

### Albemarle Goes Forward

Two New Mills and Sewerage and No Commercial Club Either.

Charlotte Observer of Saturday morning  
Albemarle, Sept. 24.—Maybe several thought the statement made by your correspondent through the columns of The Observer several weeks ago to the effect that Albemarle was soon to have another \$500,000 invested in new cotton mills was newspaper "dope." If so this is now no longer the belief, for there is no longer any doubt or speculation.

Several days ago the Wicasset Mills Company and the Efrid Manufacturing Company made the Board of Aldermen this proposition: The bonds for sewer would be purchased by the mills at considerably more than the highest offer of any other company making bids. The mills would pay \$4,000 towards putting down the main line of the sewer system and commence within the next few days and build two additional cotton mills, the Efrid Manufacturing Company one and the Wicasset Mills Company the other both to cost completed not less than \$500,000. This offer was made to the aldermen in consideration that the city would allow the mills to tap the town's sewer line and take care of all future suits against the city and the mill companies for damages caused from the emptying of the sewer.

The board accepted the offer and an architect from Concord will be here tomorrow to take charge of the erection of the mills which will commence at once. The bonds will be bought by home companies and the sewer system will be put down, work to commence in the next few days. Mayor M. J. Harris, who has been pushing the matter for several days is optimistic today over the future of Albemarle and thinks that this is only the beginning of what will make piedmont North Carolina "sit up and take notice."

Another gentleman who is on the inside of certain business matters told the writer this morning that while the \$500,000 mills was a big thing for Albemarle, it was only a forerunner of much greater things coming to this city in the near future.

Another gentleman, who stated his information was direct, told your correspondent that along with the two new mills being commenced, the Wicasset Mills Company and Efrid Manufacturing Company would erect near the mills graded school building a Y. M. C. A. and gymnasium for the operatives of the mills of these two companies. It is said also that the Wicasset Mills Company is to commence at once the erection of a dwelling for Mr. Denning, the mill's superintendent, which when completed will be one of the most handsome and costly residences in the city. This will be a following of the precedent set by the Efrid manufacturing Company, that company having just finished a handsome residence for its superintendent, Mr. Banette.

So, with all these new enterprises and the finishing of the aluminum factory at Badin, it looks like Albemarle is on the threshold of a bright future.

### Biliousness and Constipation.

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." Obtainable everywhere.

### Not in the Show Trust.

The Robinson Famous Shows, which exhibit here October 18th, are not in the show trust. Several inducements were made to them to join the show trust, but they refused all offers, and will continue to give the public the same high class shows, only this season will be enlarged in every department, as the show now travels on its own special trains of cars.

The trust magnates advised the management to obliterate the street parade, but he refused positively, and this year has enlarged his street pageant so as to make it two miles in length, with plenty of music, pretty ladies, fine horses, funny clowns and massive open cages of animals and takes place daily on the public streets free.

### The Equalization Snag.

While serving Mecklenburg County in the last Legislature, Mr. Robert S. Hutchison made as thorough a study of the tax question as time, circumstances and research would permit. He had resort to letters to his constituents asking what they found wrong with the old system and in visiting suggestions as to how an improvement might be brought about. It was remarkable as one feature in the replies that many farmers put low values and farming lands into evidence and suggested that a more equitable assessment on these lands would be productive of beneficial results. We believe the Observer's contention that there has been too much an inclination to bring about an equalization in taxation by raising the values of buildings in cities out of proportion to the raise in values on farm lands will stand investigation. A reference to that "little map" shows that in only one township in Mecklenburg is land taxed as high as \$12 an acre, and that is in Sharon, near Charlotte. Some farm lands that might be bought for from \$75 to \$150 an acre are taxed around \$10 an acre. But it might be treason to talk along that line.—Charlotte Observer.

### Worth Their Weight in Gold.

"I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headache, dizzy spells and other symptoms denoting a torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold," writes Miss Clara A. Driggs, Elba, N. Y. Obtainable everywhere.

### The Parade.

Too much cannot be said of The Robinson's Famous Shows parade, which takes place daily on the public streets free for everybody, and is one mile in length and introducing features never attempted by any other show for their street pageant. No parade is complete without a caliope and the management has spared no expense in this everlasting feature of the parade. Not only have the Robinson Famous Shows one of the finest caliopes in the world, but have been fortunate enough to secure the services of Signor Lamont, who is considered the premier of caliope players, and will certainly gladden the hearts of the children, and everybody as well, with up-to-date selections.

### None Equal to Chamberlain's.

"I have tried most all of the cough cures and find that there is none that equal Chamberlain's Cough Remedy. It has never failed to give me prompt relief," writes W. V. Harner, Montpelier, Ind. When you have a cold give this remedy a trial and see for yourself what a splendid medicine it is. Obtainable everywhere.

### Wanted Shipments of Cream.

Highest market price paid for butter fat. Splendid outlets for butter. Start a cream route in your section. If already shipping, give us trial. Cans furnished free for thirty days. Baggage rates on the Southern Railway. CAROLINA CREAMERY Co. Greensboro, N. C.

### Every Home Needs a Faithful Cough and Cold Remedy.

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before, but I know that positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c. and \$1.00

### Foreign Trade of United States Broke All Records.

Washington, Sept. 22.—The foreign trade of the United States broke all records during the first year of European war, according to figures made public today by the Bureau of Foreign and Domestic Commerce covering the period from August 1914, to August 1915. "Statistics show," said today's announcement, "that for the first time in the Nation's history exports exceeded \$3,000,000,000 in value for a twelve months period. For the twelve months ending with August 31, 1915, exports from the United States aggregated \$3,085,088,880 against \$2,280,135,791 in a like period one year ago. Twelve months imports of merchandise totalled \$1,689,698,984 compared with \$1,906,657,515 last year."

### State News Items

News Concentrated for those who Want to Know about Home Affairs.

Saturday, a horse being driven by Cyrus Hilton, a Confederate veteran who lived within four miles of Thomasville, ran away and threw him out, crushing his skull and causing his death.

Little Elizabeth Stroud, nine-year-old daughter of Mrs. Irene Stroud, suffered a remarkable and painful accident in Raleigh Sunday when her foot slipped through an iron grating street drain in such a way that her leg went through above the knee and it was impossible to extricate it until an iron worker had been sent for and the grating sawed in two. No one seems able to explain how the knee ever passed through the grating in a way that there could be no possible way found to manage its withdrawal. The bone was not broken nor were there serious abrasions. However, the child was fast in the grating nearly an hour.

C. R. Blanton of Hickory, was fatally injured and his brother, H. Q. Blanton of Newton, had his right leg broken when a motorcycle on which they were riding collided with an automobile driven by O. M. McCorkle of Newton, Saturday evening. The accident happened on the Newton road near Oyama. The Messrs. Blanton were coming towards Hickory and Mr. McCorkle and party were going to Newton, their home. It seems from reports that they met on a curve and both were taking the inside of the track. On account of confusion both turned to the outside when the machines met. The motorcycle was wrecked and the automobile put out of running order. None of the party in the car was injured to any extent. Both injured men were taken to the Richard Baker Hospital in Hickory, where an examination revealed that C. R. Blanton was suffering from a compound concussion of the brain and died later in the afternoon.

### To the Public.

"I feel that I owe the manufacturer of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." Obtainable everywhere.

### Have Reached Agreement as to Loan.

New York, Sept. 26.—The Anglo-French financial commission and Eastern bankers have reached a virtual agreement on the details of the proposed billion dollar credit loan to Great Britain and France. Four members of the commission will leave here tomorrow afternoon for Chicago to confer with Western bankers over the tentative terms.

Following are the details of the loan upon which the commission and the bankers of Eastern States are in virtual accord.

The amount—approximately \$500,000,000.

The securities—joint Anglo-French notes.

The interest rate—5 per cent. to yield the investor about 5 1/2 per cent, by the notes being offered at slightly under par.

A conversion privilege at maturity of the notes—the holder to receive cash or joint Anglo-French 15 or 20-year bonds bearing four and one-half per cent. interest.

It became known tonight also that the entire tentative program had been submitted to London and Paris and that the attitude of the home governments so far as disclosed is one of approval. It is assumed that the parliaments of both Great Britain and France would have to authorize the issuance of the loan.

New York, Sept. 27.—Lord Reading, Lord Chief Justice of England, and three of his five associates on the Anglo-French Financial Commission left New York today for Chicago to confer with Western bankers over the tentative terms of the proposed \$500,000,000 credit loan to Great Britain and France. The party will reach Chicago tomorrow morning and expects to remain there several days.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

### Outlaw Caught by Graham Officers.

Andrews, Sept. 26.—Last night about 8 o'clock the little town of Robbinsville was once more in excitement, when Sheriff Ammons walked into the town with the outlaw Ed. Williams in his custody and placed him in the county jail.

He in company with Will Wiggins, a brother of Hardee Wiggins, who with Merritt Miller was convicted of murder in the first degree at the last term of the Superior Court of Graham County for killing or aiding in the killing of Phillip Phillips, and sentenced to die in the electric chair on November 5. It is said that Williams has made the statement that he was the one that shot Phillips and not the man who were convicted of the crime. It will be recalled that about four months ago Williams is alleged to have shot and killed Mrs. Phillip Phillips, her son and daughter at their home near Topton. Phillip Phillips at the time offered a reward of \$300 for his capture and the State brought that sum to \$600. At the last term of the court of Graham County Judge Ferguson declared Williams to be an outlaw.

### Southern Aluminium Has Sold Out, It Is Reported.

While the officials of the South-

ern Aluminium Company up to the present refuse to give out any definite information regarding the resumption of operations at the big plant at Badin, outside information and general rumor has it that work will be commenced by November 1. The officials of the Southern Aluminium Company make no secret of the fact that there are at present negotiations on foot between that company and the American Aluminium Company with a view to selling out to the latter. A large number of surveyors and civil engineers have just commenced work of a complete survey. Whether this is for the purpose of information on the part of the American Aluminium Company before the trade, or whether the trade has been made already, and this is the commencement of actual operations on the part of the American Aluminium Company, is not known outside of official circles. It is reported, however, that the contract of sale has already been made and that the papers have been forwarded to France to be signed by the proper officials of the company.—Cor.

### No. 666

This is a prescription prepared especially for MALARIA or CHILLS or FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c
