

HANDLING OF PEANUTS

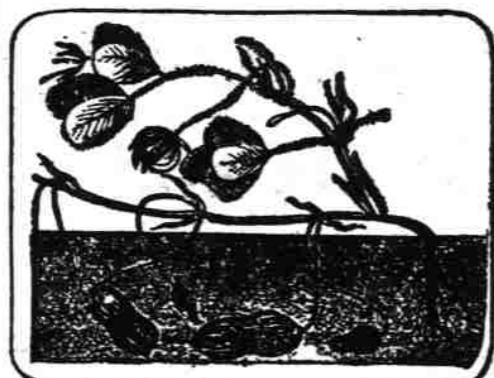

One of Most Excellent Crops Farmer Can Raise.

Has Many Bird Enemies and Tender Plant Affords Dainty Rabbits Are Particularly Fond Of—Plan for Harvesting.

In my opinion peanuts are one of the best crops a farmer can raise. They excel corn for feed, especially on poor land. Like peas, they will flourish on thin land, and improve it. They will grow on any kind of soil but sandy land is best as the nuts are cleaner, brighter and smoother. They have great drouth resisting qualities. In this part of Texas peanuts may be planted any time from the last of March to the first of July, writes W. P. Kloster of Sunset, Tex. In the Missouri Valley Farmer. The ground should be prepared by plowing deeply and harrowing thoroughly. Lay off the rows, drop the nuts and cover two or three inches deep. I take off the front part of my single-row planter and use it when covering the seed. The hills should be about a foot apart in the drill and the rows three feet apart. Put in plenty of seed, for the mice and moles will get some and some may not be good. It is best to plant the whole nut. Soak them for 24 hours before planting, to soften the hull. After draining off the water, just before planting, pour kerosene oil over them to keep away the moles.

The peanut has many enemies, and no wonder. As soon as the tender plant appears the crow is apt to pull it up. It is best to protect the nuts by fence from the rabbits. The tender plant is a dainty they like. At harvest time, when you turn the nuts up to the sun to dry, the crows come once more. Since the vines are as valuable as the nuts, great care should be given to the harvest. If there is plenty of barn room they may be hauled in at once and scattered thinly over the floor, leaving doors and windows open so the air can circulate freely. Some haul and put in a flat topped shed or barn to cure them they are out of the way of predators, and they can quickly be put into the barn on the approach of rain. But for a large crop the best way is to set up poles in the field about six feet tall and shock the vines loosely about two feet in diameter. Don't press the vines down. It is best to let the vines cure a day or two before shocking if the weather will permit. As soon as they are thoroughly cured hurry them to the barn. Rain rapidly destroys their feeding value.

To plow them up take off the mold board from an ordinary turning plow. The dirt will fall through, and the vines together with the nuts will be turned to the side. They should then be shaken and turned up to the sun. Avoid all the dirt possible, as it will cling to the vines and lessen their value as feed. A small crop may be

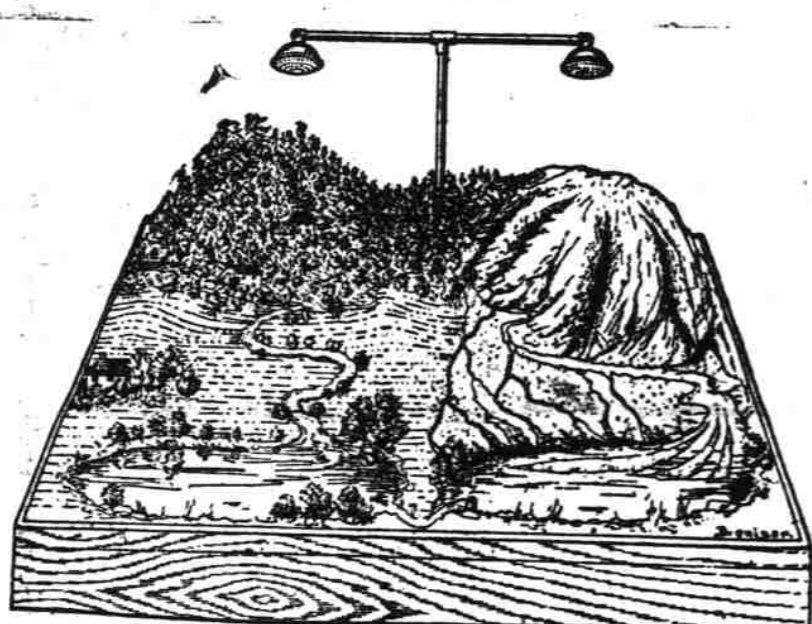

How the Peanut Grows. The Vine Blossoms Along the Stem. After the Flowers Fall, the Ovaries of the Plant Enter the Ground Where the Pods Are Matured.

harvested by running a common spading fork under each vine and turning out vine and all. In soft ground they can be pulled by hand.

The feeding is a small problem. The stock only ask a chance. Cows and horses will eat first the nuts, then the vines. The dry vines are not good for hogs, but they will fatten on the nuts. The vines and nuts together form almost a balanced ration. I knew one man who fed his horses peanuts and bran, and he claimed it was better than corn. At all events, his horses were fat.

WORKING EROSION MODEL FOR SCHOOLS

Model Showing the Effects of Rain-Fall Upon Two Adjacent Hills, One Covered With Forest Growth and the Other Devoid of Such Protection.

In the lake, and the gradual opening up of watercourses through them, are all typical of the processes constantly going on in nature and show strikingly the close relationship between forests and surface formation. It is the same process of erosion on a larger scale which, after the destruction of our forests, causes the removal of the top soil from our slopes, cuts them up into gullies, and deposits sand and gravel upon the fertile alluvial soil of the bottom lands, in storage reservoirs, or in the channels of streams, where it impedes navigation and causes overflow.

HARDY QUALITIES OF MULES

Horses Cost More to Mature and Also Command Lower Prices—Farmers Should Co-Operate.

A mule costs less to mature than a horse. It will out-sell a horse from \$5 to \$15, depending on the section of the country where you are in business. The average price paid for mules is \$9 above the average price paid for horses in 1911, according to the year-book of the United States department of agriculture.

A mule will earn its board after it is two years old if handled carefully. Up to the weaning time the mule will cost little more than \$10 or \$15. The next eighteen months of the mule's keep will be the most costly. Figuring the cost of hay at \$20 a ton and the cost of oats at 40 cents a bushel, it will cost about \$30 to grow the mule to maturity. Yet when it is sold it will bring from \$150 to \$300.

It is not necessary for one to own or buy pure-bred mares to grow the best mules. Any mare that will rear a good colt will rear a good mule. Yet the better the grade of mares the better will be the offspring. In most communities there is a breeder who owns a good jack. If not, it will be possible for a few interested farmers to co-operate and buy a good jack. They should be able to buy an excellent jack for from \$1,000 to \$1,500.

Pasturing Too Closely.

If the sheep are compelled to dig in the pasture for their food they are very likely to eat the roots of the grass. It is a far better plan to have two pastures and allow them to graze in one while the other is allowed to catch up and make a good growth.

PATENTS

OVER 25 YEARS' EXPERIENCE. TRADE MARKS DESIGNS. ANYONE sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. HANDBOOK on Patents sent free. Oldest agency for securing patents. Patents taken through Munroe & Co. receive special notice, without charge, in the Scientific American. A handsomely illustrated weekly. Largest circulation of any patent journal. Terms, \$3 a year, four months, \$1. Sold by all newsdealers. MUNN & Co. 361 Broadway, New York. Branch Office, 677 St. Washington, D. C.

TO BOOST BUSINESS

In Order to Boost

OUR SHOE BUSINESS we are throwing in some inducements. With each pair of Boys' Oxfords we will give him choice of a base ball, bat, mitt or a mask.

And to the Girls for each pair of Oxfords or pumps purchased from us we will give a painting outfit, a stick pin or a pair roller skates.

We have a line of the renowned Crossett Oxfords that we are closing out at a sacrifice. Oxfords worth \$4.00 to \$5.00 at \$3.48 and \$3.98. Cut prices on skirts and suits to close out.

See us for everything in dry goods, notions, silks, poplins, all colors, 15c to 25c. Ratines, all colors, from 25c to \$1.50 per yard. Black peau de soie silk usually sold at \$1.25 to \$1.50, our price \$1.00. New lot of Bulgarian silks fresh from the looms. Pretty line of panier silks worth 39c, our price 25c. Some beautiful patterns in cotton foulards 15c values our price 10c. The new splash voiles put up book fold and a yard wide, these are soft clingy goods—they come in pink, navy light blue, tan, lavender and black, worth 30c, special at 25c. Ripplette in all the best colors at 15c. Some beautiful patterns in the new, soft, clingy crepes at 25c. All calicoes at 5c. Good apron gingham at 5c. Some 15c Hickory stripes in short lengths, 2 to 10 yds. at 10c per yd. Some specials in shirting and pants cloth worth 20c, 2 to 10 yd lengths at 12c. Good quality black sateen petticoats at 50c and the best value we have ever had at \$1.00.

Whit leather hose for men, women and children at 10c per pair. These hose are like their name indicates, tough as whit leather. You can buy nothing better at the price. The wonder hose 4 pair guaranteed to wear you 4 months without darning, per box of 4 pair for \$1.00, and beyond a doubt one of the best hose ever sold on this market. They come in men's, women's and children's sizes in black, tan and white. There are a thousand other things we might mention that is of the very best selected merchandise and all at Bed Rock Prices.
