**A Thought For Today**

Truth is the most satisfactory nutriment for the mind. Beauty for the imagination, and Love for the heart.  
—Tuckerman.

Senator McNider has introduced a bill in the legislature to prohibit newspapers accepting railroad passes in exchange for advertising. We wonder who put Mr. McNider up to this or, what reason he has for preventing such a legitimate barter. He had just as well make it unlawful to barter in produce or any other commodity. Why not pass a law to prohibit a newspaper accepting a load of wood on account? or, make it unlawful for the merchant to accept eggs in exchange for sugar, coffee or jeans?

Our sympathies are always with the poor, with the laborer, the producer, the man who in the last analysis pays the bills, but justice is due all, rich and poor alike. A bill to increase the interest rate to 8 per cent. has been presented to the legislature, and this looks like a hardship on those who have to borrow, but is it? Well, by requiring, as most money lenders do, a bonus of 4 to 8 per cent. in addition to the present 6 per cent., which means 10 to 14 per cent. it would be a reduction, provided a law is also enacted making it a misdemeanor to exact a bonus or other fee. 6 per cent. is little enough and is a just rate, but the money lender, under present laws cannot obtain this rate. After he pays the required tax on his cash, then on his mortgages, or notes, this figure is reduced to 4 per cent or less, hence the resort to the demand for a bonus and a real 10 or 14 per cent. rate to the borrower. This condition has come about by evolution and deserves consideration, or re-adjustment. The tax on money, mortgages and notes has come since the 6 per cent. rate was fixed and has had the effect of reducing the earning power of cash and at the same time has increased the cost to the borrower.

versy, now they have petitioned for the protection of their priests and nuns who are reaping the results of their numerous infamies there, which they wish to occuine. It has been suggested that the United States and Spain, a government dominated by Romanists, act jointly in suppressing the Mexicans, and Mendav Senator Fall of New Mexico, probably influenced by Romanists, advocated in the United States Senate that the United States, and the Romanish nations Brazil, Argentina and Chile, put a small force into Mexico to police the country and keep order, or rather get some of our soldiers shot, the flag insulted and a war started, all for the sole purpose of aiding and abetting the Romish politicians and plotters. These people brought their troubles upon themselves and a American citizens need to do it keep hands off and let them take their medicine. If a religion in three hundred years trial cannot do any better than to hatch a revolution, then it is good time for that religion to be superseded by something else, at any rate a change can not be much worse than the conditions that have existed heretofore. May we continue to hope that President Wilson will remain firm, but if interference must come, let's have no Romish plotters to deal with or grab the spoils and glory of our victories.

**How To Give Quinine To Children.**  
FEBRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2 ounce original package. The name FEBRILINE is blown in bottle. 5c each.

Liquor is doomed in North Carolina. The House on last Friday by an overwhelming majority decided that the people of the State meant what they said when in 1908 they voted against the sale of intoxicating liquors in North Carolina. It has taken some time to get what they want but it is almost here at last.

**HOW A DEEP SEATED COUGH**

**And Sore Lungs Were Overcome by Vinol—Mr. Hillman's Statement of Facts Follows:**  
Camden, N. J.—"I had a deep seated cough, a run-down system and my lungs were awfully weak and sore. I am an electrician by occupation and my cough kept me awake nights so I thought at times I would have to give up. I tried everything everybody suggested and had taken so much medicine I was disgusted. "One evening I read about Vinol and decided to give it a trial. Soon I noticed an improvement. I kept on taking it and today I am a well man. The soreness is all gone from my lungs, I do not have any cough and have gained fifteen pounds in weight and I am telling my friends that Vinol did it." —FRANK HILLMAN, Camden, N. J.

It is the curative, tissue-building influence of cod's livers aided by the blood-making, strength creating properties of tonic iron, contained in Vinol, that made it so successful in Mr. Hillman's case. We ask every person in this vicinity suffering from weak lungs, chronic coughs, or a run-down condition of the system to try a bottle of Vinol on our guarantee to return your money if it fails to help you.

In reading the records of vice and crime don't get discouraged. Remember that while the world may really be getting better all the time, the modern diffusion of intelligence informs all mankind of every crime committed by any one of them.

According to Billy Sunday, the man who kisses society women very often will die of paint colic. Mistaken tactics, Billy. Spreading the notion that painted faces are the surest way to lead thousands of silly young girls into the habit. Anyhow, Billy, don't be too hard on the society women. They do the world a service by assassinating the promiscuous kissers in this manner and ought to get fair credit for it.

The income-tax returns reveal that a ten-year-old negro girl Muskogee has an income of \$112,000 a year. There are white men who could look that girl if the law of Muskogee would let them.

**HUMOR OF THE DAY**

**Its Effect.**  
"Was the letter of introduction I gave you of any service when you were hunting a situation?"  
"I should say so. It caused the man I handed it to to say, 'No, sir, instead of plain 'No.'"

"Yep, we're goin' to hev the first sane Fourth our village has ever known."

**Popular sentiment, eh?"**

**BAKED STUFFED TOMATOES.**  
Select smooth, firm tomatoes, cut a slice from the stem end of each and scoop out the seeds and a portion of chopped onion and one tablespoon of chopped red pepper pod in two tablespoons of butter, taking care not to let them brown. Add one-half cupful of chopped cooked ham and one cup of soft bread crumbs, moisten with one-quarter of a cupful of melted butter, season with salt to taste, fill the tomato shells and bake about 25 minutes, basting frequently with melted butter.

**GINGER ALE AND MINT CUP.**  
This makes a refreshing drink on a hot day. Make a syrup of one cupful of sugar and one-half cup of water, boiling it five minutes or so. Pour this over a bunch of fresh mint leaves, the juice of four lemons and four times. Let it stand for two or three hours, then strain and add four bottles of ginger ale. Turn into a big pitcher having a lump of ice in it. Serve in high glasses with shaved ice and a bit of mint on top of each glass.

The Panama-Pacific Exposition opened last Saturday with a "bang." Instead of the lone sunrise gun the dawn was acclaimed by salvos of artillery from the batteries on both sides of the golden gate and from the warships at anchor in the bay. President Wilson sent by wireless the spark that set the ball to rolling.
