A RASCALLY LAW.

The old homestead law, that permits a man to carry his property in his wife's name and the statute of limitations, all of which are nothing more or less than shields that scoundrels use to hide behind in order to beat out of honest debts, ought to be repealed. And a law should be enacted to compel a rascal to engage himself on some public work and replace money or property stolen. Then the families of criminals should be supported from the labor of said criminals. The fellow who has nerve enough to offer himself for a member of a lawmaking body on this platform, other qualifications being equal, will receive the support of the thinking people of the county. —The Marshville Home.

The pendulum swings back and forth. What one generation conceives to be just and proper the next generation, looking at only one side of the subject, considers unfair and discriminative. Before these statutes were made into law every jail had its debtor's cell and the poor were kept poor like a half-starved cow in a grassless pasture, and, as a result, the owner of the cow gained nothing, for of course she was unproductive and unprofitable. Such is narrowness gone to seed. Can we afford to return to such conditions? THE WATCHMAN, though in sympathy with those who lose by the rascality of others, sees no remedy in the repeal of these laws. Their repeal will merely mean a lower or poorer type of laborers with absolutely no gain to the creditor. The creditor loans, as the merchant sells goods, with his eyes open, knows or could ascertain the rating of his customer, knows of the homestead exemption and takes his risk voluntarily, and they would continue to take such risks should there be no such provisions. This swing of the pendulum, however, as history teaches, will not stop by taking the poor man and his family's home for the creditor, the Shylock, will then call for his pound of flesh. Yes, it means to go back one hundred years or more, it means to re-establish the debtor's cell and, not only pauperize but stigmatize thousands of people merely because they have been unfortunate. Every man who fails to pay is not dishonest and it will be a pretty spectacle for North Carolina should she put stripes on and penalize her poor and force them to work in prisons to support their families instead of the present prosperous conditions that prevail. Nine times out of ten the men who get in debt or encouraged to do so by the fellow who is anxious to make a sale, and, it seems to us, if there is guilt the seducer is generally as bad or worse than the seduced. No one is compelled to furnish money or goods to another and should it be done without value received the responsibility is with the creditor.

Another point that should be considered is: When the homestead was enacted fifteen hundred dollars meant a great deal more than it does today. It often meant more than one hundred acres of land and, comparatively, a comfortable home, while today a fifteen hundred dollar homestead is a very humble affair. So, if there is any better provision for the wives and children, even of criminals, than the present reputable state of affairs, we are not aware of it. The merchant fails because his debtors do not pay, so with the jobber, the importer and the manufacturer, but after the homestead has been taken these conditions will remain without redress. This paper has no time for socialism, as it is understood, but believes every man should have a home and it is not an improper function of the State to aid him in getting and keeping one.

Germany is Getting it in the Neck

The Trespasses are Still Progressing But in the Opposite Direction.

Petrograd, Sept. 8.—Refugees and deserters from the armies of Austria in Galicia, according to information obtained in official quarters today, have told the Russian military authorities that their losses have been enormous. A number of Austrian regiments were decimated. The Austrians, according to these refugees, are fearful of an uprising in the Crowland of Bukovina. There have been published here, from individual newspaper correspondents, statements which confirm previous reports of the disorganization in the army of Austria. In Galicia, it is declared, the Austrians have made use of explosive bullets.

Other correspondents declare that a revolt has broken out in the ranks of the Turkish army at Adrianople on account of a threatened famine. Still others telegraph that the news of Russian victories in Galicia has provoked enthusiasm particularly in Bucharest, Romania, where the Russian National hymn was sung in one of the theaters. Paris, Sept. 8.—11:50 p. m.—An official communication issued tonight by the French War Office says: "The left wing of the German forces, in their movement of retreat, having crossed the Petit Morin River, with a view to protecting their communications, have made violent but unsuccessful attacks against that part of our forces occupying the right bank of the River Ourcq."

"Our English Allies are continuing their offensive tactics in the direction of the Marne on the heights to the North of Soissons. Our troops are progressing favorably through laboriously. "On our right wing the situation is good before Nancy and in the Vosges. "A severe engagement has been fought in the center with an alternative advancing and falling back."

London, Sept. 8.—11:54 p. m.—An official statement says: "Fighting has been in progress further to the right along the line which includes Montmirail and Sompuis, neither side gaining advantage. "Farther to the right again, from Vitry-Le-Francois to Sermaise Les Bains, the enemy has been pressed back in the direction of Rheims. "At Lunville an attempt by the Germans to advance has been repulsed. "Pressure against the enemy continued all along the Allied front. The British forces have been engaged all day but the enemy opposed to it after stubborn resistance, retired and is now crossing to the North of the Marne. "The Fifth French Army has advanced with equal success and reports many captures. "The Sixth French Army on the Ourcq has been heavily engaged, but here also the enemy has been driven back. "The German Army has suffered severely along the whole line, the advances having been resolutely pushed home. "The British forces again has sustained some casualties, but the number is small in relation to the nature of the fighting. "The result of the two days operations up to the present is very satisfactory."

Paris, Sept. 8.—11:55 p. m.—A sergeant of infantry wounded in the engagement near La Ferte Gaucher says: "I heard cannonading from Friday evening. Saturday night we received an order to retire but during the night advanced again and took a position on the hill side. Early Sunday morning the enemy tried to turn our left. We were ordered to hold them until the troops around Meaux had pushed back the Germans there. "At noon the enemy commenced to retire in disorder. They rallied however, to the North of La Ferte-Gaucher, where the engagement continued all night. Monday morning the enemy weakened again and fled. "We pursued them 20 miles, keeping up a steady fire that worked havoc in the German ranks, while not a shot was fired on their side. "We succeeded in cutting off a detachment and took seven cannon, two machine guns and many prisoners. One sergeant of infantry admitted that his men had scarcely any ammunition and had been ordered to economize to the utmost limit possible. "We learned afterwards that an order of the day has been read to the troops announcing six or seven great days for the French."

An infantry officer, wounded north of Meaux, said that the Germans seemed to be tired out. He counted six hundred dead in a single trench. The French infantry charged as at Charlotri against machine guns, and in spite of strong positions broke the enemy's line. The retreat of the Germans was precipitate. They seemed to lack ammunition. "GET OUT OF FRANCE" Paris, Sept. 9.—12:40 a. m.—The battle proceeding to the East of Paris appears to be the most

important and most stubbornly fought combat of the campaign.

Military authorities decline to indicate the number of men engaged but hundreds of thousands are participating on both sides.

According to those in position to obtain authentic information the casualties have been so great that the Germans have requested an armistice of 24 hours. The armistice was refused with the response: "We grant you that time to get out of France."

ALLIES TAKE 80,000.

Paris, Sept. 8.—10:54 p. m.—Accounts of wounded soldiers who reached Paris late today indicate that the result of the three days fighting in the Champagne country has been more favorable for the Allies than at first supposed. They say the German losses in killed were enormous and that a great number of prisoners were taken. One French officer estimates the prisoners at 80,000. The Champagne district includes parts of the departments of Marne, Ardennes, Aube and Haute-Marne.

RUSIANS IN FRANCE.

Rome, Sept. 8.—Via London 12:45 p. m.—According to The Rome Tribuna there is in France today a total of 250,000 Russian troops. This newspaper attributes Emperor William's presence at Metz to this concentration of the Russians.

The steamer Mauretania which reached New York September 8 brought the first reports of extensive landing of Russian troops at French ports. The strict British censorship prevented transmission of this intelligence by cable. Cables to Washington dated August 27 corroborated the report of the Mauretania passengers. From these two sources it was gathered that England early in the war had placed more than 80,000 Russian troops in France by means of transports sent North of the Scandinavian Peninsula to Archangel.

With cotton selling at 8 cents a pound there are many people who are sorry they ever heard of Europe and Woodrow Wilson — Davis Record.

But if Roosevelt was president how much worse would it be? Cotton would likely go to 5 cents as it did when McKinley was on the job, we would have an army in Mexico, with Japan bombarding our ports, our little navy destroyed, probably mixed in the present war and about as much distress and ruin in America as there is in Europe. How thankful we should be for what we have escaped.

Mother of Eighteen Children.

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablets are For Sale by All Dealers.

Carranza Will Run in Mexican Race.

Washington, Sept. 8.—The basis for President Wilson's recent assertion that he believed Carranza and Villa would co-operate in restoring constitutional government in Mexico was revealed today when it became known that General Obregon, personal friend of Carranza, had signed Villa's proposals for an electoral program. General Villa's proposals were laid before Paul Fuller, representative of President Wilson, at a recent conference in Chihuahua. The President later told callers the proposals did not appear unreasonable. Mr. Fuller interviewed General Carranza in Mexico City today and it was reported the first chief also assented to Villa's program. Carranza already has complied with the first proposal by calling a general convention for October 1 to select a provisional president. The belief prevails here that Carranza will resign in favor of a civilian as proposed by Villa and that he then will wage an active campaign for the presidency. Villa is not expected to support Carranza at the polls. It is understood here that American forces will not be withdrawn from Vera Cruz until the election for permanent president is held.

Cardinal Della Chiesa Has Been Elected Pope

Rome, Sept. 8.—Cardinal Della Chiesa has been elected pope in succession to the late Pius X. The new pope will assume the name of Benedict XV.

Cardinal Giacomo Della Chiesa was created a cardinal May 25, 1914. He is the archbishop of Bologna, Italy. He was born at Pegli in the diocese of Gages November 21, 1854 and was ordained a priest December 21, 1878. He served as secretary of the nunciature in Spain from 1888 to 1897, in which year he was appointed secretary to the late Cardinal Rampolla.

It is reported on good authority that the delay of the conclave in selecting a pope was due to a speech of Cardinal Mercier of Belgium, who said that present conditions in the world but especially in Europe made it impossible for the cardinals to perform the supreme duty of their position with out a reference to the horrors of war.

The writer had the pleasure of attending the Turner family reunion, held near Mt. Vernon, three miles above Woodleaf, on the 26th of August. Early in the morning buggies and wagons began coming in loaded with people who brought baskets, ice, ice cream freezers and other supplies, and, by 11 o'clock a large crowd had assembled. At half-past 11 Henry Turner called the crowd together, and, after a few remarks, introduced his brother, Pinkney Turner, of Davis County, who made a fine address to the people. Mr. Turner stated that this was the first time that the family had been together in 40 years. He spoke feelingly of the time when he and his brothers and sisters were children at the old home, and how they were instructed by a good father and mother to grow up to be useful men and women to honor and fear God, and closed his remarks by thanking God for his goodness during his past life, entreating his brothers and sisters to be faithful to God to the end, so that they could all meet together in heaven. Henry Turner, then read a history of the Turner generation from the time that their forefathers came from Maryland in 1798 down to the present time. The family at the present consists of the following brothers and sisters: Henry Turner of Rowan County, who is a local preacher in the Methodist church; Pinkney Turner of Davis County, who has been and old time school master; Wilson Turner of Rockingham, N. C.; George Turner of Rowan County, and Mr. L. J. Radisel, Mrs. Sarah Painter and Miss Catherine Turner all of Rowan County. Dinner was then announced and the people all gathered around the long table that had been put up on the lawn. A picture of the crowd was taken by the writer, after which the crowd helped themselves to the good things that were heaped on the table in abundance. After dinner the crowd enjoyed themselves in talking over old times, drinking lemonade, having their pictures made, etc. About 5 o'clock the crowd gathered on the lawn and listened to A. B. Gentry, one of the relatives of the Turners, who sang "God Will Take Care Of You," in a very beautiful manner. The crowd was then dismissed with prayer by Pinkney Turner, when all departed for home having enjoyed the day very much. The oldest man at the above reunion was Louis Wilhelm of Mt. Vernon, an old Confederate veteran, who is 85 years old. Uncle L. U. said that he was shot in the hand while in the army. OLD TIMER

Craig Issues Call for Mass-Meeting of State Farmers.

Raleigh, Sept. 8.—Governor Craig, just back from Wilmington, has issued the following call to the farmers of North Carolina: "My presence has prevented me from earlier joining H. Q. Alexander in an official call for a general mass-meeting of the North Carolina cotton and tobacco growers to be held in Raleigh Friday, September 11, at 11 o'clock. I earnestly urge a large attendance of all interested farmers, both Farmer's Union members and others. The times demand united action and all producers of cotton and tobacco participate equally in the meeting. Believing also that it is necessary to work through local organizations of our cotton growers, I further recommend that county meetings be held at every court house as early as possible to mature plans for a wise holding movement, proper warehousing and adequate financial support. Results From one Pure Bred Berkshire Brood Sow for one Year.

(By R. W. Freeman) The sow is owned by O. J. Kriker R. F. D. 1, Mt. Ulla, N. C. On July 29, 1913, the sow farrowed a litter of eleven pigs. These pigs were sold before Christmas as porkers and brought a total of \$167.09. Another litter of seven pigs was farrowed January 12, 1914. Two of these were sold under usual size for \$21.85. The remaining five sold June 27 for \$79.95. A third litter farrowed June 15, 1914, consisting of nine pigs. These were six weeks old at the expiration of the year from the farrowing of the first litter of pigs mentioned above. This one brood sow returned a total of \$298.89 in one year and in addition had another brood of nine pigs which were six weeks old at the expiration of the year. Valuing these pigs at \$5.00 each, the total returns would be \$313.89. The sow and pigs have a run on a permanent pasture of timothy, orchard grass, red top, and red clover. They are fed skim milk, wheat bran, mill feed, and corn. The actual net profits are not known, as no record of the exact expense of feed, etc., was kept. This however, shows that good returns can be made from small investments in hogs when they are managed properly.
