### Pie About on Equal Struggle between the Germans and Russians.

London, June 6.-The Allies in their offensive on the Gallipoli Peninsals on June 4th captured and held two lines of Taskish s along a front of nearly three miles. In Mesopotamia the British forces have received from the Torke the surrender of Amera and taken more than 2,000 prisoners, 18 gune, a gunboat, barges and steamers. The pursuit of the Turke who were dispursed into the marshes continues.

As in all arench warfare, the Al lies found their general adva on the Gollipoli Pening ed on account of the their forces to penetri tanglement which artillery has not sufficiently destroyed This left other sections open to an enfiladire fire, and therefore part of the ground gained had to be given up. Some also was lost when the Turks counter-attacked.

A gain of 500 wards on a front of three miles in this surt of fight. ing, however, is considered satisfactory by the British, particular ly as it induced the Turks to counter-attack in which they auffered heavy lesses.

Two battles are in progress in Galicia The Russians have made a considerable advance on the driven the Austro Germans back to the Long River; while to the southwest of Lemberg the Austro-Garmane are advancing, although the Russions are contesting every inch of the roads to the Galacian Capital, which is the objective of the Teutonic Allies.

The region north of Arras remains the interesting point on the Western front. Here the Freuch c'aim to have gained more ground, and, according to their report, s topuland Melent German counter-attacks. The Garmans sasert they have repulsed French attacks. The first important bet tle of the Italian campaign is raging for possession of Tolemino where the Italians have mot with the first serious opposition in their advance across the Austrian

frontier. Italian warships have destroyed cables and lighthouses in the Adristic and again have bombarded Monfalcone. There also has been some naval activity in the Baltic, Russian and German squadrons exphanging shots in the vicinity of the Gulf of Riga.

Romania is going through a crisis similar to that experienced by Italy before the latter country entered the war. Those who favor neutrality and those who favor war held counter demonstrations as Bucharest today, where political parties are getting into shape to put forward their views. The general opinion in London is that Rumania will join the Allies when Itlay gives the word and and that Bulgaria will follow her lead.

With the King of Greece suffering a relapse and in a serious condition, no immediately change in the attitude of that country is expected.

### A Doctor's Prescription For Cough An Effective Cough Treatment

One-forth to one teaspoonful of Dr King's New Discovery, taken as needed, will soothe and check dangerous Bronchials and Lung Ailments You can't afford to take the risk of serious illness, when so cheap and simple a remedy as Dr. King's New Discovery is obtainable. G , to your Druggist to-day, get a bottle of Dr. King's New Discovety, start the treatment at ence. You will be gratified for the relief and cure obtained.

Establishment of 710 new rural mail delivery routes to serve 82. 860 families and the extension of ditional families was announced Sunday night by Postmaster General Burleson. Nearly all of the June 15.

### immigration Problem. Galvestion, Tex.—Commenting editorially upon the best way to develop the recources of Texas and the South, the Galvestion News

"Mr. John C. Futrell, who is president of the University of Arkansas, advanced an idea, in addressing the Southern Commercial Congress, that is if not original, unconventional. And it i as sound as it is unconventional. Agreeing with what has come to be virtually the unanimous opinion that the South hee need to increase it production of agricultural wealth, he insisted that the proper way to do it is to increase productive power of those who now sugaged in farming. The News has often set forth the view hat we have need of no larger naugration than may be expectas a result of natural causes, and that to offer artificial indupements can only have the effect o making worse the condition of those who are now engaged in farming. The energy that is being spent to induce immigration would better be expended if it were devoted to the task of bringing about the practice of more efficicient methods of farming. It is not more farmers as it is better farmers that the economic and social conditions of the South repuire. This policy may not com port with the interest of those I we reaches of the San and have who have land to sell, but it is the only policy which will subserve the interests of all others,"

## Neuralgia Palas stopped

You don't need to suffer those agonizing nerve pains in the face, head, arm, shoulders, chest and back. Just apply a few drops of soothing Sloan's Liniment: lie quietly a few minutes. You will get such relief and comfort! Life and the world will look brighter. Get a bo tle to day . 8 onnoes for 25c , at all Druggiets. Penetrates wilness robutty.

# Weather Forecast for June, 1915.

From June 4th to the 12th, frequent showers, round and cool wind

From 12th to 20 very rainy, stormy, cool, with slight hail around .

From 20th to 26th changeable and cool . From 26th to July 3rd, fair,

In some sections of the country will show dry, with thunder gusts. This month only. H. REID. R No. 8, Salisburg, N. C.

Representatives of Russia China and Mongolia, who have been in conference at Kiakhta Siberia, for nearly a year, have concluded a treaty which will determine the status of Mongolia. During the Chinese revolution of 1912 Mongolia declared its independence of China, and was recognized immediately by Russia as an autonomous state. Japan thereupon extended her sphere of influence over Inner Mongolia. By the terms of the agreement now reached China will retain a interfere with the administration of Mongolia's internal affairs. A treaty to this effect was signed Monday by the representatives of three nations.

we have to cheese between faith o su infallible pope or faith in the infallibility of all mankind. They say that man dare not trust his own opinion unless convicted that his opinion will be unerring, By such cophietzs they readily affive at the conclusion that it is more practicable for one pope to preses this necessary power than for each member of the race to have it.

And that is precisely the threadbare argument of every autocrat and princeling who believes in oue-man rule. We might say that it would be more practicable to trust in the wisdom of one king than in that of sixteen mill 100 voters. But one man authori ty has been weighed in the balance and found wanting No one man ou be trusted with the power of deciding for many without real a d probable dauger of his abusing that power.

Mereover, we have found infallibility to be nothing more than an ideal, sometimes a dream and sometimes a nightmare. In real life there is no such thing as an infal'ible human being. We subject all Asheville laundries on we avoid the mistakes of another especially when denied

the right to exercise judgment? I'be ideal papal infallsbility in gross assumption which all reasonable and reasoning beings must reject. If intaligility were possible to human beings it might as readily be conferred on all men as on one. As a matter of fact. it is given to none livery man that ever lived, be he pope or peasant, has proved that proposi-

And it is not necessary that one or all be perfect in order for all that devicable and. Infallibility is an impossible myth, deceiving and damaging to both those who pretend to possess is and to those another, -The Menage
