DEATH OF DR. GAITHER.

A Fine Physician, A Splendid Citizen And a Polished Gentleman Passes.

Dr. A. J. Gaither died at his home at China Grove at 10:30 on the morning of December 17, of some intestinal troubles. Dr. Gaither was in town Monday and was not at all well, but managed to board the cars with the assistance of friends. He had been living alone some time and taking his meals with Mrs. C. A. Rose. After reaching home, he locked himself in and retired, not going for his meals, Mrs. Rose became alarmed and upon investigation found him in an unconscious condition from which he never entirely recovered. He was given every attention from physicians and friends that could be rendered. He was about 65 years of age and leaves three sons, James F., John and Edward and one daughter Mary, who recently married Graham Robertson a cotton mill superintendent of Concord. The three sons are living in Texas. Mrs. Gaither, who was Miss Mollie McCubbin, of this city, died at the Whitehead-Stokes Sanatorium several months ago. Dr. Gaither's wife was a half sister to J. Frank McCubbin, clerk of the court for Rowan. Dr. Gaither resided in Salisbury a number of years just after the civil war, and practiced his profession with the late Dr. J. J. Summerell. He moved to Mill Bridge, practiced medicine there for several years, and about fifteen years ago he went to China Grove. He was a good physician and highly esteemed by all who knew him.

The funeral took place yesterday from his late residence and his remains were brought to Salisbury and interred in Chestnut Hill Cemetery beside his wife. Rev. M. W. Walsh, of Thyatira Presbyterian Church, of which Dr. Gaither was a member, conducted the funeral services.

FOR UNIVERSAL PEACE.

Carnegie Establishes Foundation Of \$11,500,000 To Abolish War.

Washington, Dec. 14.—Surrounded by twenty-seven trustees of his choosing, comprising former Cabinet members, ex-ambassadors, college presidents, lawyers and educators, Andrew Carnegie today transferred \$10,000,000 in five per cent mortgage bonds, value \$11,500,000, to be devoted to the establishment of universal peace by the abolition of war between nations and such friction as may impair "the progress and happiness of man."

When wars between nations shall have ceased the fund is to be applied to such altruistic purposes as will "best help man in his glorious ascent upward and upward" by the banishment of the "most degrading evil or evils" then harassing mankind.

As Mr. Carnegie read an informal deed of trust announcing at length the general purpose of his gift, there was prolonged applause. He then explained the incidents which inspired the giving of the money at this time and declared with emphasis that if the English-speaking race in the United States and Great Britain once consolidated in the movement for international peace the success of the measure of the rest of the world would be assured. That Great Britain stood ready to cooperate with this country, Mr. Carnegie said, he felt certain, and all that was now needed, he added, was the concurrence of the President and the Senate in promulgating the movement on behalf of the United States.

A resolution of thanks was presented by Joseph H. Choate, former United States ambassador to Great Britain, which was adopted, and John L. Cadwalder of New York, proposed that a committee of seven be appointed to consider the subject of the organization of the body of trustees, the form of charter to be obtained and other details of organization. This was likewise adopted. Senator Ethu Root of New York, was unanimously elected permanent chairman, and James Barry Scott, editor of the State Department, was chosen permanent secretary of the board of trustees until a more definite organization shall have been effected.

Mr. Carnegie declined to be included in the future organization of the board of trustees, but expressions of gratitude were uttered by many of the trustees at the meeting, who look forward to continued advice from the honor, who, it was declared "perhaps more than any other man has given constant thought and study to plans for the development of international peace."

Exactly what purposes will be served by the gift of \$11,500,000 and its estimated annual income of \$500,000, none of the trustees could say, as the whole project has been brought forward under the most general terms, leaving wide discretion and comprehension to the trustees in the fulfillment of the promises of the gift.

One of the members of the board of trustees said tonight that while there had been no definite plans as yet for the use of fund, it was certain that the new committee, which has yet to choose a name, will consider the question of international harmony much more deeply than a mere glorification throughout the world of the benefits of peace.

North Carolina War Claims to Be Paid.

The omnibus war claim bill that passed the Senate last week carried appropriations approximately \$18,000 for North Carolina. The appropriations are to cover claims for losses and damages to property at the hands of Federal troops following the war. They made a part of the bill at the instance of Senator Overman, who is a member of the Senate claims committee. There are a number of other war claims of North Carolina that may be paid later.

The claims in the present bill range from \$4,350 down to \$182 and all of them go to claimants in eastern North Carolina counties. The Presbyterian church at Lumber Bridge, Robeson county, gets \$1,800, the Methodist church at Morehead City \$800, the Episcopal church at Nag's Head \$556, the First Baptist church at New Bern \$1,200 and a Baptist church in Wayne county \$650. The remainder goes to private parties.

Typhoid Carriers.

Eccles, in the Dietetic Hygienic Gazette, says:—"Without carriers the continuance of the disease would be impossible. They first infect water and milk in regions previously free, they supply the sporadic cases by infecting food. They and their victims produce great epidemics. Only through them is it possible for the dose of any kind of disease germs to be multiplied up to the point of infecting whole communities. It is easy to understand that typhoid carriers who work in dairies may be, and almost certainly will be, the means of spreading typhoid fever, for milk is a medium in which the germs increase with almost incredible rapidity, and the purer the milk the more rapidly will the germs increase. People working in kitchens as cooks, or who handle food to any extent, if typhoid carriers, have peculiar facilities for spreading the disease. In the United States and in Canada the significance of the mode of disseminating typhoid is impressing itself vividly on the consciousness of medical men, and it is felt that many epidemics of hitherto obscure origin may be explained in this way. The findings of an expert commission, as the commissioner working in Washington was, has almost clinched the view that typhoid carriers are important factors in the spread of the malady. How are typhoid carriers to be dealt with even when discovered? It would be impossible to segregate them, and the only remedy seems to be unscrupulous personal cleanliness, and especially of those persons who work in dairies, or who handle food. Hands must be frequently washed thoroughly.

Mrs. D. C. Livengood, who lives in Jerusalem Township, Davie county, fell from the door step and fractured a leg. Mrs. Livengood is a sister of Abe Harris who was in the grocery business in this city some years ago, the mother of Mrs. Max Hoyle, of Spencer, and Charles H. Livengood, of Durham. Many friends sympathize with her in her suffering.

The Senate is Balky.

Washington, Dec. 19.—As the result of a ruling by Vice President Sherman that a Senator having a pair with another Senator could be counted to make up a quorum, the Senate today, on motion of Senator Hale, refused to accept the dictum, over-ruling it 87 to 17. The refusal of the Senate to accept the decision of its presiding officer followed a protest voiced earlier in the day against a similar ruling made by Mr. Sherman Saturday.

The clash today, as was the case Saturday, came up during continued consideration of the omnibus claims bill. The Senate passed a few minor bills and adopted the House resolution agreeing to adjourn on Wednesday for the Christmas recess, reconvening January 5.

The House early in the session fell into a parliamentary wrangle which developed when the bill to codify the postal laws was taken up. The measure was still under consideration when the House adjourned. Several bills of minor importance were passed.

A congressional investigation of Theodore Roosevelt's railroad transportation expenses while he was President of the United States is directed in a resolution introduced by Representative Rainey of Illinois, a Democrat, today. It provides that a committee of five be selected, in such a manner as the House may direct, to investigate how much, if any, of these expenses were paid by Mr. Roosevelt or any one acting for him, the contracts made for him, or any one acting for him, while President, with the Pennsylvania Railroad or in official capacity, of "the demands for transportation, made by Theodore Roosevelt while President, on said road."
