SALISBURY WON DEBATE.

Naughty Boys Decided to Give the Ballot to North Carolina Women.

In the debate at the graded school last Friday night between representatives from the Statesville and Salisbury schools, the Salisbury debaters won, having the affirmative of the query, "Resolved, that Women Should be Given the Ballot in North Carolina."

William Overton and Flossie Harris, of this city, battled for the would-be rights of the suffragettes, while Bonner Knox and James Pressley, of Statesville, ably defended the home against the on-rushing, militant suffragettes. Oh! the battle was a hard, drawn out, strenuous struggle from beginning to end, and all of the debaters conducted themselves like men who were really and of a fact deciding the issue in North Carolina. The speeches were all a great credit to the training given them by the schools of the present day. To say that they were excellent would be expressing it lightly.

The out-come of this debate will be received by some of our suffragettes by bonfires and warwhoops, for it shows a tendency on the part of the younger generation of near-men to surrender the government and responsibility of providing for the home to the women, while the men are content to spend their time at a pool parlor or at the club and enjoying life in a royal fashion.

But this is unjust, as a majority of the women in North Carolina would protest against the men thrusting the right of the ballot upon them, as was done in this debate.

The womanly woman does not want the ballot and would refuse it if offered to her. Our plant may be dynamited for this assertion that is forth-coming, but we are going to be game and say it and take the risk: Most of the suffragette "hikers" in this country are old maids who have had their fond hopes to rule one man blasted, and are in a mad struggle in trying to rule all the men and run the government.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CROSBY, Toledo, Ohio.
