

THE CAROLINA WATCHMAN.

WM. H. STEWART, Ed. and Prop. Published every Tuesday at 120 West Innes street.

Entered as second-class matter Jan. 19th, 1902, at the post office at Salisbury, N. C., under the act of Congress of March 3rd, 1879.

SUBSCRIPTION PRICE. Watchman and Record, one year, two papers per week, cash in advance, \$1.00 per year; six months, 50c.

SALISBURY, N. C., Oct. 11, 1911.

Write this down where you'll see it every day. The time to draw business is when you want business, and not when you have more business than you can attend to already.

Any business is more respectable than what is termed loafing. A young man had better sell claims by the painful than hang around public resorts, murdering time and his own reputation.

"No man has come to true greatness who has not felt in some degree that his life belongs to his race, and that what God gives him, He gives him for mankind.—Phillips Brooks.

A bright army engineer is said to have "established beyond controversy the fact that the battleship Maine was not blown up by the explosion of her boilers." He might also assert with assurance of ready acceptance that it was not the result of the explosion of a bad egg.

John Russell Felts, a young printer of Salisbury, now located at Littleton, N. C., has begun the publication of The Littleton News, a small neat quarto. Mr. Felts is a good printer and is full of enterprise and energy and will no doubt make good.

For the third time Lookie Oraige, of Asheville, has announced his intention of being a candidate for governor. We suppose it might be said that he is one of the western Cra(igs) that does not appreciate his position and manner of confinement. And W. C. Newland is also in the race, which is nothing particularly new.

The ministers have started a crusade for a cleaner and better Lexington morally. This is a very laudable effort and one that no city should take second place in. Salisbury badly needs such a crusade and it is up to the ministers of the city to take the initiative. Who will start the ball. There are hundreds of laymen here who are anxious to co-operate.

Few people have any idea what an incentive it is to both teacher and scholar to know that parents and outsiders are taking a lively interest in their work. We believe the "little folks" at school appreciate such interest more perhaps than the larger ones. Still the effect is not lost on any of them, and we hope every parent will take a hint from this and place the public school on their visiting list.

T. G. Cobb, of the Morganton News-Herald, next month, will have spent 81 years in the print shop. He has made a good record and will no doubt continue steadfastly in the straight and narrow way that trysmen's souls. He has the editor of the WATCHMAN beaten by one year. We, however, believe that we have Brother Cobb beaten on another count. We are now living in the same house in which we were born 41 years ago.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by All Druggists.

FAITH.

Oct. 9.—Dr. Peeler, of Granite Quarry, has moved into his handsome new granite residence just completed here. Faith now has a good doctor. Who says Faith is not growing?

Mr. Shive has moved into his new residence half a mile south of Faith on the big road.

Lots of people have been giving the railroad company the rights of way over their lands and had deeds made accordingly.

A great many of the granite contractors are having payday, as it is the first of the month. J. T. Wyatt's pay roll amounts to twelve hundred and eighteen dollars and forty-one cents and he is only one among a great number. Those have who machinery and employ hands will have a great deal bigger pay roll. Who says Faith is not on a boom and growing fast?

A great many hand drillers could find work out on the granite belt. Lots of carloads of curbing are lost because there are not enough men here to get it out as fast as it is wanted.

Sunday, October 8th, was a winter day. People had fires.

A young woman was in Faith today hunting for a place to keep house for somebody. Her price is three dollars per week. She is willing to work hard and earn it.

Misses Eltha Lingle and Viola Trexler will teach at Rowan Academy this year. We wish them much success.

Best wishes to the WATCHMAN and RECORD. VIOLA.

House of Jones.

Jones painted his house last year. It looks dull, dead, no life to it. Smith painted his house 10 years ago.

It looks clean, nice, and don't need repainting, because he used L. & M. Paint, and added three quarts of Oil to each gallon.

The Oil gave life and preserved it. Besides—adding the Oil reduced its cost 40 cents a gallon less than other paint.

Why Taft Falls.

Nearly every other civilized nation in the world is getting a-long faster than the United States in this struggle to move with Great Britain, the most democratic and therefore in certain ways the most wily of these nations, is actually changing not only her outward form of government but even her economic balance in the desperate struggle to catch up with the new facts. Our own nation with its immense centralized vested interests holding on to property "rights" and resisting all change, is one of puzzling and dangerous cases of arrested development in the world.

In the light of these facts we are frankly sorry that Taft is a can candidate. Even if he can be re-elected he cannot possibly stop this world-wide forward movement toward democracy. He personally cannot even delay it much. He can, in fact, do little more than get run over. There have been many times in the world's history when Taftes were needed. There will be times again. But a Taft today is a danger-spot. He calls to mind, to indulge in another metaphor, a stout-hearted and muscular volunteer on a boat in the rapids, devoting himself to the task of booding up-stream while his craft sweeps blindly on among the rocks.

We need steersmen to-day, not resistors. We need men who look forward, not back. The men of to-day are the very Wilsons and LaFollettes who, to Taft's mind, mean only disaster. There is nothing local about these modern types; they are springing up the world around. Even LaFollette is a very mild reformer in deed beside the British Lloyd-George.

The rulers of to-morrow are certain to be the very "people," the "rabble" and "mob" that so disturb Taft in his business of dealing in a dignified manner with recognized and imposing officials and judges and "leaders." And the "will of the people" that is inevitable to prevail in the will, not at all of a few ancient gentlemen in knee-breeches, but of the living, struggling, hoping human beings of to-day and tomorrow. —"Success Magazine."

Negro Commits Crime and is Lynched.

Anderson, S. C., Oct. 10.—Intense excitement has prevailed in Anderson county today following a successful criminal assault upon the 11-year old daughter of a prominent citizen of Hones Path by a negro, Willie Jackson, aged 17 years this morning at 7:30 o'clock.

According to the little girl she was attacked by the negro while she was going to a pasture with her cow. The attack was made within three hundred yards of the incorporated limits of Hones Path and after dragging his little victim about seventy-five yards into a patch of woods he accomplished his dastardly purpose behind a dead log. A long distance telephone message from Hones Path says that at 11:24 o'clock tonight Willie Jackson was swung to a telephone pole by one of his heels and his body riddled with bullets. The negro was carried to the identical spot where the crime was committed and from there was taken to the nearest telephone pole and swung up by one foot. Four hundred shots, as near as can be estimated, were fired into his body, Winchester rifles, magazine pistols, revolvers and shot guns being the weapons of death used.
