ALL OF OUR READERS.

Mrs. James Lyons and daughter, Miss Mary, returned from Montgomery, Ala., Sunday Mrs. Lyons sustained a badly broken arm some weeks ago, but is rapidly improving.

Owing to success among some of the old folks, the usual annual fa-la singing at Faith will not be held this year.

L. J. Klutz, of Granite Quarry, Gold Hill township, has decided to be a candidate for county commission, announcement of which he made known Saturday. Mr. Klutz is one of the best farmers and business men in the county and will make a splendid official if elected. The editor has known Mr. Klutz for a number of years, and while THE WATCHMAN is not committing itself to any particular candidate, feel sure no mistake will be made if Mr. Klutz is elected.

School Entertainment.

Jackson College School, Morgan Township, District No. 8 will give an entertainment next Saturday and Sunday night, April 4th, beginning at 10 in the morning. The play at night will be U. S. History. The public is invited. Addresses by able speakers.

Mrs. C. M. Caldwell, principal.

New Residences.

Spring time is here and with it there is much activity in regard to building new homes. Building Inspector, John W. Webb, has issued several permits in the past few weeks, and states that he expects more building this year than for several years past. Residences are going up all over the city. People are tired of not being able to rent a house when they need one, and are determined to build their own home.

W. M. Harris Retires From Grocery Business

John G. Heilig having bought out W. M. Harris, will conduct the grocery business formerly carried on by the retiring merchant. Mr. Harris for a number of years has been identified with the grocery business in this town. He has not announced his future plans.

Spark's Shows to Open in Concord.

Spark's show will open in Concord Saturday, April 11, go next to Charlotte and return to show here on April 14. His idea for not exhibiting here at his winter home first is to get in better shape to prove to his many friends here that he will give them the same old performance they have ever witnessed. By the time the show turns here all the rough edges of a winter's rest will be whipped off and a regular mid-summer spectacular enjoyed. So every one is asked to wait patiently for the spring opening of the big show. See advertisement in this paper.

Whitehead Klutz at Home.

Our townsman, the ever courteous young Whitehead Klutz, Secretary of the International Joint Commission, is now at home from Washington for a short visit. As secretary of the commission composed of six members, three from the United States and three from Canada, he is engaged in settling complaints arising out of alleged violations of international law between the two countries. He will be in Washington April 7th to dispose of a \$2,000,000 complaint in which a hearing has just closed at Detroit, Mich.

Two New Trains on The Western Road.

It is rumored by good authority that two new trains, Nos. 37 and 38, will soon be installed on the western division of the Southern. It is believed the new trains will go on some time next month. Their schedule will be to connect No. 37 going west with No. 38 going south and No. 38 going north. This arrangement will add some additional trainmen who will reside among us.

The new trains will most likely be in charge of Capt. Claude Morrison and Capt. Nat. Bost. These are among the oldest men on the line.

A Brilliant Reception.

On last Friday from 4 to 6 and 7:30 to 10:30 o'clock, Pastor and Mrs. C. A. G. Thomas gave a brilliant reception in celebration of their silver wedding.

Some of those who assisted in greeting and inviting the guests were Miss Julia Crouch, Mrs. G. Foster, Mrs. A. L. Smoot, and Mrs. C. M. Henderlite, whilst the beloved pastor in receiving, was assisted by his sons, Messrs Robert and Julian.

The halls and drawing room were beautifully and artistically decorated with palms, ferns, daffodils, carnations and trailing greens. The dining room where tea, wafers and other accessories were served by a number of elegantly gowned ladies, bore a dazzling brilliancy predominating with pink and green.

The repetition of Dr. and Mrs. Thomas' marriage by Rev. Mr. Kirk, made to conform as nearly as possible to the original twenty-five years ago was one of the interesting and impressive features of the evening.

Many handsome and elaborate as well as useful gifts were donated to the pastor, and his lady during the evening hundreds of guests called to partake of their hospitality and to congratulate them upon the happy event.

Capt. J. R. Nicholas Withdraws From Race of Rowan Superior Court.

A somewhat surprised announcement was made Friday by Capt. J. R. Nicholas when he stated that his business interests, the uncertainty of the outcome and the short time intervening between now and the primaries necessitated his withdrawal from the race. At no time has he anticipated anything but a friendly fight between himself and his opponents and leaves the race with the good will of all. He desires to express his good will and gratitude to his many friends who had given him encouragement and proffered aid in his race for the office.

The candidates left in the field are the present incumbent, J. Frank McCubbin, A. L. Smoot, and Robert Van Poole.

I. D. Brown, Panama Exposition Commissioner.

Governor Craig appoints a young Salisbury and Rowan man to represent the State, at the Panama-Pacific exposition in San Francisco next year.

The commission officials are: General Julian S. Carr, of Durham; Stuart W. Cramer, of Charlotte; C. E. Hutchinson, of Charlotte; John C. Drewry, of Raleigh; Hugh McRae of Wilmington; C. A. Holderness, of Tarboro; T. D. Brown, of Salisbury and J. Van Lindley, of Greensboro.

The question of providing money for the State's representation was raised at the 1913 General Assembly but was not acted upon, so the Governor has appointed men of means who will bear their own expense.

The opening of the Panama Canal celebrates an event significant in the destiny of our southland, and North Carolina should not fail to represent to the world her resources and possibilities. This is the beginning of the opening of southern productions and the Tar Heel state must reap her share. Virginia has contributed \$40,000; Tennessee \$37,000; Arkansas \$75,000. Other states will probably provide for their exhibits in the near future.

Ample Funds for Confederate Reunion Committee.

It looks as if \$50,000 will be raised for the Confederate reunion organization. Twenty-three thousand dollars have been paid in \$7,000 more pledged, and fully \$15,000 in sight. Last Friday was 'bulldog day' and the women were selling them on the at \$1 each with great success. Adjutant general Forrest declares the reunion will be one of the most successful ever held. Festivities on an elaborate scale have been obtained so much for Jacksonville, Fla.

ERRORS IN MANAGING SOILS

Soil Acidity is Responsible in Many Instances for Failure of Seeding of Alfalfa and Clover.

To be careless in the treatment of the soil is as fatal to profitable agriculture as to be indifferent in the care of live stock upon the farm, writes A. R. Whitson, chief of the State Laboratory, established by the last legislature to aid Wisconsin farmers.

We seem content to stop with the knowledge that there is something decidedly wrong with our fields. We know that at one time they yielded much better crops, but we willingly rest with the conclusion that they are "wearing out." Large areas of soils even in this state are acid, and, as a consequence will not yield as plentifully as they should. We have to determine by means of a very simple test whether or not our fields are acid, and if so, apply a known and dependable remedy.

When a farmer finds that he cannot get a good stand of thrifty clover on his land, when he sees that certain weeds, such as corn spurry and sheep sorrel, grow readily in his fields, he could, by obtaining a small quantity of blue litmus paper at his drug store, easily test his own soil to find if it is acid. Soil acidity is responsible, in many instances, for the failure of seeding of alfalfa and clover.

Growing in soils well supplied with lime these plants are able to obtain the nitrogen essential for their growth through the work of certain kinds of bacteria or germs which penetrate the smaller roots, forming lumps or swellings, called nodules. Each of these nodules is a tiny chemical laboratory, in which nitrogen gas is built up into compounds for use by the plant.

MANAGING SHEEP IN WINTER

Where the Weather is Severe Ample Shelter and Food Must Be Furnished to Prevent Loss.

Even at the far south, sheep should be provided with comfortable sheds, and in those portions where snows fall, and the food is destroyed by frost, hay and roots of good quality and in abundance should be furnished. Where the winters are severe, shelter and food must be provided. The sheep should be brought to the pens early in the season. At the very first of the feeding season, the oldest and poorest of the flock should be separated from the others and put upon higher keeping. They should have grain in abundance and be made ready for the butcher as soon as possible. Too many sheep must not be kept in a single pen. If the pens are small, or the food is poor, large flocks will soon become diseased, and the owner will sustain a heavy loss.

A good shed, which is comfortably warm and thoroughly ventilated, should be provided. Sheep can endure cold much better than they can impure air. Still they should not be exposed to the action of wind or rain, and the temperature of the pen should not run extremely low. Small pens, which are quite warm, should be provided for the use of sheep at lambing time, and for sheep which do not own their lambs. The bottom of the shed should be kept constantly dry. Plenty of straw or swale hay should be used for bedding.

An occasional feed of bright cornstalks will be relished by sheep, and do them good. It is not well to keep breeding ewes very fat; on the other hand, it is simply ruinous to allow them to get very thin in flesh. A variety of food will be relished, and will give better results. As in summer, salt should be kept in a box to which sheep can have free access.

NECESSITY FOR PLANT FOOD

Can Farmer Afford to Take Risk in Seed, Kind of Fertilizer Used and Culture Employed?

The crops which you are growing average to mature in 60 to 90 days. The seasons are short. The plants must have their food every hour they are in the soil, and it must be available or they will not grow.

If you think you can trust quick-growing crops on insubstantial fertilizers that is for you to determine, but in my judgment, taking the seasons as they go, wet and dry, hot and cold, you will find you will be the loser, says a writer in an exchange. You have to take a great risk as to the weather. That is the largest factor in raising crops.

Can you afford to take any risk in the seed, the kind of fertilizer used, or the culture employed, factors over which you have control?

Practical Farming. When a milk farmer begins to pick himself up and grow ambitious, one of the surest signs is better stock, better feed. When a truck farmer begins to really hustle, he commences by using more manure. Did you ever know a really successful practical farmer who didn't feed well both his cows and his crops?

Straight at It There is no use of our "beating around the bush." We might as well cut with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable character has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise.

Horribly Mangled at Barber Junction.

A traveling man, H. T. Price of Asheville, North Carolina, was mangled beyond recognition at Barber Junction, Tuesday morning while endeavoring to board freight train No. 72. The man left here on No. 15 westbound, got off at Barber, and attempted to return on incoming freight. He was caught under the train and killed.

He was identified by receipts in his vest pocket. None of the train crew saw the accident. As he ran to board the train, a number of citizens felt sure he would be killed and turned away to keep from seeing it. The station agent saw him ground to death, nearly half the train having passed over his body. It is thought he intended going to Greensboro, boarded the wrong train from Salisbury, got off at Barber and tried to correct his error by catching the freight back. The horribly mangled body presented a ghastly sight. It was brought to Sumner's establishment about noon and prepared for burial. A telegram from relatives at Asheville requested the remains to be sent there.

Agt., Charlotte, N. C.

MAISON, GE. CHILD

Made Strong and Well by Vinol. When we tell you that Vinol is the best remedy in our whole stock for making weak, purifying children strong, robust and happy we are only telling you what has been proved by hundreds of mothers.

J. L. Fickling, Macon, Ga., says: "My child was very thin and delicate, no appetite, nervous, and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite, and has gained in weight. I wish every mother knew what Vinol will do for delicate children."

What Vinol did for this little girl it will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy color. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not.

P. S.—If you have a baby try our Sazo Salve. We guarantee it. Smith Drug Co., Salisbury, N. C.

City Cleaning.

It is a fact worthy of note that the citizens are doing as requested by Mayor Woodson and gathering their trash, tin cans, buckets and other rubbish in piles ready for the city wagons to haul away on April 1. The colored, as well as white people are both doing their part. If the town be thoroughly cleaned of all old rubbish and every citizen see to it that nothing calculated to produce flies or mosquitoes is left about their premises there will be less sickness. The United States Government cleaned up the filthy Islands of Panama, annihilated mosquitoes, and made the Islands inhabitable. A very little work on the part of each family will improve Salisbury one hundred per cent.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.: "I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sensitive Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Salisbury Lady Made Glad After Having Given up in Despair For Over Two Years in which she was Deprived of Hearing and Sewing.

The following testimonial speaks for itself: Salisbury, N. C., March 26, 1914. R. D. No. 8, box 84. Dr. Z. F. Highsmith, 206 South Main St., Salisbury, N. C.

Dear sir: My wife's eyes failed so much for some years that she could not see to read hardly at all for several years. About two years ago she had her eyes tested here by two or three, one was a specialist, and he examined them and after testing them he said that he could do nothing for her eyes, so we just gave up in despair and thought her case hopeless until I met you and gave you a trial. After you examined and tested her eyes I then entertained some hope. I am glad to say that you gave her a pretty good fit in glasses. She can now see very well to read any common print and can see very well to thread a needle, which she has been unable to do for years. I only wish I could have met you sooner. Doctor I do not write this for your benefit alone, but I hope some one else will be benefited by this testimonial. I wish you good success. Yours truly, ALEXANDER SHAVER.
