Dewey Wilhelm Dies From Automobile Injuries

Master Dewey Wilhelm is dead as a result of injuries received last Wednesday afternoon when he was struck by an automobile driven by I. S. Brown, a liveryman of Spencer. The accident happened in front of Wilhelm's home at the Salisbury-Spencer dividing line and it is said to have been unavoidable. The machine was going at a modern rate of speed and, it is said, Mr. Brown, fearing some of the boys standing by the roadside, Wilhelm being in the crowd, would try to run across in front of the machine, called to them not to do so. As the machine came near young Wilhelm, who was standing by the roadside with one foot on a bicycle pedal turned the wheel loose and turning about stepped or so fell that the machine struck him in the chin. His jaw-bones and collarbone were broken and he was otherwise injured. The blow rendered him unconscious and although medical aid was secured at once and he was rushed to the sanatorium he never regained consciousness and died Sunday morning at 5:30.

Tax Assessments Go Up

State Tax Commission Orders Increase. Rates Increased 10 Per Cent.

The State Tax Commission (all in the corporation commission) has increased the assessment on real estate in 77 of the 100 counties of the State, the increase ranging from 5 to 80 per cent. The increase in Rowan is 10 per cent. In one county, Pasquotank, the assessment was decreased 5 per cent., in 19 counties no change was made and in three the assessments are to be passed upon.

The increase ordered, says the News and Observer, will add to the tax books \$80,918,955. This with the increase in corporation excess, bank stock, building and loan associations and public service corporations, will increase the total assessed value of property in the State, based upon estimated returns from three counties not yet reporting, of \$900,000,000. The total value of all property for the year 1914 was \$907,672,788 making an increase in the taxable property of the State for the year 1915 of about \$92,000,000, or 11 per cent.

The highest per cent of increase, 80, is applied to three counties, Alleghany, Sampson and Scotland.

It is further ordered that the increase in assessment in the above named counties shall not be applied in the year 1915 to the real property of any banks or banking corporations, nor to the real property of railroad companies outside of their right of way, the increase in the assessments of the property of the banking and railroad corporations having been embraced and covered in the assessment of these corporations by the commission itself. The percentage of increase ordered in these counties, however, will be applied to the real property of banks and railroads next year and thereafter.

The commission states that the returns made by the counties show an actual decrease in the assessments over previous years.

Woodman Camp Formally Opened.

Charlotte Observer.

With their huge axes hanging without, a warning to any evildoers who may be prowling around and likewise the symbol of achievement, aid and welcome to all Woodmen and friends of Woodmen who may sojourn for a season with them, the annual encampment of the Uniform Rank, Woodmen of the World, was convened in this city Monday. It will continue in session throughout the week, concluding Saturday at noon, when the big flag, emblem of fraternity, patriotism and advancement, will be lowered and the camp will then be formally declared adjourned.

There are 30 camps in "the forest" as the beautiful tented city is called, and there is every adjunct of a regular army post, with the single exception that instead of guns with powder and shot, there are the Woodmen axes, which are in themselves symbols of warfare, warfare against ignorance, vice and superstition. There is the commissary department, the mess hall, tents for the instruction of officers, parade grounds and even a hospital contingent. The camp is guarded by sentinels and everything is conducted according to military rules and regulations. It is a camp in every sense of the term.

The first formal exercises of the encampment occurred Monday morning at 9 o'clock when guards were mounted and then at 10 o'clock the big flag was raised. The ceremonies incident to the lifting of the flag were very beautiful and impressive.

The Mexican Border Trouble.

Washington, Sept. 5.—All United States troops on the Mexican border were under orders tonight to be in readiness to meet any emergency. War Department officials said extraordinary vigilance had been ordered as a result of repeated raids in American territory by Mexican brigands and soldiers, and renewed reports of preparation for an organized invasion from across the Rio Grande in the States of Coahuila and Nuevo Leon.

As long as the raiders continue to appear only in small bands, it is understood none of them will be followed into their own territory, but officials indicated tonight that the American commanders would not hesitate to pursue the enemy until they were completely routed should anything resembling an organized invasion of the United States be encountered.

Persistent reports that some of the Mexican raiders slain wore Carranza uniforms have reached officials here. Rumors have come too, that there is a concerted move by Carranza leaders in Nuevo Leon and Coahuila to arouse Mexican sentiment against the Pan American movement for re-establishment of constitutional government in the Republic.
