Feur-fitths of Government Employes Are of the Republican Faith.

Washington, May 11.-Postmaster General Burleson's annonncement of an executive order to require all fourth-class post masters now in office, or candidates for prospective appointments, to submit to a competitive examination, is a victory for those who contend that the Civil Service has been more or less abused by taking in many officeholders by executive order, as a first step tc-ward the correction of such

abuses, Mr. Burleson in his discussion of the situation indicates that the Administration wishes to take the fourth class postmasters out of politics, but it also desires that the Democrats be given an equal show at these places with the Republicans.

As a matter of fact it is claimed that fully four-fifths of the Civil Service employes are Republicans, and two-thirds of them obtained their places, not in the regular way, but through executive orders or some other scheme to place them on high ground in case of political upheaval. A Democrat recently in applying for a place which he did not expect to get, in his application to Secretary Mc-Adoo, declared that if a Gatling gun was placed at each corner of the Treasury building and opened leaving the building, there would not be the least danger of killing Work on the school building is a Democrat. OW do you measure the value of a bargain? Suppose you bought an engine that did practically all of your hardest work for you, sawing, pumping, grinding, etc., and that saved so much money that it soon paid for itself. Would you call that a good bargain?

An I H C engine will do all that, and more. Having paid for itself, it works steadily year after year until, like our Clay County friend who has used an IHC engine for six years, you will say, "My IHC engine is the best bargain I ever made."
