### The Man Who Shows That He Knows.

No business man wants a clerk or employe about the office who doesn't appear to listen when instructions are being given. It isn't enough that the subordinate should hear what is said. He must do more—he must show that he understands what is wanted. No matter how trustworthy a young man is, there is another thing necessary, and that is that he convince others that he knows just exactly what he's about. The dreamy eye, the lifeless, fishy glance and the stupid-looking face would condemn the most reliable man in the United States if it were possible for him to have such characteristics. It has been said of the great French orator, Mirabeau, that he was so ugly as to excite sharp criticism from one of the beautiful ladies of the court, but that when the two were introduced and engaged in conversation, the lady fell immediately in love with him; for when he spoke his eyes sparkled and his whole face lighted up with interest and enthusiasm. He had the rare gift of being able to make all to whom he spoke believe that he was for the time more interested in them than in any other person or thing in the world. That is the secret of many a success today—the faculty of showing those to whom one speaks that the attention is completely on the question under discussion. Men leave the presence of such a person fully convinced that he understands what he is about, and that his knowledge is evidence enough of his ability.

At a meeting of the state council of the Farmers' Union in Greensboro Thursday night, Wilson was chosen as the place for the next annual meeting of the union, which will be held Decem-

ber 18, 14, and 15. A number of routine matters were considered. There was a large attendance of members of the council, which Dr. H. Q. Alexander of Charlotte is chairman.

# Women Who Suffer

from woman's ailments are invited to write to the names and addresses here given, for positive proof that Lydia E. Pinkham's Vegetable Compound does cure female ills.

**Tumor Removed.**  
Elmo, Mo.—Mrs. Sarah J. Stuart, R.F.D. No. 2, Box 16.

Bellevue, Ohio.—Mrs. Edith Wieland, 238 Monroe St.  
DeForest, Wis.—Mrs. Augustus Yesserman.

These women are only a few of thousands of living witnesses of the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. Not one of these women ever received compensation in any form for the use of their names in this advertisement—but are willing that we should refer to them because of the good they may do to other suffering women to prove that Lydia E. Pinkham's Vegetable Compound is a reliable and honest medicine, and that the statements made in our advertisements regarding its merit are the truth and nothing but the truth.

### GREEN MANURING.

Straw, Woods and Coarse Grass Make Excellent Cheap Fertilizer.

Traveling through the piedmont section it is not unusual to see large stacks of straw two or more years old rotting to the ground. As the farmers do not need it for bedding for their live stock, and find it very poor roughage, they are content to let it lie in the field or around the barn lot as worthless "straw", good for nothing but to be burned or rot where it lies.

A ten acre field of wheat that yields 200 bushels will produce 10 tons of straw and chaff. This straw has about 12 lbs. of nitrogen, 4.4 lbs. of phosphate, and 12.6 lbs. of potash per ton. These amounts were necessarily taken out of the soil and should be returned together with the very large amount of organic matter contained in a ton of straw.

Should the straw from this 10 acre field be put back into the land the soil would receive an application of 120 lbs. of nitrogen, 44 lbs. of phosphate, and 126 lbs. of potash. This is as much nitrogen as can be gotten from three tons of an 8-2-2 fertilizer or 18 tons of fresh cow manure. The potash made available in the amount of straw is equal to that in three tons of an 8-2-2 fertilizer or in 17 tons of fresh cow manure.

Wheat straw, old hay, dead weeds out when cleaning fence rows, ditch banks, etc. should be spread evenly over the poor places in the field during the fall and allowed to weather and rot during the winter. In the spring this rough material may be easily cut to pieces with a disc harrow and plowed under.

Last year a good farmer in Davidson County spread a lot of rag weed, coarse grasses, etc., out from around his tobacco barns and cow stables, over a very poor land in the fall on which he had sown rye. He did this to get the "stuff" out of the way and with no thought of its possible fertilizing value. I saw the rye in the spring just before it was cut, and the result was astonishing. The crop was as thick on the ground as it could stand, well filled, and about 5 feet high. Just a few steps away where no mulch of any kind was used the rye made but an indifferent growth and was thin on the land.

Another farmer in Randolph County last year thoughtlessly spread some old straw, weeds, and coarse, dirty grass over a gall spot in his wheat field, and in the spring and at harvest time was surprised to find his crop looking as though he had spread tons of stable manure over the land. Instances may be multiplied.

In the future do not let your old hay, old straw, flooded grass, mixed weeds and coarse grass, lie around and rot in the fence corners and gullies, but spread them evenly over the poor spots in the wheat or oat fields just after the crop is sown. When the crop is harvested, run a sharp disc harrow over this mass of half rotten vegetation once or twice and plow it under prior to seeding the field to soy beans or cow peas to be plowed under if the land is poor or out and fed to live stock if the land is not in need of fertility. We had intended to discuss corn as a green manuring crop this time but find our space all occupied with the above discussion and we will have to defer this crop for next week.—Bulletin from N. C. Department of Agriculture.

Severe fighting between the Portuguese royalists and republicans was reported Saturday. Captain Couceiro in command of royalist forces is said to have been defeated at Braganca, in the northeast, and at Vinhass, fourteen miles further west, a royalist column is reported to have been surrounded and captured. The most sensational news, however, comes from Oporto, where it is believed a decisive battle of the uprising will be fought. It is asserted that two modern battleships, purchased in some mysterious manner by the royalists, are now off the port ready to bombard the town as soon as the land battle begins.

Clives Aid to Strikers. Sometimes liver, kidneys and bowels seem to go on a strike and refuse to work right. Then you need those pleasant little strike breakers—Dr. King's New Life Pills—to give them natural aid and gently compel proper action. Excellent health soon follows. Try them. 25c at All Druggists.

### TRUTH TRIUMPHS.

Salisbury Citizens Testify to the Public Benefit.

A truthful statement of a Salisbury citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, the cure is at hand. Read this: Mrs. Sarah E. Dennis, 411 E. Vine St., Salisbury, Md., says: "I was subject to kidney trouble for years and last fall my kidneys became more badly disordered. My back was weak and the kidney secretions were unnatural. I also had symptoms of dropsy and my feet and hands often became swollen. I at last procured Doan's Kidney Pills at McPherson & Co.'s Drug Store and the contents of one box made a wonderful improvement. At the present time my back does not pain me and my kidneys cause me no trouble. I advise anyone suffering as I did to try Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N.Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
