Anderson, came to North Carolina from Virginia, and first settled on the Yadkin River on a plantation now owned by the Walsler family. He subsequently bought and moved to Rowan to the plantation on Fourth Creek, now owned by Mr. Alonzo A. T. Hart. Doctor Wood's grand parents on his mother's side were John Young and wife Margaret Burroughs. John Young was one of the sons of Samuel Young, an Irishman, who came direct to North Carolina about the year 1750 and bought about 4000 acres of land, on which he settled, lying on both sides of Third Creek including the church of that name and the mountain named Young's after himself. This Samuel Young was the great-grand father of Dr. D. B. Wood, and occupied such responsible and honorable positions in Rowan county in Revolutionary times as to call forth the plaudits

## WISE ONES ARE PUZZLED.

### Governor Patterson's Withdrawal Creates Peculiar Conditions.

Nashville, Tenn., Sept. 11.—Gov. Patterson's withdrawal from the gubernatorial race in Tennessee has created a condition that has the wisest politicians guessing what effect his action will have.

Will the Democrat factions that have been so bitterly arrayed against each other bury the hatchet as the Governor urges them to with him eliminated and agree on a candidate whom all can support?

Will the convention of independents called to meet here Wednesday with a majority of its delegates instructed to indorse B. W. Hooper, the Republican nominee for governor, carry out these instructions, as opposed to any Democrat who may be placed in the field in Patterson's stead? Are instructions binding on these delegates in view of these conditions?

These are a few of the questions confronting the leaders tonight and from all indications none can answer with any degree of conviction.

It is all problematic and hurried calls for conferences and meetings have been issued. Tomorrow and Tuesday will see a series of gatherings here of leaders of various parties and factions and developments are looked forward to with absorbing interest.

A meeting of the independent Democratic State executive committee is set for Tuesday. Its members will be confronted by a situation unparalleled in the history of the State. Their factions received the support of the Republicans in electing State judicial tickets August 4 and their part of the agreement is to give their party support to the Republican candidate for Governor.

In an interview at his home in Newport last night Hooper practically said that he expected the independents to carry out their agreement, and that it was hardly possible to make new alignments at this late date.

It is known that the feeling of the independents throughout the State is against Patterson solely and many claim that it is a grave question whether the independent committee and the convention can now hold the voters in line for Hooper if they so desired. The "regular" or Patterson Democratic State committee was called to meet here Thursday, the day following the independent convention, but today chairman Robertson amended the call and the committee will assemble tomorrow in advance of the convention.

Eliminated from the present campaign, Patterson's enemies claim his relegation is permanent.

Friends, however, do not consider he will stand in the background any length of time.

So much confusion existed in local political circles today that no names were suggested in connection with the matter of Democratic candidate for Governor.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional man. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. Therefore, for one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

(Continued on page two)
